

EVVO V0316

EVVO Mi45 Glass Built-in Microwave Oven User Manual

Model: V0316

1. IMPORTANT SAFETY INSTRUCTIONS

Read all instructions carefully before using the appliance. Keep this manual for future reference. Failure to follow these instructions may result in electric shock, fire, or injury.

- Do not attempt to operate this oven with the door open as this can result in harmful exposure to microwave energy.
- Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.
- Do not operate the oven if it is damaged. It is particularly important that the oven door closes properly and that there is no damage to the: (1) door (bent), (2) hinges and latches (broken or loosened), (3) door seals and sealing surfaces.
- Only qualified service personnel should adjust or repair this oven.
- Ensure proper ventilation around the appliance.
- Do not heat liquids or other foods in sealed containers as they are liable to explode.
- Do not use corrosive chemicals or vapors in this appliance.
- Always use oven mitts when handling hot items from the microwave.

2. PRODUCT OVERVIEW

The EVVO Mi45 Glass Built-in Microwave Oven is designed for seamless integration into your kitchen, offering a 25-liter capacity and multiple cooking functions.

2.1. Main Components

- **Oven Cavity:** 25-liter capacity for various food items.
- **Glass Door:** Features a brilliant effect finish, providing a modern aesthetic.
- **Control Panel:** Digital display and touch controls for easy operation.
- **Turntable:** Ensures even cooking.
- **Grill Element:** Located at the top of the oven cavity for grilling functions.

3.2. Electrical Connection

Connect the appliance to a properly grounded electrical outlet. The microwave operates on 230 Volts. Consult a qualified electrician if you are unsure about the electrical installation.

4. OPERATING INSTRUCTIONS

The EVVO Mi45 offers 8 functions, including microwave, grill, and defrost options. Follow these steps for basic operation.

4.1. Basic Microwave Cooking

1. Place food in a microwave-safe container on the turntable.
2. Close the oven door securely.
3. Select the desired microwave power level using the control panel.
4. Set the cooking time using the timer function (up to 60 minutes).
5. Press the Start button to begin cooking.

4.2. Grill Function

The 1200W grill function is ideal for browning and crisping food. Use the included grill rack for best results.

1. Place food on the grill rack within a heat-resistant dish.
2. Select the Grill function on the control panel.
3. Set the desired grilling time.
4. Press the Start button. Monitor food closely to prevent burning.

4.3. Defrost Function

Defrost food efficiently by either weight or time.

- **Defrost by Weight:** Select the defrost function and input the weight of the food. The oven will automatically calculate the defrosting time.
- **Defrost by Time:** Select the defrost function and manually set the desired defrosting time.

5. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your microwave oven.

- **Interior Cleaning:** Wipe the oven cavity with a damp cloth after each use. For stubborn stains, use a mild detergent. Do not use abrasive cleaners.
- **Exterior Cleaning:** Clean the exterior surfaces, including the glass door and control panel, with a soft, damp cloth. Avoid excessive moisture.
- **Turntable:** The glass turntable and roller ring can be removed for cleaning. Wash them in warm, soapy water or in a dishwasher.
- **Door Seals:** Regularly inspect and clean the door seals and sealing surfaces to ensure proper closure and prevent microwave leakage.

6. TROUBLESHOOTING

If you encounter issues with your microwave oven, refer to the following common problems and solutions before contacting service.

Problem	Possible Cause	Solution
Oven does not start	Door not closed properly; Power cord unplugged; Fuse blown or circuit breaker tripped.	Ensure door is firmly closed; Check power cord connection; Check household fuse or reset circuit breaker.
Food not heating	Incorrect power level or cooking time set; Metal objects in oven.	Adjust power level and time; Remove any metal items.
Turntable not rotating	Turntable not correctly placed; Obstruction under turntable.	Ensure turntable and roller ring are correctly positioned; Remove any obstructions.
Sparking inside oven	Metal or foil used; Food residue.	Remove all metal items; Clean oven interior thoroughly.
