## PawHut D02-179V01SR

# PawHut Large Outdoor Dog Kennel Instruction Manual

*Model: D02-179V01SR*

## PRODUCT OVERVIEW

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your PawHut Large Outdoor Dog Kennel. Designed for large-sized breeds, chickens, and ducks, this heavy-duty kennel offers a secure and comfortable outdoor space with a waterproof cover and galvanized chain link construction.

Figure 1: Overview of the PawHut Large Outdoor Dog Kennel with its waterproof cover and spacious design.

## KEY FEATURES

---

- **Out of the Sun:** Oxford cloth fabric for water and UV resistance. Roof with spring button clips for cooling and preventing dehydration.
- **Quality Steel:** Solid galvanized steel railings with no sharp edges, sprayed for a better-quality surface.
- **Large Dog Kennel:** Provides 149 ft<sup>2</sup> of space, suitable for large-sized dogs up to 66 lbs. (e.g., pugs, beagles, and dalmatians).

- **Easy Access:** Features a walk-in door, which makes it easy for your fur baby to enter and exit. The lockable design shields your puppies from potentially hazardous situations when you can't watch over them.
- **Dimensions:** Overall Dimensions: 20' L x 7.5' W x 5' H. Eaves height: 3.4' H.

## SPACIOUS LIVING AREA

Let your pet relax without feeling tied up

## SETUP AND ASSEMBLY

Assembly of the PawHut Large Outdoor Dog Kennel requires careful attention to detail. It is recommended to have at least two people for assembly.

### Assembly Steps:

1. Begin by assembling the main frame of the kennel according to the included diagrams. Ensure all connections are secure.
2. Once the frame is erected, use the provided cable ties to fasten the mesh netting to the frame. Start from one end and work your way around, ensuring the netting is taut.
3. After the mesh netting is in place, use steel wire to reinforce and securely fasten each section of the netting to the frame. This provides additional stability and security.
4. Install the waterproof Oxford cloth cover onto the roof frame. Secure it using the spring button clips to ensure it is taut and provides adequate shade and rain protection.
5. Attach the walk-in door, ensuring it swings freely and the lockable mechanism functions correctly.

*Note: Some users have reported that the chain link can be tangled or bent. Take care when unrolling and attaching the chain link. Additional cable ties or steel wire may be beneficial for extra security.*

Figure 6: Detail of the secure lock mechanism on the kennel door, ensuring pet safety.

## OPERATING INSTRUCTIONS

---

The PawHut Large Outdoor Dog Kennel is designed for straightforward use once assembled.

- **Placement:** Choose a level, stable outdoor surface for the kennel. Ensure it is not placed in an area prone to flooding or excessive wind without additional anchoring.
- **Pet Entry/Exit:** Use the walk-in door for easy access for your pets. Always ensure the door is securely latched when pets are inside to prevent escape.
- **Shade and Protection:** The Oxford cloth roof provides essential shade and protection from rain. Position the kennel to maximize shade during the hottest parts of the day.
- **Supervision:** While the kennel provides a secure enclosure, continuous supervision of pets, especially new occupants, is recommended.

## MAINTENANCE

---

Proper maintenance will extend the lifespan of your PawHut Dog Kennel.

- **Cleaning:** Regularly clean the galvanized steel frame and chain link with mild soap and water. Rinse thoroughly and allow to dry to prevent rust.
- **Roof Cover Care:** The Oxford cloth cover should be kept clean. Wipe down with a damp cloth as needed. Ensure it is taut to prevent water pooling, especially during rain, which can cause sagging or damage.
- **Storage:** When not in use for extended periods, or during severe weather, it is recommended to disassemble the kennel and store it in a dry place to protect the materials.
- **Inspection:** Periodically inspect all connections, cable ties, and steel wire fastenings for tightness and wear. Replace any damaged components immediately to maintain structural integrity and pet safety.

## TROUBLESHOOTING

---

Here are some common issues and their potential solutions:

- **Issue: Chain link appears tangled or bent during unrolling.**  
**Solution:** Carefully unroll the chain link. If sections are bent, gently straighten them by hand. For severe tangles, it may be necessary to cut and re-fasten sections with additional wire or heavy-duty cable ties. Ensure all gaps are securely closed to prevent pet escape.
- **Issue: Roof cover sags or collects water.**  
**Solution:** Ensure the roof cover is installed tautly and all spring button clips are securely fastened. If sagging persists, check the roof frame for proper assembly and alignment. During heavy rain or snow, periodically clear any accumulation from the roof to prevent damage.
- **Issue: Kennel feels unstable after assembly.**  
**Solution:** Double-check all frame connections to ensure they are fully inserted and secured. Verify that the kennel is placed on a level surface. Consider using ground anchors or additional weights for increased stability, especially in windy conditions.

## WARRANTY AND SUPPORT

---

### Warranty Information:

The PawHut Large Outdoor Dog Kennel comes with a **1 Year Warranty Against Manufacturer Defects**. Please retain your proof of purchase for warranty claims.

## Customer Support:

For any questions, concerns, or assistance with your PawHut product, please contact Aosom Direct customer support. You can often find contact information on the product packaging or through the retailer where you purchased the item.
