StarTech.com 14LT6-PRIVACY-SCREEN

StarTech 14-inch Laptop Privacy Filter (16:10) - Model 14LT6-PRIVACY-SCREEN

PRODUCT OVERVIEW

The StarTech 14-inch Laptop Privacy Filter (Model 14LT6-PRIVACY-SCREEN) is designed to protect sensitive information on your 16:10 aspect ratio laptop display. It utilizes micro-louver technology to restrict viewing angles, ensuring privacy in public or shared environments. This filter also features blue light reduction and maintains touch screen functionality.

- **Enhanced Privacy:** Micro-louver technology limits viewing angle to approximately 60 degrees (30 degrees left/right) from the center, protecting your data from side glances.
- **Blue Light Reduction:** Cuts blue light by up to 51%, reducing digital eye strain and promoting comfortable viewing during extended use.
- **Touch Screen Compatible:** Ultra-thin and durable design maintains smooth touch responsiveness of your monitor.
- **Flip-Type Design:** Easily flip the filter up and behind the monitor when you need to share your screen, without removing it.
- **Easy Installation:** Offers two installation methods: adhesive strips for permanent attachment or flip tabs for bezel-less/slim bezel displays.

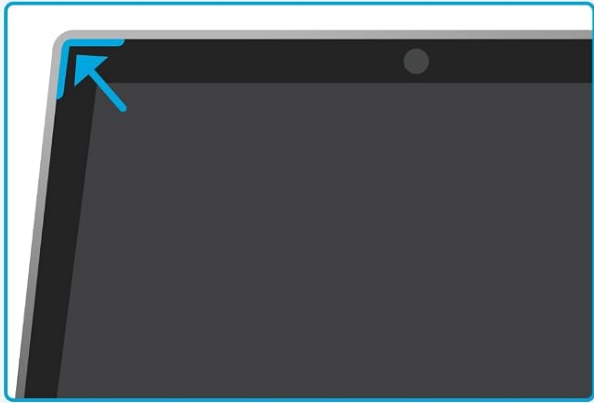

SETUP AND INSTALLATION

Before installation, ensure your laptop screen is clean and free of dust or smudges using the provided cleaning cloth. This privacy filter offers two installation methods to suit your laptop's display type.

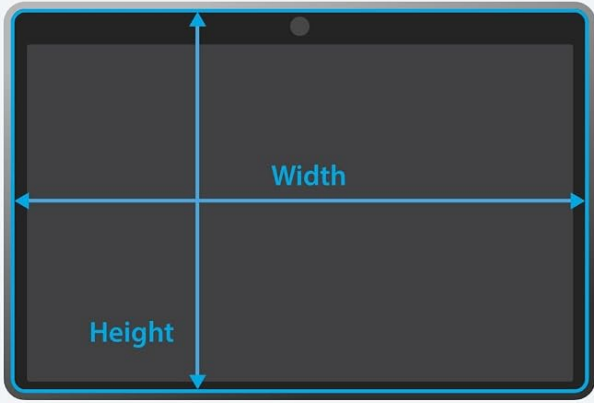

Method 1: Flip-Over Tabs (for Bezel-less or Slim Bezel Displays)

1. Identify the flip-over tabs included in the package.
2. Attach the tabs to the top edge of your laptop screen bezel, ensuring they are evenly spaced and secure.
3. Slide the privacy filter into the tabs. The filter should rest securely against the screen.
4. When you need to share your screen, simply lift the filter and flip it over the top of your laptop, resting it behind the screen.

How to Measure Your Laptop Display and Find Your Privacy Screen Model

These types of displays have edge-to-edge glass and no raised frame.

Measure the width and height of your entire glass display, from edge-to-edge.

