WHATOOK LH2203

WHATOOK Portable Handheld Mini Fan User Manual

Model: LH2203

INTRODUCTION

Thank you for purchasing the WHATOOK Portable Handheld Mini Fan. This manual provides important information regarding the setup, operation, maintenance, and troubleshooting of your new fan. Please read this manual thoroughly before using the product to ensure safe and optimal performance.

This compact and powerful fan is designed to provide efficient personal cooling with its ultra-high wind speed and long-lasting rechargeable battery, making it ideal for various scenarios including travel, outdoor activities, and daily use.

PRODUCT FEATURES

- **Ultra-high Wind Speed:** Achieves up to 8.5m/s, providing powerful and rapid cooling.
- **Long Battery Life & Fast Charging:** Offers 6-10 hours of operation on a single charge, with 2A fast charging for quick replenishment (2.5 hours for 80% charge).
- **High Speed Brushless Motor:** Operates at up to 13,500 RPM for superior airflow.
- **Wind Gathering Design:** Engineered for concentrated and effective airflow.
- **Portable & Compact:** Lightweight and small design for easy carrying and storage.
- **Digital Display:** Shows current gear and battery level.

OPERATING INSTRUCTIONS

The WHATOOK Portable Fan features a simple one-button control for ease of use.

- Power On/Off:** Press and hold the power button (located on the handle) for 2 seconds to turn the fan on or off.
- Adjust Fan Speed:** Once the fan is on, short press the power button to cycle through the 5 available speed

settings. The digital display will show the current speed level (1-5).

3. **Digital Display:** The display shows the current fan speed (1-5) and the remaining battery level.

CHARGING INSTRUCTIONS

To charge your WHATOOK Portable Fan:

1. Locate the Type C charging port on the fan's handle.
2. Insert the provided Type C 2A cable into the fan's charging port.

3. Connect the other end of the USB cable to a compatible USB power source (e.g., a 5V/2A wall adapter, power bank, or computer USB port).
4. The digital display will show the charging progress. A full charge typically takes approximately 2.5 hours to reach 80% capacity.
5. Once fully charged, disconnect the charging cable.

A fully charged fan can provide 6-10 hours of continuous use, depending on the selected speed setting.

MAINTENANCE

To ensure the longevity and optimal performance of your fan, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the exterior of the fan. Do not use abrasive cleaners or immerse the fan in water.
- **Storage:** When not in use for extended periods, store the fan in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To preserve battery life, avoid fully discharging the battery frequently. Recharge the fan when the battery indicator is low.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not turn on.	Battery is depleted.	Charge the fan using the provided Type C cable.
Fan produces weak airflow.	Low battery level or fan is on a low speed setting.	Recharge the fan or increase the speed setting by short pressing the power button.
Fan makes unusual noise.	Obstruction in the fan blades or internal issue.	Turn off the fan and check for any obstructions. If the issue persists, contact customer support.
Charging is slow or not working.	Faulty cable, adapter, or charging port.	Ensure you are using the original Type C 2A cable and a compatible power adapter. Try a different cable or adapter.
