SETUP

Physical Placement

Position the projector on a stable, flat surface. Ensure there is adequate ventilation around the device. The projector can be placed in front, behind, or ceiling-mounted relative to the screen. The bottom of the projector includes a 1/4-inch mount for tripod compatibility and adjustable feet for leveling.

Power Connection

Connect the provided power cord to the projector's power input port and then plug it into a wall outlet.

Initial Power On & Network Connection

Press the power button on the top of the projector or on the remote control to turn it on. Follow the on-screen prompts for initial setup, including connecting to your home Wi-Fi network.

External Device Connection

The projector supports multiple input sources:

- **HDMI:** Connect gaming consoles, laptops, or other HDMI-enabled devices. The projector has two HDMI ports.
- **USB:** Play media directly from USB drives.
- **AV:** Connect older devices using the provided AV cable.
- **RJ45 (Ethernet):** For a stable wired network connection.

Bluetooth Connectivity

Connect external Bluetooth speakers or headphones for an enhanced audio experience. The projector features upgraded Bluetooth 5.2 for more stable connections.

Upgraded Bluetooth 5.2, More Stable

Zoom Function

Adjust the projection size from 100% down to 50% without moving the projector, allowing for flexible placement in various room sizes.

MAINTENANCE

Dust-proof Design

The TOPTRO X7 features an advanced dust-proof optical engine (IP5X protection level) to prevent dust accumulation and black spots on the projected image, ensuring long-term clarity and reducing the need for frequent cleaning.

Advanced Dustproof Design

IP5X protection level, say goodbye to black spots

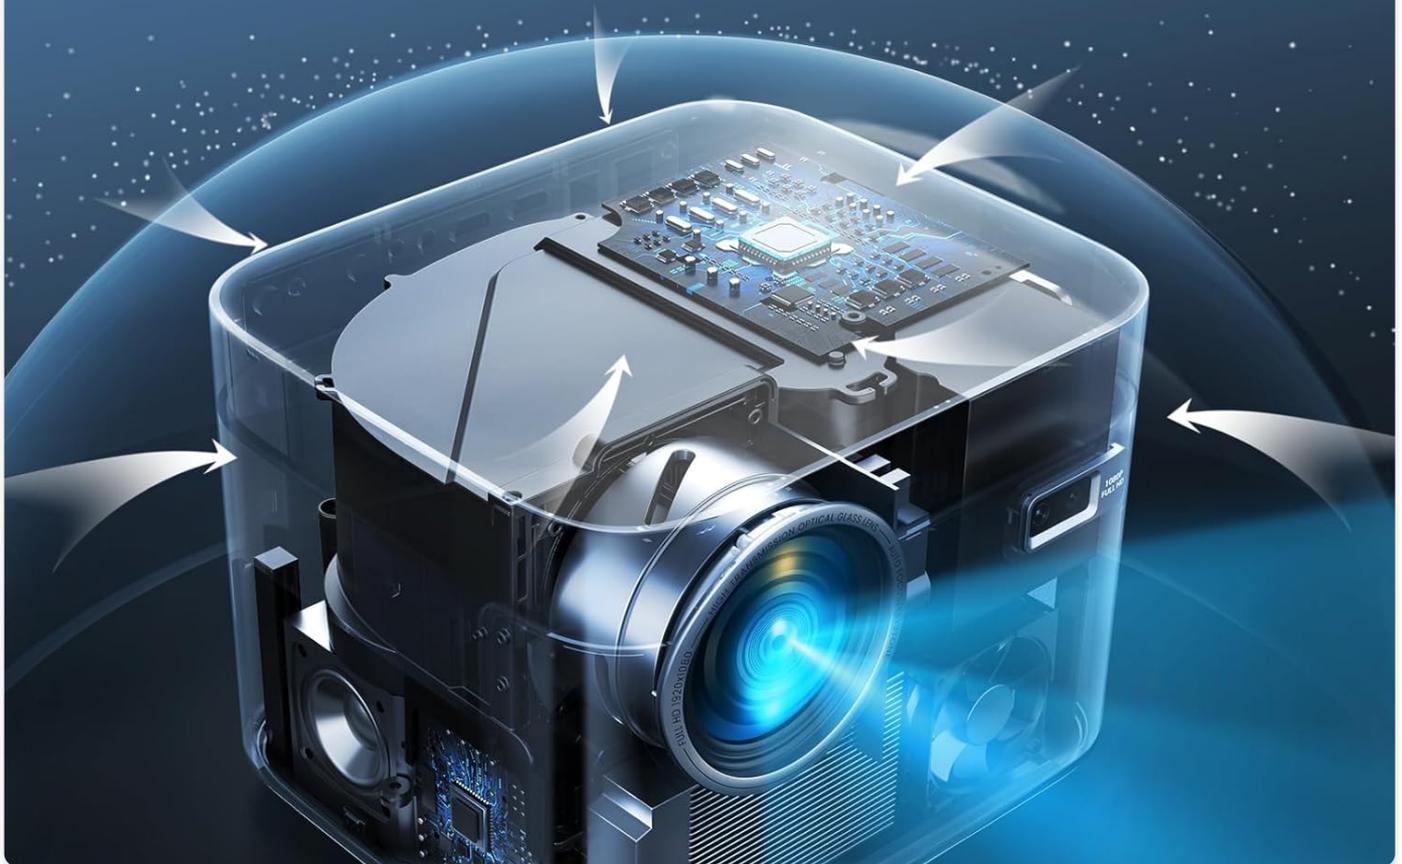

Image: An internal view diagram of the TOPTRO X7 projector, emphasizing its advanced dust-proof design with arrows indicating airflow and sealed components to prevent dust from affecting the optical system.

General Cleaning

Regularly wipe the exterior of the projector with a soft, dry cloth. Use the provided lens cleaning cloth to gently clean the projector lens. Avoid using abrasive cleaners or solvents.

TROUBLESHOOTING

- **No Image/Power:** Ensure the power cord is securely connected and the power outlet is functional.
- **Blurry Image:** The projector has auto-focus. If the image remains blurry, try manually adjusting the focus in the Projection Settings menu. Ensure the projection surface is flat.
- **Distorted Image:** The projector has auto-keystone correction. If distortion persists, manually adjust keystone settings in the Projection Settings menu.
- **No Sound:** Check the volume settings on the projector and any connected external audio devices. Ensure Bluetooth devices are properly paired.
- **App Issues:** If an app is not functioning correctly, try restarting the projector or reinstalling the app. Ensure a stable internet connection.
- **Remote Control Unresponsive:** Check the batteries in the remote control. Ensure there are no obstructions between the remote and the projector's IR receiver.

SPECIFICATIONS

Feature	Detail
Brand	TOPTRO
