## IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembling and using this canopy. Failure to follow these instructions may result in injury or damage to the product.

- **Weather Conditions:** This canopy is designed for temporary use. Do not leave it unattended in severe weather conditions such as heavy rain, strong winds, or snow. Remove the top cover in inclement weather to prevent damage.
- **Assembly:** Always assemble the canopy with at least 2-3 people. Ensure all locking mechanisms are securely engaged before use.
- **Anchoring:** Always use the provided ropes and stakes, along with sandbags, to properly anchor the canopy to the ground. This prevents wind from lifting or moving the structure.
- **Clearance:** Ensure adequate clearance around the canopy, away from power lines, trees, or other structures.
- **Fire Safety:** Keep all flame and heat sources away from the canopy fabric. The fabric is not fireproof.
- **Children:** Keep children away from the assembly area. Do not allow children to play or hang on the canopy frame.

Video demonstrating the durability of the COBIZI 10x20 Pop Up Canopy frame, showing it can support significant weight. This highlights the robust construction of the canopy.

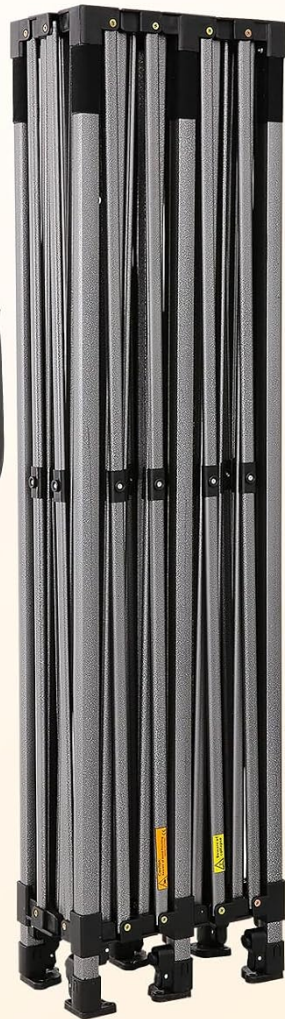

## PACKAGE CONTENTS

Verify that all components listed below are present in your package before beginning assembly. If any parts are missing or damaged, please contact customer support.

# PACKAGE LIST

1x Roller Bag

1x Heavy Duty Frame

2x Crossbars(with Marbles)

2x Crossbars(with Grooved)

3x Awning Support Rods

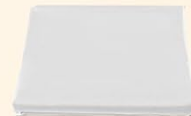

3x Awning  
Connectors

1x Awning Cloth

4x Screws  
and Nuts

1x Canopy Top

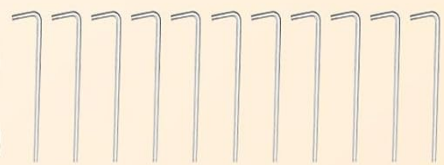

4x Sidewalls

4x Sandbags

4x Ropes

10x Stakes

Image: Detailed view of all items included in the COBIZI 10x20 Pop Up Canopy package, such as the frame, canopy top, sidewalls, awning, and accessories.

- 1x Heavy Duty Frame
- 1x Canopy Top (420D PU Oxford Fabric)
- 4x Sidewalls
- 1x Awning Cloth
- 3x Awning Support Rods
- 3x Awning Connectors
- 2x Crossbars (with Marbles)
- 2x Crossbars (with Grooved)
- 4x Screws and Nuts
- 4x Sandbags
- 4x Ropes
- 10x Stakes
- 1x Roller Bag

## SETUP INSTRUCTIONS

Assembly requires 2-3 people. No tools are required for the main canopy setup.