Laptop Size	Aspect Ratio	Screen Dimensions		Mount Type	Model (SKU)
		Width	Height		
13 inch	3:2	11.4 in. (290mm)	8.2 in. (208mm)	Flip-Over Tabs or Adhesive Strips	135CT-PRIVACY-SCREEN
14 inch	16:9	12.5 in. (318mm)	7.2 in. (182mm)		14LT-PRIVACY-SCREEN
14 inch	16:10	12.1 in. (307mm)	7.8 in. (197mm)		14LT6-PRIVACY-SCREEN

Figure 1: Installing the privacy filter with flip-over tabs. This method is ideal for displays with minimal bezels, allowing the filter to be easily flipped up and out of the way.

Method 2: Adhesive Strips (for Permanent Installation)

1. Locate the adhesive strips. These are typically thin, clear strips.
2. Carefully peel off one side of the protective backing from the adhesive strips.
3. Apply the strips along the edges of your laptop screen, ensuring they are flat and smooth. You may apply them directly to the screen or the bezel, depending on your preference and screen design.
4. Align the privacy filter with your screen and gently press it onto the adhesive strips, starting from one edge and working your way across to avoid air bubbles.
5. Smooth out any air bubbles by gently pressing them towards the edges.

What's Included

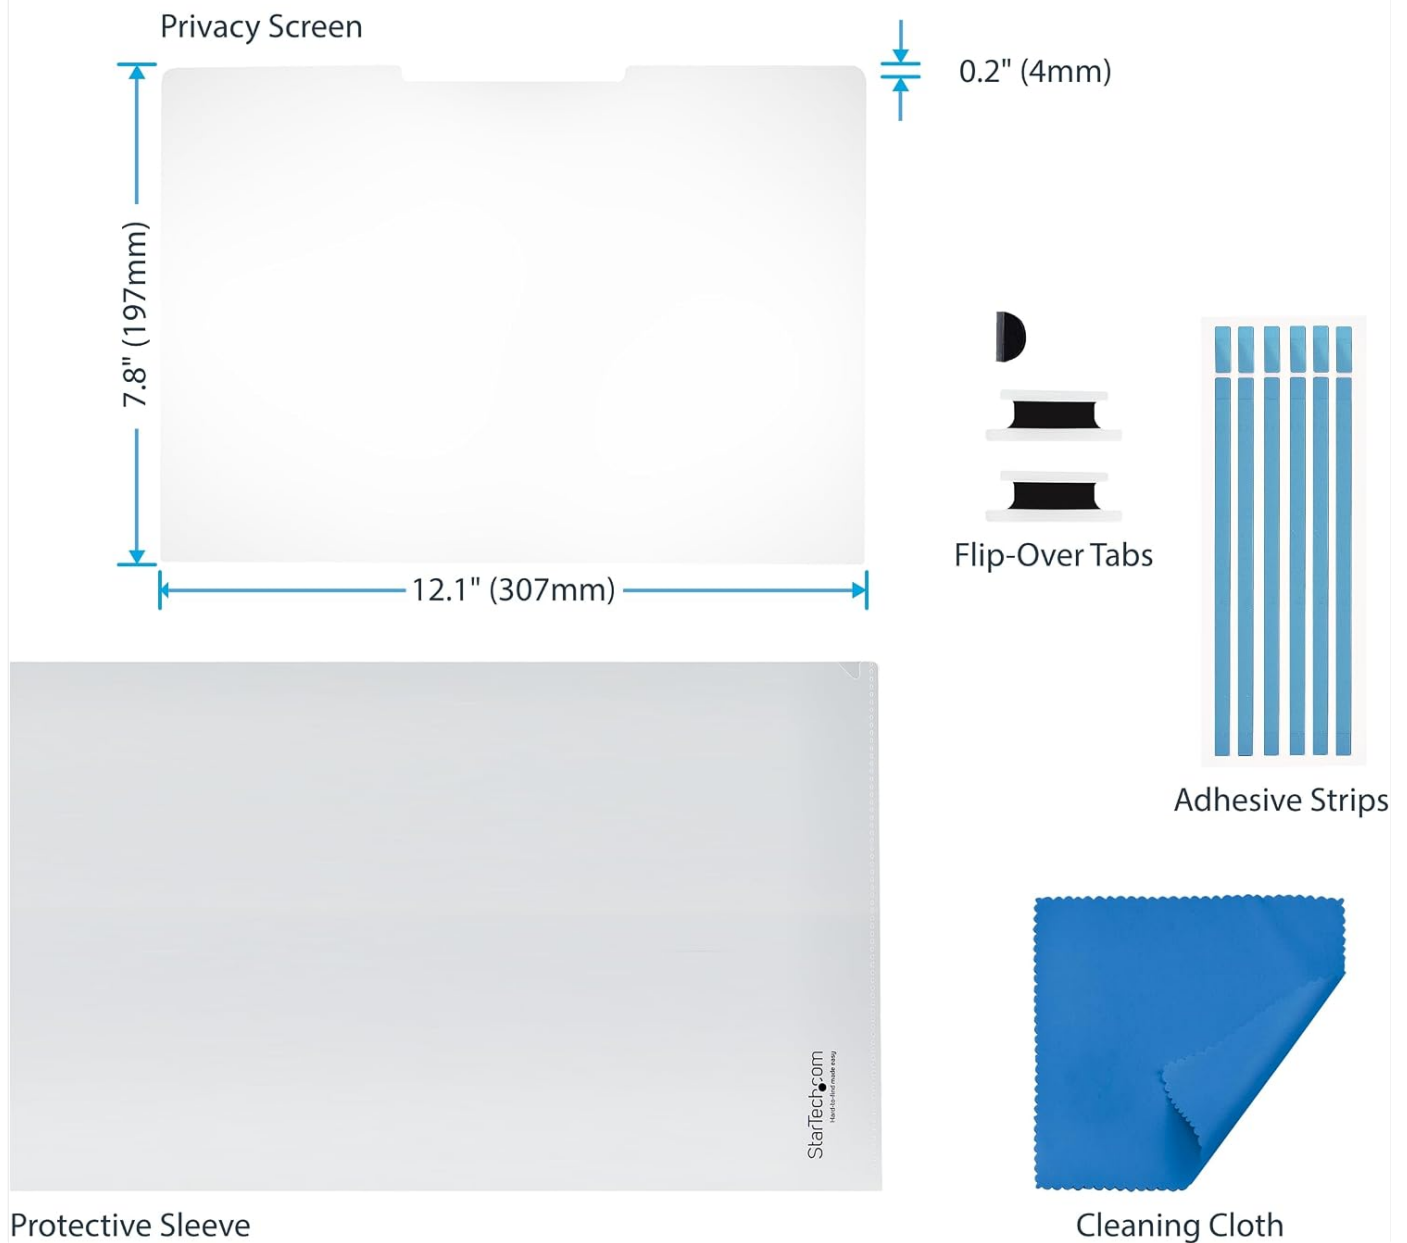

Figure 2: Applying the privacy filter using adhesive strips for a more permanent attachment. This method provides a secure fit directly onto the display surface.

Important Note: Before purchasing, verify your monitor's size and aspect ratio to ensure compatibility. The filter dimensions are 307mm x 197mm (12.1 inches x 7.8 inches) for 14-inch displays with a 16:10 aspect ratio.

Multi-Layer Design

Multiple layers of advanced technology seamlessly fused into an **ultra-thin design** for privacy, durability and comfort.

