PEACHAR X200

PEACHAR Dog Training Collar Instruction Manual

Model: X200

INTRODUCTION

Thank you for choosing the PEACHAR Dog Training Collar. This manual provides comprehensive instructions for the safe and effective use of your new training system. Designed for large to medium dogs weighing 40-120 lbs, this collar offers multiple training modes to help you establish clear communication and reinforce desired behaviors with your pet. Please read this manual thoroughly before operation.

PRODUCT OVERVIEW

The PEACHAR Dog Training Collar system includes a remote transmitter and a receiver collar. The remote allows you to control various training modes, while the receiver collar delivers the chosen stimulation to your dog.

SETUP

1. Charging the Devices

Before first use, fully charge both the remote transmitter and the receiver collar. The included USB cable allows for simultaneous charging.

- Connect the split USB charging cable to both the remote and the receiver.
- Plug the USB end into a compatible USB power adapter (not included).
- Charging time is approximately 1.5 hours.
- The remote display will show battery levels for both devices.

2. Adjusting the Collar Strap

The collar strap is adjustable and can be cut to fit your dog's neck size. It is suitable for dogs weighing 40-120 lbs with neck measurements ranging from 8 to 27 inches.

- Ensure the collar fits snugly but comfortably around your dog's neck. You should be able to fit two fingers between the collar and your dog's neck.
- If the strap is too long, you can trim it to the appropriate length.

Suitable for dogs 25-120Lbs

27.56 inch total length

25Lbs  **Adjustable and can be cut off** **120Lbs**

Image: The adjustable collar strap, demonstrating its suitability for dogs from 25 lbs to 120 lbs, with a total length of 27.56 inches.

3. Attaching Contact Points

Select the appropriate contact points (long or short) based on your dog's coat length to ensure proper contact with the skin. For added comfort and safety, use the silicone caps over the contact points.

OPERATING INSTRUCTIONS

1. Training Modes

The PEACHAR Dog Training Collar offers four distinct training modes:

- **Beep Tone:** Delivers an audible sound.
- **Vibration:** Offers 8 adjustable levels of vibration.
- **Shock:** Provides 18 adjustable levels of static stimulation.
- **Shock Boost:** Delivers an additional 10% higher shock level for immediate attention.

4 Effective Training Modes

✓ Safe

✓ Humane

✓ Professional

Beep Tone

Vibration (1-8 levels)

Safe Shock (1-18 levels)

Shock Boost (10% Higher)

Image: Illustration of the four training modes: Beep Tone, Vibration (1-8 levels), Safe Shock (1-18 levels), and Shock Boost (10% higher).

2. Remote Control Range and Security

The remote control has an effective range of up to 2300 feet in open spaces, allowing for flexible training both indoors and

outdoors. It features a security keypad lock to prevent accidental activation.

- To lock the keypad, slide the security switch on the side of the remote.
- This prevents unintended commands during transport or handling.

3. Multi-Dog Training

The system supports training up to three dogs simultaneously with a single remote transmitter. Each dog can be assigned a dedicated channel.

- Use the channel selection buttons on the remote to switch between dogs.
- The remote features a memory function for settings, eliminating the need to reset for each dog.

3 Dog Channels

Allows training of 3 dogs of all breeds or sizes, using a single remote transmitter simultaneously

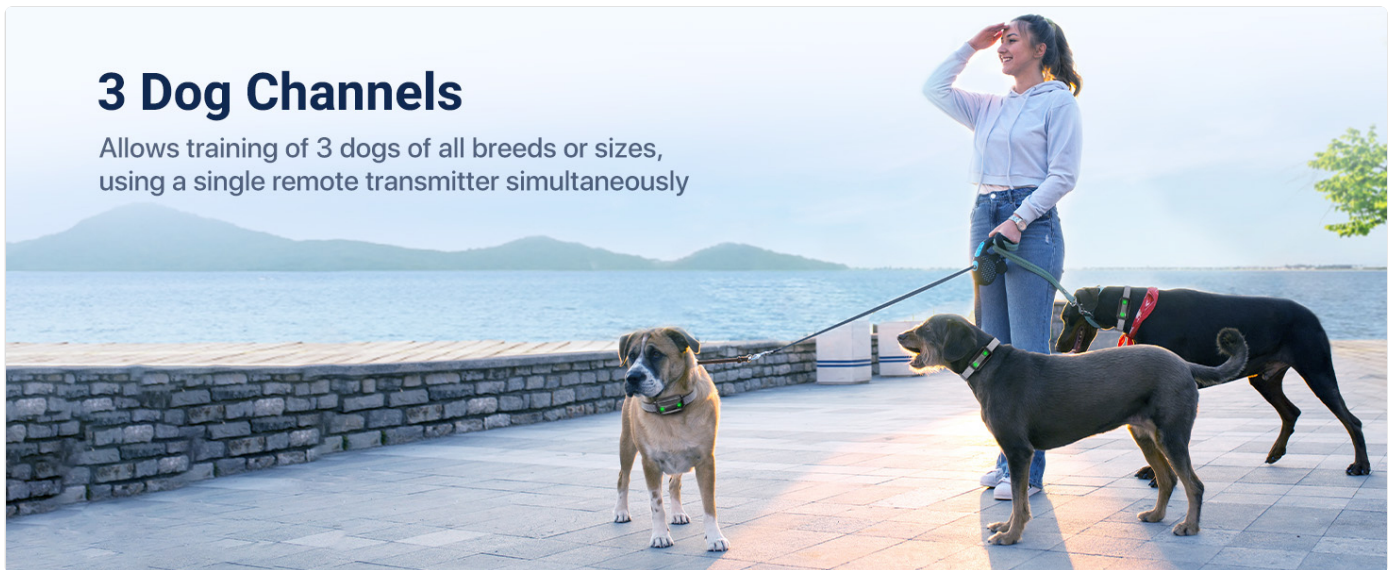

Image: A visual demonstrating the capability to train up to three dogs using a single remote transmitter.

MAINTENANCE

1. Waterproof Design

The receiver collar features an IP68 waterproof design, allowing your dog to play freely in water without damaging the device.

IP68 Waterproof Receiver Collar

Your pet can enjoy water-related activities freely

2. Battery Life

The receiver can last up to 7 days on a single charge, while the transmitter can last for an impressive 35 days. Monitor battery power on the remote display.

3. Care Instructions

To ensure the longevity of your device, keep it in a dry place when not in use. Regularly inspect the collar and contact points for cleanliness and wear.

TROUBLESHOOTING

If you encounter issues with your PEACHAR Dog Training Collar, please refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Collar not charging	Faulty charging cable or port; internal battery issue.	Ensure the charging cable is securely connected. Try a different USB power source. If the issue persists, contact customer support for warranty replacement.
Remote not turning on/working	Low battery; remote malfunction.	Charge the remote fully. Ensure the security keypad lock is disengaged. If the remote remains unresponsive, contact customer support.
Collar not responding to remote	Not paired correctly; out of range; incorrect channel selected.	Ensure both devices are powered on. Verify the remote and collar are on the same channel. Move closer to your dog to ensure you are within the effective range. Refer to the pairing instructions in the full user manual if re-pairing is needed.
