Lampelc C1Pro

Lampelc C1Pro VR Charging Dock Instruction Manual

Model: C1Pro | Brand: Lampelc

INTRODUCTION

The Lampelc C1Pro VR Charging Dock is designed to organize and charge your VR headset and accessories. It provides a dedicated storage solution while ensuring your VR headset is always ready for use. This manual will guide you through the setup, operation, and maintenance of your charging dock.

Key Features:

- **Efficient Charging & Smart LED Indicators:** Features a dedicated charging port for your headset with intuitive LED status lights. Solid Red indicates charging, and Vibrant Green signals a full charge (Total charging time: 3–5 hours).
- **All-in-One VR Hub:** Provides a dedicated home for your headset, touch controllers, headphones, and cables. Designed to accommodate larger accessories, including Elite Straps and third-party head straps, without tipping.
- **Wide Compatibility:** Compatible with Meta Quest 3S / 3 / 2, Valve Index, HP Reverb G2, HTC Vive, and Oculus Rift S.
- **Lens-Safe Silicone Protection:** Features a wide, non-slip silicone tray that cradles the headset, protecting lenses from scratches and dust.
- **Stable Base & Rotatable Hooks:** Built with a widened, reinforced base and anti-slip feet for maximum security. Rotatable controller hangers adjust to fit various controller shapes.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- VR Stand (Main Unit)
- Integrated Type-C Charging Cable
- Controller Hangers (pre-attached or separate, depending on model revision)

SETUP INSTRUCTIONS

Follow these steps to assemble your Lampelc C1Pro VR Charging Dock:

1. Step 1: Attach Controller Holders

Secure the two controller holders to the designated slots on the main stand unit. Ensure they click firmly into place.

Image: A visual guide showing the process of attaching the controller holders to the main VR stand unit.

2. Step 2: Connect Charging Cable

Locate the integrated Type-C charging cable on the stand. Ensure it is properly routed and accessible for connecting to your VR headset.

3. Step 3: Place Headset and Controllers

Carefully place your VR headset onto the silicone tray at the top of the stand. Connect the Type-C charging cable to your headset's charging port. Hang your VR controllers on the side hangers. The hangers are rotatable to accommodate different controller types.

Keeps the headset charged and organized With RGB lights

Image: A Meta Quest 3 headset resting on the charging dock, with its controllers neatly placed on the side hangers, and the charging cable connected.

4. Step 4: Connect Power

Plug the power adapter (not included, use your VR headset's original adapter or a compatible 5V/2A adapter) into a wall outlet and connect it to the charging dock's power input port.

OPERATING INSTRUCTIONS

Charging Your VR Headset:

1. Ensure the charging dock is connected to a power source.
2. Place your VR headset onto the silicone tray.
3. Connect the integrated Type-C charging cable from the dock to your VR headset's charging port.

4. Observe the LED indicator on the dock:
 - **Solid Red:** Indicates the VR headset is currently charging.
 - **Vibrant Green:** Indicates the VR headset is fully charged.
5. Charging typically takes 3-5 hours for a full charge.

Note: This charging dock is designed to charge the VR headset only. It does not provide charging functionality for VR controllers.

Wide Compatibility

MAINTENANCE

To ensure the longevity and optimal performance of your Lampelc C1Pro VR Charging Dock, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surface of the dock. Avoid abrasive cleaners or solvents that could

damage the finish.

- **Silicone Tray:** Periodically check the silicone tray for dust or debris. Gently wipe it clean to maintain its non-slip properties and protect your headset lenses.
- **Cable Management:** Ensure the charging cable is not kinked or strained. Proper cable management helps prevent wear and tear.
- **Placement:** Place the dock on a stable, flat surface away from direct sunlight, heat sources, and moisture.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Headset not charging (No Red LED)	Power adapter not connected or faulty. Charging cable not properly connected to headset or dock. Headset charging port issue.	Ensure power adapter is securely plugged in and functional. Verify the Type-C cable is firmly connected to both the dock and the headset. Try charging the headset directly with its original cable and adapter to rule out a headset issue.
Slow charging	Underpowered USB adapter. Faulty charging cable.	Ensure you are using a 5V/2A (or higher) power adapter. Check the charging cable for damage.
Dock feels unstable or tips easily	Not placed on a flat surface. Excessive force when removing/placing items. Heavy accessories causing imbalance.	Place the dock on a firm, level surface. Exercise care when handling the headset and controllers on the stand. Ensure accessories like Elite Straps are properly seated and not causing undue leverage.

SPECIFICATIONS

Feature	Detail
Brand	Lampelc
Model Name	C1Pro
