## Hot Wheels FTB68

# Hot Wheels Mega Garage Playset - FTB68

Replacement Two Lane Orange Track Piece Instruction Manual

## INTRODUCTION

---

This document provides essential information for the proper use, installation, and maintenance of your Hot Wheels Mega Garage Playset FTB68 Replacement Two Lane Orange Track Piece. This genuine replacement part is designed to seamlessly integrate with your existing FTB68 playset, ensuring continued enjoyment and functionality.

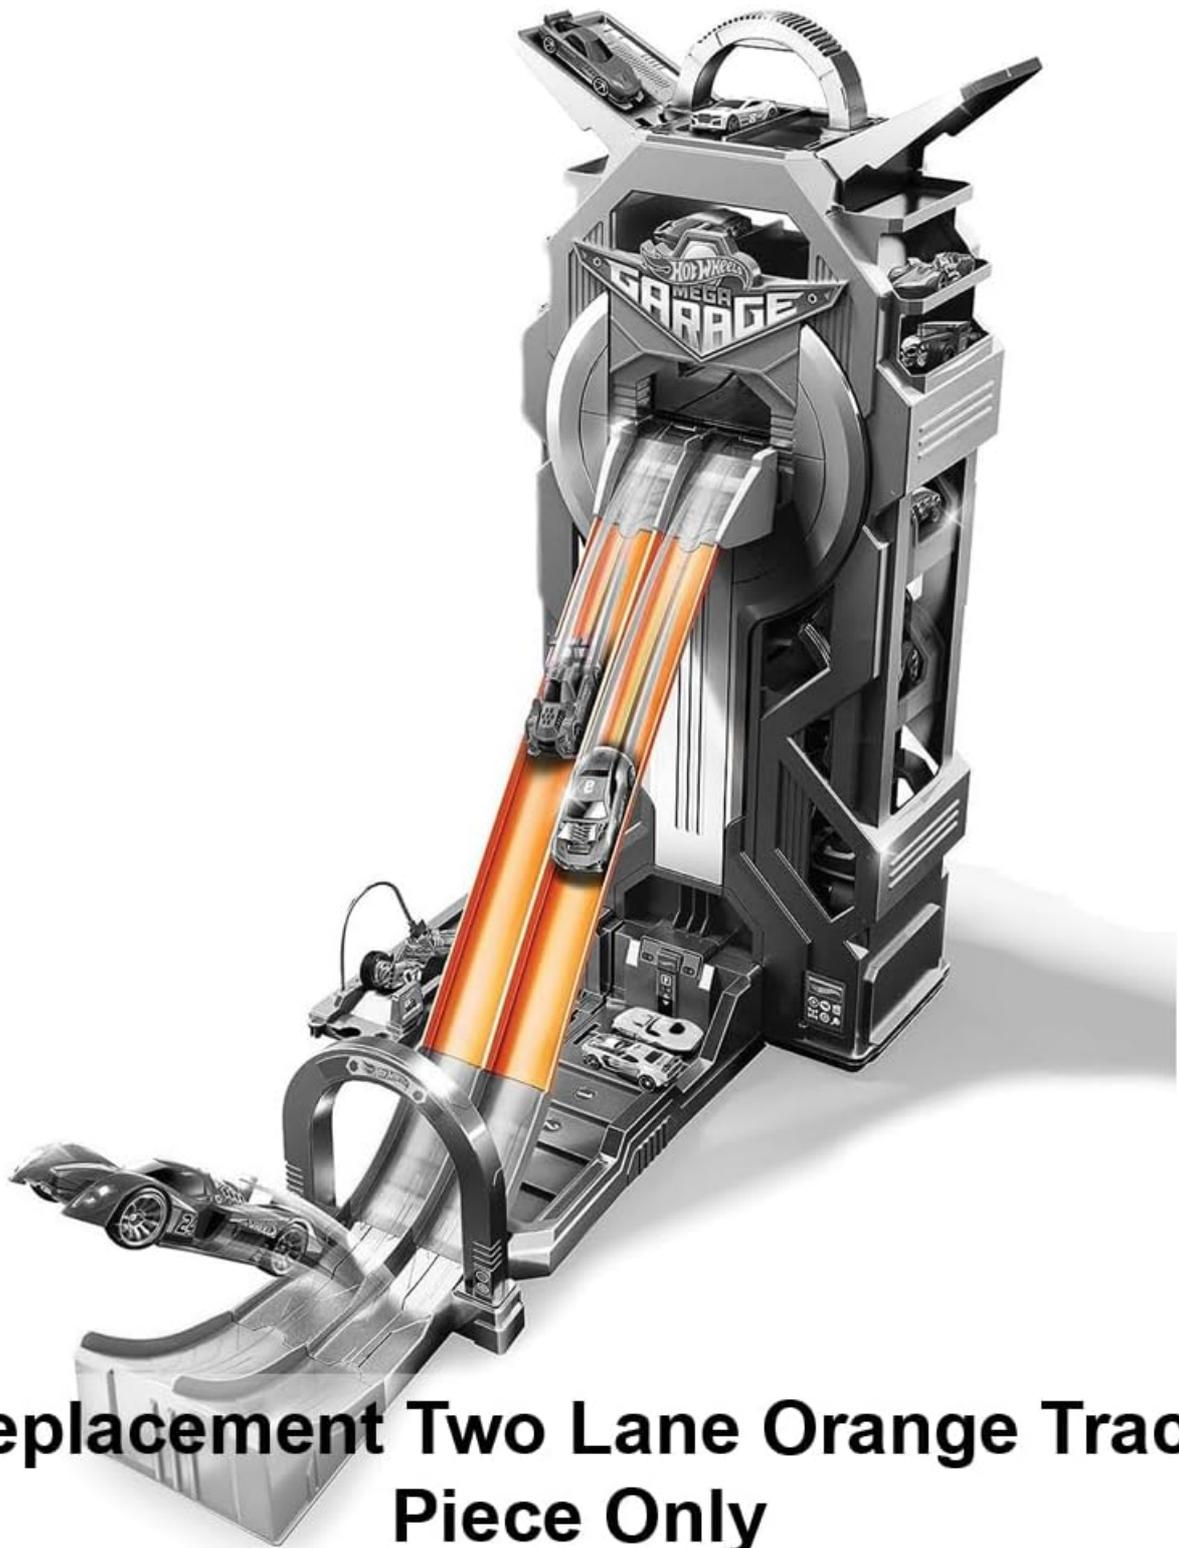

Image: A single orange two-lane track piece, approximately 11 3/4 inches long, viewed from directly above. It features two parallel grooves for cars and connection points at each end.

## SETUP AND INSTALLATION

---

This replacement track piece is specifically designed for the Hot Wheels Mega Garage Playset, model FTB68. Ensure your playset is the correct model before attempting installation.

- Identify Connection Points:** Locate the section of your Hot Wheels Mega Garage Playset where the replacement track piece is needed. Observe the existing connection points on the playset structure or other track pieces.
- Align the Track:** Take the replacement orange track piece and align its connection tabs with the corresponding slots on the playset or adjacent track sections. The track piece is approximately 11 3/4 inches long and features two lanes.
- Secure Connection:** Gently push the track piece into place until you hear or feel a secure click. Ensure that both sides of the two-lane track are firmly connected to prevent dislodgement during play.
- Test Stability:** Once installed, gently tug on the track piece to confirm it is securely attached and does not wobble.

## Replacement Two Lane Orange Track Piece Only

### OPERATING INSTRUCTIONS

---

Once the replacement track piece is securely installed, the Hot Wheels Mega Garage Playset can be operated as usual. This track piece facilitates the movement of Hot Wheels die-cast vehicles within the playset's designated racing or transport paths.