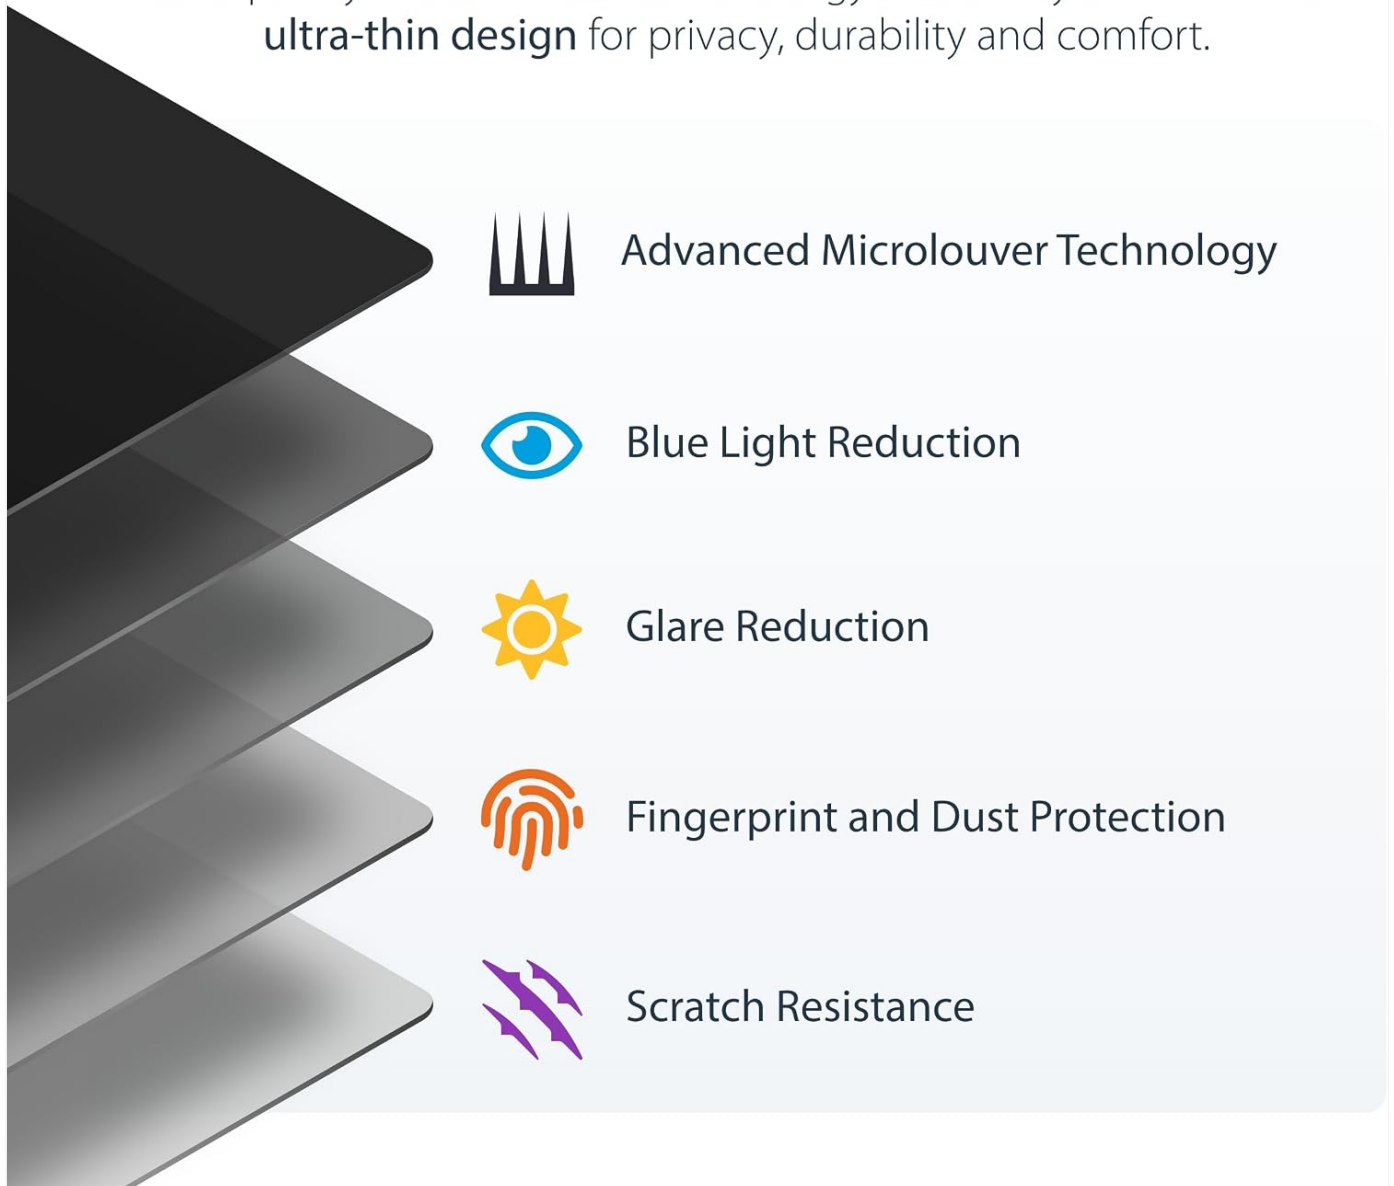

Figure 3: Guide for measuring your laptop display to ensure correct privacy filter selection. Measure the width and height of the entire glass display from edge-to-edge.

OPERATING INSTRUCTIONS

Once installed, the privacy filter functions automatically.

- **Privacy Protection:** The screen will appear dark or black to anyone viewing from an angle greater than approximately 30 degrees from the center of your display. This ensures that only the user directly in front of the screen can clearly see the content.
- **Blue Light Filtering:** The filter continuously reduces harmful blue light emissions from your screen, contributing to reduced eye strain.
- **Touch Screen Functionality:** The ultra-thin design allows for continued use of touch screen features without significant loss of responsiveness.
- **Screen Sharing:** If using the flip-over tab installation, simply lift and flip the filter behind your screen to allow others to view your display.

Enterprise Grade Privacy Guaranteed

Provides black-out privacy outside of $\pm 30^\circ$ viewing angle from the center of your display.

Figure 4: The privacy filter restricts viewing to a 60-degree angle, making the screen appear dark to those outside this range.

Flip-Over Design

Easily apply the privacy filter or flip to the back of the screen as environments change.

Figure 5: The flip-over design allows for quick and easy screen sharing by moving the filter out of the direct viewing path.

Touch Screen Support

Maintains touch responsiveness of your screen, while also providing screen brightness with a light transmittance of 60%.

Figure 6: The privacy filter supports touch screen functionality, maintaining screen responsiveness.

CARE AND MAINTENANCE

To ensure optimal performance and longevity of your privacy filter, follow these care instructions:

