3. GETTING STARTED

3.1. Charging the Device

Before initial use, fully charge your smartwatch. Connect the provided charging cable to the charging port on the back of the watch and to a 3.7V to 5V adapter or a laptop USB port. A full charge takes approximately 3 hours. For a minimum 20% charge, charge for 30-40 minutes.

3.2. Pairing with Your Smartphone

To unlock the full functionality of your Fire-Boltt Maverick Smartwatch, pair it with your smartphone via the dedicated companion application. The application name can typically be found in the quick start guide or by scanning a QR code on the watch or packaging.

1. Download and install the companion app on your Android smartphone.
2. Ensure Bluetooth is enabled on your smartphone.

3. Open the app and follow the on-screen instructions to search for and connect to your Fire-Boltt Maverick Smartwatch.
4. Confirm the pairing request on both your phone and smartwatch.

4. OPERATING YOUR SMARTWATCH

4.1. Display and Navigation

The Fire-Boltt Maverick features a 2.02-inch IPS display with 320x385 pixel resolution and up to 700 Nits brightness for clear visuals. Navigate through menus and features using touch gestures and the physical buttons, including a rotating crown.

6. CARE AND MAINTENANCE

The Fire-Boltt Maverick Smartwatch has an IP67 rating, making it water-resistant. This means it can withstand splashes, rain, and brief immersion in water up to 1 meter. However, it is not recommended for swimming or showering. To maintain your device:

- Wipe the watch regularly with a soft, dry cloth.
- Avoid exposing the watch to extreme temperatures or harsh chemicals.
- Ensure the charging port is dry before charging.

7. TROUBLESHOOTING

If you encounter issues with your smartwatch, try the following:

- **Watch not turning on:** Ensure the watch is fully charged.

- **Cannot pair with phone:** Check if Bluetooth is enabled on your phone and the watch is within range. Restart both devices and try pairing again.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist and the sensors are clean.
- **Notifications not appearing:** Check app permissions on your phone and ensure notifications are enabled in the companion app.