- **Vehicle Placement:** Place Hot Wheels die-cast vehicles onto the track lanes at the designated starting points of the playset.

- **Initiate Movement:** Depending on the playset's design, activate the mechanism (e.g., lever, button, crank) that propels the cars down the track.
- **Observe Flow:** Ensure cars move smoothly along the track, including over the newly installed piece. The two-lane design allows for side-by-side racing or parallel movement.

## MAINTENANCE

---

Regular maintenance helps preserve the condition and functionality of your track piece.

- **Cleaning:** Wipe the track piece periodically with a soft, dry cloth to remove dust and debris. For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or solvents.
- **Storage:** When not in use for extended periods, store the track piece in a clean, dry environment away from direct sunlight or extreme temperatures to prevent warping or degradation of the plastic.
- **Inspection:** Periodically inspect the connection tabs and the track surface for any signs of wear, cracks, or damage.

## TROUBLESHOOTING

---

If you encounter issues with the replacement track piece, consider the following common solutions:

Problem	Possible Cause	Solution
Track piece does not connect securely.	Incorrect alignment or debris in connection slots.	Ensure tabs are perfectly aligned with slots. Clear any obstructions from the connection points. Apply gentle, even pressure.
Cars derail or get stuck on the track piece.	Track piece not fully seated, or debris on track surface.	Verify the track piece is fully clicked into place. Clean the track surface to remove any dust or small particles. Ensure cars are Hot Wheels brand and in good condition.
Track piece appears warped or damaged.	Exposure to extreme temperatures or physical stress.	If the piece is significantly warped or cracked, it may need to be replaced. Store the playset and parts in a stable environment.

## SPECIFICATIONS

---

Attribute	Detail