- **Cleaning:** Use the provided cleaning cloth or a soft, lint-free microfiber cloth to gently wipe the surface of the privacy filter. For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals, abrasive materials, or paper towels, as these can scratch the filter.
- **Storage:** When not in use, especially if using the flip-over method, ensure the filter is protected from scratches. The included protective sleeve can be used for storage if the filter is removed.
- **Handling:** Handle the filter by its edges to avoid leaving fingerprints on the viewing area.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Screen appears too dark or blurry.	Incorrect viewing angle; screen brightness too low; filter not properly aligned.	Ensure you are viewing the screen directly from the front. Adjust your laptop's screen brightness. Re-align the filter if necessary.
Touch screen responsiveness is reduced.	Filter not properly seated; dust or debris between filter and screen.	Ensure the filter is flush against the screen. Remove and clean both the screen and filter surfaces thoroughly before re-applying.

Problem	Possible Cause	Solution
Privacy effect is not strong enough.	Viewing angle is too wide; ambient light conditions.	The filter is designed for a 60-degree viewing angle. Ensure viewers are outside this range. Adjust ambient lighting to reduce reflections.
Adhesive strips are missing or not effective.	Packaging error; strips lost; improper application.	Check all packaging materials carefully. If missing, contact StarTech.com support. Ensure surfaces are clean and dry before applying strips.

PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	14LT6-PRIVACY-SCREEN
Screen Size Compatibility	14 inches
Aspect Ratio	16:10
Product Dimensions (W x H)	307mm x 197mm (12.1 inches x 7.8 inches)
Product Thickness	0.03 cm
Product Weight	36.3 g
Privacy Viewing Angle	Approx. 60 degrees (30 degrees left/right)
Blue Light Reduction	Up to 51%
Light Transmittance	Approx. 60%
Installation Methods	Flip-over tabs, Adhesive strips
Color	Black
