ODK Rid-25

ODK L-Shaped Gaming Desk User Manual

Model: Rid-25

1. Introduction

Thank you for purchasing the ODK L-Shaped Gaming Desk. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure you get the most out of your new desk. Please read this manual thoroughly before beginning assembly or use.
The ODK L-Shaped Gaming Desk combines a vintage brown aesthetic with modern functionality, including integrated LED lighting, power outlets, and USB ports, designed for both gaming and office environments.

2. Safety Information

Always follow basic safety precautions when assembling and using this product to reduce the risk of injury or damage.

- Keep all packaging materials away from children.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not overload the desk or shelves. Refer to the specifications for weight limits.
- Keep liquids away from electrical components (power outlets, USB ports, LED lights).
- Use only the provided power cable and ensure it is properly connected to a grounded outlet.
- Avoid placing hot items directly on the desk surface without protection.
- Assembly should ideally be performed by two people for safety and ease.

3. What's in the Box

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Desk panels (L-shaped main top, monitor stand, side shelves)

- Metal frame components (legs, support bars)
- Assembly hardware (screws, bolts, nuts, Allen wrenches, screwdriver)
- Integrated power outlet unit (2 AC outlets, 2 USB-A ports)
- LED light strip with remote control
- Cable management clips
- Instruction Manual

The product includes an integrated power outlet with two AC sockets and two USB-A ports, along with a built-in USB port for convenient device charging.

4. Setup and Assembly

Follow these steps for proper assembly. It is recommended to have a second person assist with assembly.

4.1 Preparation

1. Clear a spacious area for assembly.
2. Lay out all components and hardware, comparing them with the parts list.
3. Keep the included tools (Allen wrenches, screwdriver) handy. An electric screwdriver can speed up the process but use with caution to avoid overtightening.

4.2 Assembly Steps

1. **Assemble the Main Desk Frame:** Attach the metal legs and support bars to the main L-shaped desktop panel using the provided screws. Ensure all connections are finger-tight before fully tightening.
2. **Install Side Shelves:** Secure the metal frames for the side shelves to the main desk frame. Then, place the wooden shelf panels onto their respective frames.
3. **Attach Monitor Stand:** Position the monitor stand on the designated area of the main desktop and secure it with the appropriate fasteners.
4. **Integrate Power Outlet Unit:** Carefully insert the power outlet unit into the pre-cut opening on the desktop. Connect the power cable and route it using the provided cable management clips.
5. **Apply LED Light Strip:** Adhere the LED light strip to the underside of the monitor stand or main desktop as desired. Connect it to the power outlet unit or a separate power source if specified.
6. **Final Tightening:** Once all components are in place, systematically tighten all screws and bolts using the provided tools. Do not overtighten.
7. **Adjust Leveling Feet:** The desk features adjustable feet to ensure stability on uneven floors. Adjust each foot until the desk is level and stable.

5. Operating Instructions

5.1 Using the Integrated Power Outlet

- Plug the desk's main power cable into a standard wall outlet (220-250V/15A).
- Use the two AC outlets to power devices such as monitors, laptops, or lamps.
- Use the two USB-A ports (5V/2.1A) to charge smartphones, tablets, or other USB-powered devices.
- Ensure devices are within the specified power limits to prevent overload.

5.2 Controlling the LED Lighting

- The LED light strip is controlled by a wireless remote control.
- **Power On/Off:** Press the power button on the remote to turn the lights on or off.
- **Mode Selection:** Cycle through 10 dynamic lighting modes using the "Mode" button.
- **Brightness Adjustment:** Adjust the brightness level (6 levels) using the brightness up/down buttons.
- **Color Selection:** Choose from 10 different color variants using the dedicated color buttons or color wheel on the remote.
- **Memory Function:** The LED system features a memory function that automatically saves the last used setting.

6. Maintenance and Care

- **Cleaning:** Wipe the desk surface with a dry, soft cloth. For stubborn marks, use a slightly damp cloth with mild soap, then dry immediately. Avoid abrasive cleaners or harsh chemicals.
- **Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten as needed to maintain stability.
- **Spills:** In case of liquid spills, wipe them up immediately to prevent damage to the wood veneer and electrical components.
- **Heat Protection:** Use coasters or protective pads under hot items to prevent heat damage to the desk surface.
- **Cable Management:** Regularly check cable routing to ensure no cables are pinched or damaged. Utilize the provided cable clips to keep wiring tidy and safe.

7. Troubleshooting

7.1 Desk Stability Issues

- **Wobbling:** Check that all assembly screws are fully tightened. Adjust the leveling feet at the bottom of the desk legs to compensate for uneven floors.
- **Uneven Surface:** Ensure the desk is placed on a flat, stable surface. Use the adjustable feet to fine-tune the height of each corner until stable.

7.2 Power Outlet/USB Ports Not Working

- **No Power:** Verify that the desk's main power cable is securely plugged into a working wall outlet. Check the circuit breaker in your home.
- **Device Not Charging:** Ensure the device's charging cable is properly connected to the USB port. Try a different USB port or AC outlet to isolate the issue. Confirm the device itself is functioning correctly.
- **Overload:** If too many high-power devices are connected, the integrated power strip might have a safety cutoff. Unplug some devices and try again.

7.3 LED Lights Not Functioning

- **Lights Off:** Check if the LED strip is properly connected to its power source (either the integrated power outlet or a separate adapter). Ensure the remote control has working batteries.
- **Remote Not Responding:** Replace the remote control batteries. Ensure there are no obstructions between the remote and the LED receiver.
- **Inconsistent Lighting:** Check for any loose connections in the LED strip wiring.

8. Specifications

Brand	ODK
Model Number	Rid-25
Color	Vintage Brown
Product Dimensions	137 x 140 x 75.7 cm (L x W x H)
Material	Wood Veneer on Steel Frame
Item Weight	11.1 Kilograms
Special Feature	Reversible L-shape, Integrated LED Lighting, Integrated Power Outlets (2 AC, 2 USB-A)
Power Outlet Input	220-250V/15A
USB Output	5V/2.1A
LED Lighting	4000K (Neutral White), 10 Dynamic Modes, 6 Brightness Levels, Remote Control, Memory Function
Max Load Capacity	80 kg (for heavy bookshelves/items)

9. Warranty and Support

For warranty information, product support, or to report missing/damaged parts, please contact ODK customer service. Refer to your purchase documentation for specific warranty terms and contact details.