### Main Canopy Setup

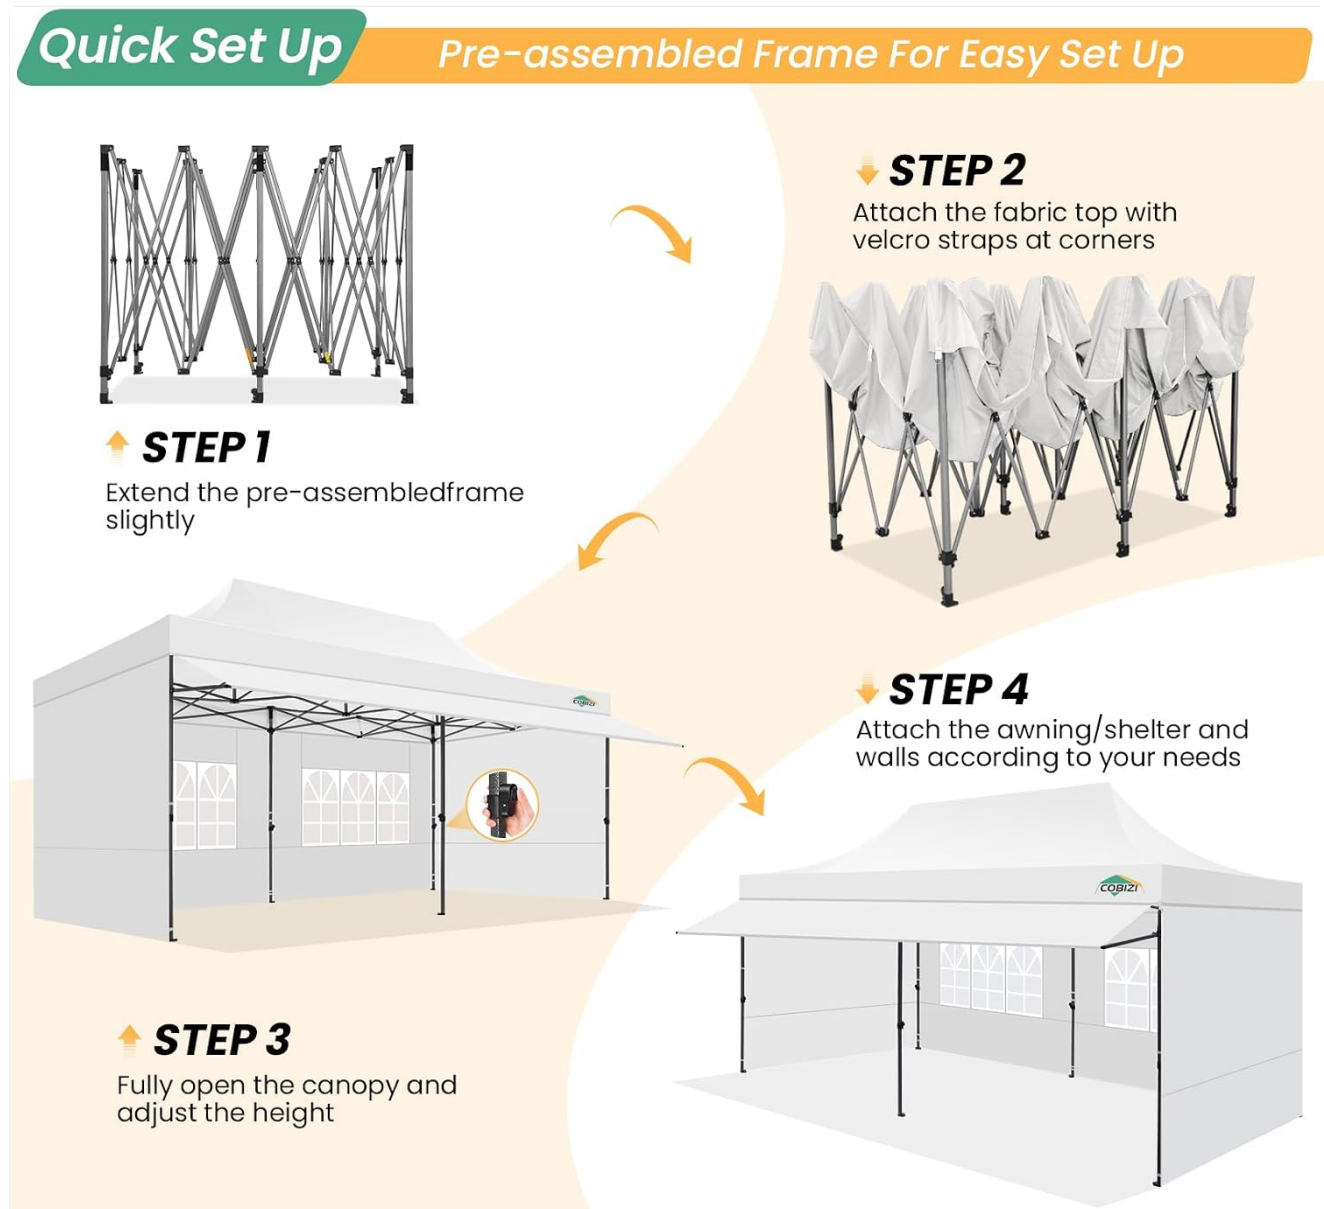

Image: Visual guide for quick setup, showing the frame extension, fabric attachment, full opening, and wall/awning installation.

1. **Step 1: Extend the Frame.** Take the fully assembled frame out of the roller bag. With a person at each end, slightly extend the pre-assembled frame.
2. **Step 2: Attach the Fabric Top.** Place the canopy fabric top over the partially extended frame. Secure the fabric to the frame using the velcro straps located at the corners.
3. **Step 3: Fully Open and Adjust Height.** Continue to fully open the canopy frame. Once fully extended, adjust the height of the legs to your desired level using the thumb button system. Ensure all legs are locked into place.
4. **Step 4: Attach Awning and Sidewalls.** Attach the removable awning and sidewalls according to your needs. (Refer to the 'Awning Setup' section for detailed instructions).

Video: Step-by-step guide on setting up the COBIZI 10x20 Pop Up Canopy, demonstrating the process of extending the frame, attaching the canopy top, and securing the structure.

