

## Electight USHML15Y

# Electight 14 LEDs Motion Sensor Light Indoor

## User Manual

### INTRODUCTION

Thank you for choosing the Electight 14 LEDs Motion Sensor Light. This product is designed to provide convenient, energy-efficient lighting for various indoor spaces. Featuring advanced motion sensing technology, multiple operating modes, and a rechargeable battery, it offers a versatile lighting solution for your home. Please read this manual thoroughly before use to ensure proper operation and longevity of your device.

### SAFETY INFORMATION

- Do not disassemble or modify the light.
- Keep away from water and high humidity environments. This product is for indoor use only and is not waterproof.
- Avoid direct exposure to strong light sources, which may interfere with the motion sensor.
- Do not expose to extreme temperatures.
- Use only the provided USB charging cables for recharging.
- Keep out of reach of children.

### WHAT'S IN THE BOX

Your package should contain the following items:

- 3 x Motion Sensor Lights Indoor

- 3 x USB Charging Cables
- 3 x Magnetic Sheets
- 3 x Iron Sheets

Image: Package contents including lights, cables, and mounting accessories.

## PRODUCT OVERVIEW

The Electight Motion Sensor Light features 14 high-quality LED beads for soft, flicker-free illumination. Its compact and round design (3.26"D x 3.26"W x 0.78"H) makes it suitable for various indoor applications.

### Key Features:

- **Eye Protection Night Light:** 14 LED beads provide soft, glare-free warm white light (3000 Kelvin).
- **Auto Motion Sensor & 3 Modes:** Adjustable ON/AUTO/OFF modes. In AUTO mode, it detects motion within 120° and 9.8 ft (3m) and turns off after 15 seconds of no motion.
- **Rechargeable & Long Battery Life:** Built-in high-capacity battery, rechargeable via USB-C. Lasts over 90 days in AUTO mode or 8-12 hours in ON mode on a full charge.
- **Lightweight & Portable:** Easy magnetic installation without additional tools.

## SETUP

The Electight Motion Sensor Light features a simple magnetic installation method, requiring no drilling or complex tools.

### Magnetic Installation Method:

1. Attach the small circular magnet to the center of the night light's back.
2. Remove the blue protective film from the iron sheet.
3. Paste the iron sheet firmly onto the desired clean, dry surface where you need lighting.
4. Attach the night light (with the magnet attached) to the iron sheet. The light will securely hold in place magnetically.

## OPERATING INSTRUCTIONS

The light features a simple slide switch to select between three operating modes:

- **ON Mode:** The light remains continuously on. Use this mode for constant illumination, such as an emergency light.
- **AUTO Mode:** The light activates automatically when motion is detected in dark conditions. It will turn off approximately 15 seconds after no motion is detected. This mode is ideal for energy saving and hands-free operation in areas like hallways, closets, or stairs.
- **OFF Mode:** The light is completely off.

## CHARGING

The Electight Motion Sensor Light is equipped with a built-in rechargeable Lithium Polymer battery. To charge the device:

1. Locate the USB-C charging port on the side of the light.
2. Connect one end of the provided USB charging cable to the light and the other end to a USB power source (e.g., computer, power bank, USB wall adapter).
3. A red indicator light will illuminate while charging. The light will turn off when the battery is fully charged.

A full charge typically takes approximately 2 hours. The light can last for over 90 days in AUTO mode or 8 to 12 hours in continuous ON mode, depending on usage frequency.

## MAINTENANCE

To ensure optimal performance and longevity of your Electight Motion Sensor Light:

- **Cleaning:** Wipe the light gently with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** If storing for an extended period, charge the battery fully and store in a cool, dry place. Recharge every 3-6 months to maintain battery health.
- **Sensor Care:** Keep the motion sensor lens clean and free from obstructions to ensure accurate detection.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on in AUTO mode.	Insufficient darkness; battery low; sensor obstructed; outside sensing range.	Ensure ambient light is low enough for AUTO mode. Charge the light. Clear any obstructions from the sensor. Move within the 9.8 ft (3m) sensing range.
Light stays on continuously in AUTO mode.	Constant motion detected; light source interference.	Ensure no continuous motion in the sensing area. Relocate the light away from other light sources that might trigger it.
Light is dim or flickers.	Low battery.	Recharge the light fully.

Problem	Possible Cause	Solution
Light does not charge.	Faulty cable or power source; charging port issue.	Try a different USB cable and power source. Ensure the cable is properly inserted.

## SPECIFICATIONS

Feature	Detail
Model Number	USHML15Y
Dimensions	3.26"D x 3.26"W x 0.78"H (83mm x 83mm x 20mm)
Light Source	14 LEDs
Color Temperature	3000 Kelvin (Warm White)
Power Source	Battery Powered (1 Lithium Polymer battery included)
Charging Port	USB-C
Motion Sensor Range	Up to 9.8 ft (3m)
Motion Sensor Angle	120°
Auto-off Time	15 seconds (after no motion detected)
Material	Plastic, Iron (Base Material)
Indoor/Outdoor Usage	Indoor Only
Included Components	Lights, USB Cables, Magnetic Sheets, Iron Sheets

## WARRANTY AND SUPPORT

Electight products are manufactured to high-quality standards. For any product-related inquiries, technical support, or warranty claims, please contact Electight customer service through the retailer's platform or the official brand website. Please retain your proof of purchase for warranty purposes.