## Awning Setup

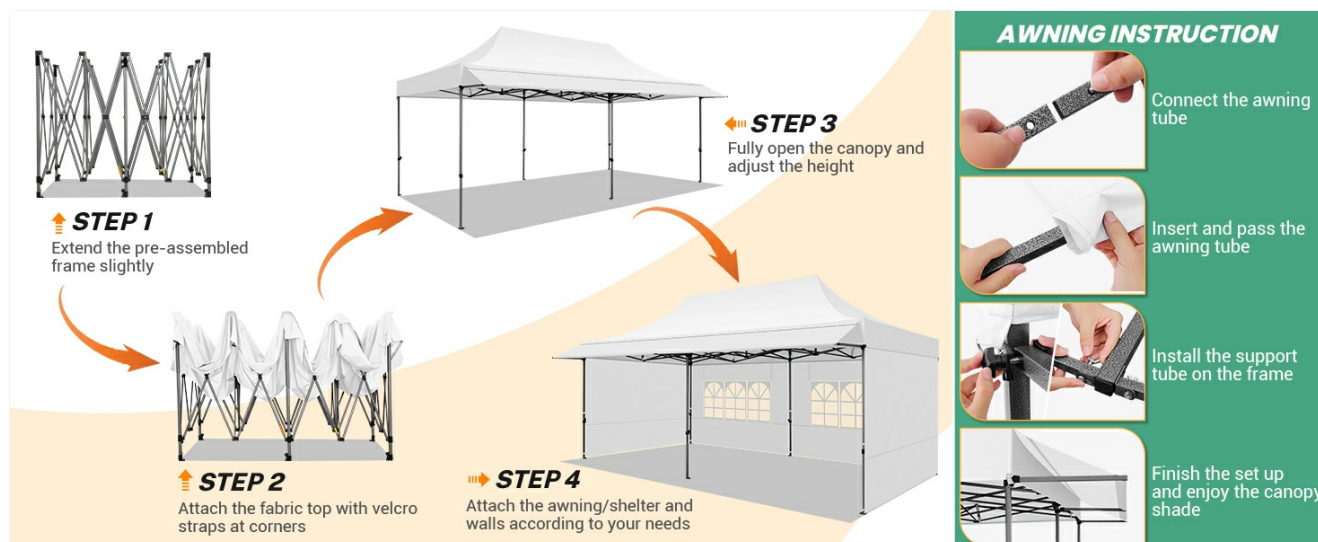

Image: Visual instructions for attaching the awning, including connecting tubes, inserting them into the awning cloth, and installing support tubes.

1. Connect the awning tubes using the provided connectors.
2. Insert the connected awning tubes into the sleeves of the awning cloth.
3. Install the awning support tubes onto the main canopy frame.
4. Secure the awning cloth to the support tubes and frame.

Video: Quick and easy procedures for setting up the awning component of the COBIZI canopy, detailing the connection of crossbars and support rods.

## OPERATING INSTRUCTIONS

### Adjusting Height

The canopy features 3 adjustable height settings to suit various needs.

Image: A hand pressing the thumb button on a canopy leg to adjust its height, illustrating the easy adjustment mechanism.

1. Locate the thumb button on each leg of the canopy frame.
2. Press the thumb button and gently lift or lower the leg to the desired height.

3. Ensure the button snaps securely into one of the three height positions (122", 126", or 130"). Verify all four legs are at the same height for stability.

## Using Sidewalls and Awning

The canopy includes removable sidewalls and an awning for added protection and versatility.

### Larger protection area

With removable awning, it provide more area to prevent the sun and the rain.

Image: A close-up view of the removable awning, highlighting its design and how it extends the shaded area.

- **Sidewalls:** The four sidewalls can be attached to the canopy frame using the integrated magic straps. This provides additional shelter from sun, wind, or light rain.
- **Awning:** The removable awning provides an extended shaded area. It can be installed in two positions:
  - **Installation Method 1 (Greater Shading Area):** Position the awning for maximum horizontal extension, ideal for sunny conditions.
  - **Installation Method 2 (More Sloping Angle):** Position the awning with a steeper angle to allow rainwater to run off quickly, suitable for light rain.

Image: A comparative diagram showing two awning installation methods: one for wider shade coverage and another with a steeper angle for efficient rainwater drainage.

## MAINTENANCE

Proper maintenance will extend the life of your COBIZI canopy.

- **Cleaning:** Clean the canopy fabric with mild soap and water. Do not use harsh chemicals or abrasive cleaners, as these can damage the PU coating. Allow the fabric to dry completely before storing.
- **Storage:** When not in use, especially during off-season or inclement weather, disassemble the canopy and store it in the provided roller bag in a dry, cool place.
- **Frame Care:** Inspect the powder-coated steel frame periodically for any signs of rust or damage. Clean any dirt or debris from the frame.
- **Inclement Weather:** Always remove the top cover and sidewalls in anticipation of heavy rain, strong winds, or snow to prevent structural damage and prolong the product's lifespan.

## TROUBLESHOOTING

This section addresses common issues you might encounter.

- **Canopy is difficult to open/close:** Ensure the frame joints are clean and free of debris. Apply a silicone-based lubricant if necessary. Ensure all locking pins are disengaged when closing.
- **Water pooling on the canopy top:** This can occur during heavy rain if the canopy is not properly tensioned or if the awning is not set to the sloping angle. Ensure the fabric is taut and consider adjusting the awning position for better runoff.
- **Canopy feels unstable:** Verify that all legs are extended to the same height and securely locked. Ensure the canopy is properly anchored with stakes, ropes, and sandbags, especially in breezy conditions.
- **Sidewalls do not fit correctly:** Ensure the sidewalls are oriented correctly and attached evenly to the frame using all available magic straps.

## SPECIFICATIONS

| Feature                | Detail                              |
