# Leadfan 9.26" Portable Wireless Apple CarPlay Car Stereo Radio

**Brand:** Leadfan | **Model:** 9.26" Portable Wireless CarPlay Car Stereo

## INTRODUCTION

The Leadfan 9.26" Portable Wireless Apple CarPlay Car Stereo Radio is an advanced in-car entertainment and safety system. It integrates seamlessly with your smartphone, offering navigation, communication, and multimedia features. This manual provides essential information for installation, operation, and maintenance of your device.

### Key Features:

- Wireless Apple CarPlay & Android Auto compatibility
- Integrated 2.5K Dash Cam and 1080P HD Backup Camera
- Multiple audio output options: Built-in Speaker, AUX, FM Transmission
- Bluetooth 5.3 for hands-free calling and music streaming
- Voice Control (Siri/Google Assistant)
- Phone MirrorLink for iOS and Android devices
- 9.3" IPS Touchscreen with 1600x600P resolution
- Plug-and-Play installation, compatible with 8V-30V vehicles

## SETUP

### Package Contents

Before beginning installation, ensure all components are present:

- Car Stereo & User Manual
- Dash Cam + Backup Camera
- 64GB SD Card
- Suction Mount Bracket & Adhesive Sticker Bracket
- Cigarette Lighter Power Cord & AUX Audio Cable

# Specifications & Packing List

## Installation Methods

The Leadfan car stereo offers flexible installation options to suit various vehicle interiors:

- **Dashboard Mounting:** Securely place the unit on your dashboard using the provided dash mount bracket.
- **Telescopic Regulation:** Utilize the telescopic arm of the suction cup mount for adjustable height and angle.
- **Windshield Mounting:** Attach the suction cup mount directly to your vehicle's windshield for optimal viewing.
- **Adhesive Sticker Bracket:** For a more permanent fixture, use the adhesive sticker bracket on a smooth, flat surface.

## Multiple Installation Methods

### Dashboard Mounting

### Telescopic Regulation

## Initial Connection

1. Connect the car stereo to your vehicle's power source using the cigarette lighter power cord.
2. Power on the device using the power button.
3. Enable Bluetooth and Wi-Fi on your smartphone.
4. On the car stereo, navigate to the Bluetooth settings and pair with your smartphone.
5. Once paired, Apple CarPlay or Android Auto will automatically connect for future use.

## OPERATING

### Wireless Apple CarPlay & Android Auto

Access your phone's navigation, calls, messages, and music directly from the car stereo's touchscreen. Voice commands are supported via Siri and Google Assistant.

Figure 3: Wireless Apple CarPlay and Android Auto interface.

### Dash Cam & Backup Camera

The system includes a 2.5K front dash cam and a 1080P HD waterproof backup camera. Both support loop recording and night vision, providing clear video records of your journeys. The included 64GB Micro SD card stores recordings, which can be viewed directly on the screen.

## Audio Output Methods

Sound can be output through the built-in speaker, via an AUX cable connected to your car's auxiliary input, or through FM transmission by tuning your car's radio to the same frequency as the car stereo.

## Multiple Ways To Enjoy Sound

### Built-in Speaker

### AUX Cable

### FM Transmitter

### Bluetooth 5.1 Stereo

### TF-Card

Figure 5: Options for audio output.

### Phone MirrorLink

MirrorLink allows you to stream content from your smartphone to the car stereo's screen. This feature supports two-way touch screen operation for Android phones, enabling control of phone functions directly from the stereo display.

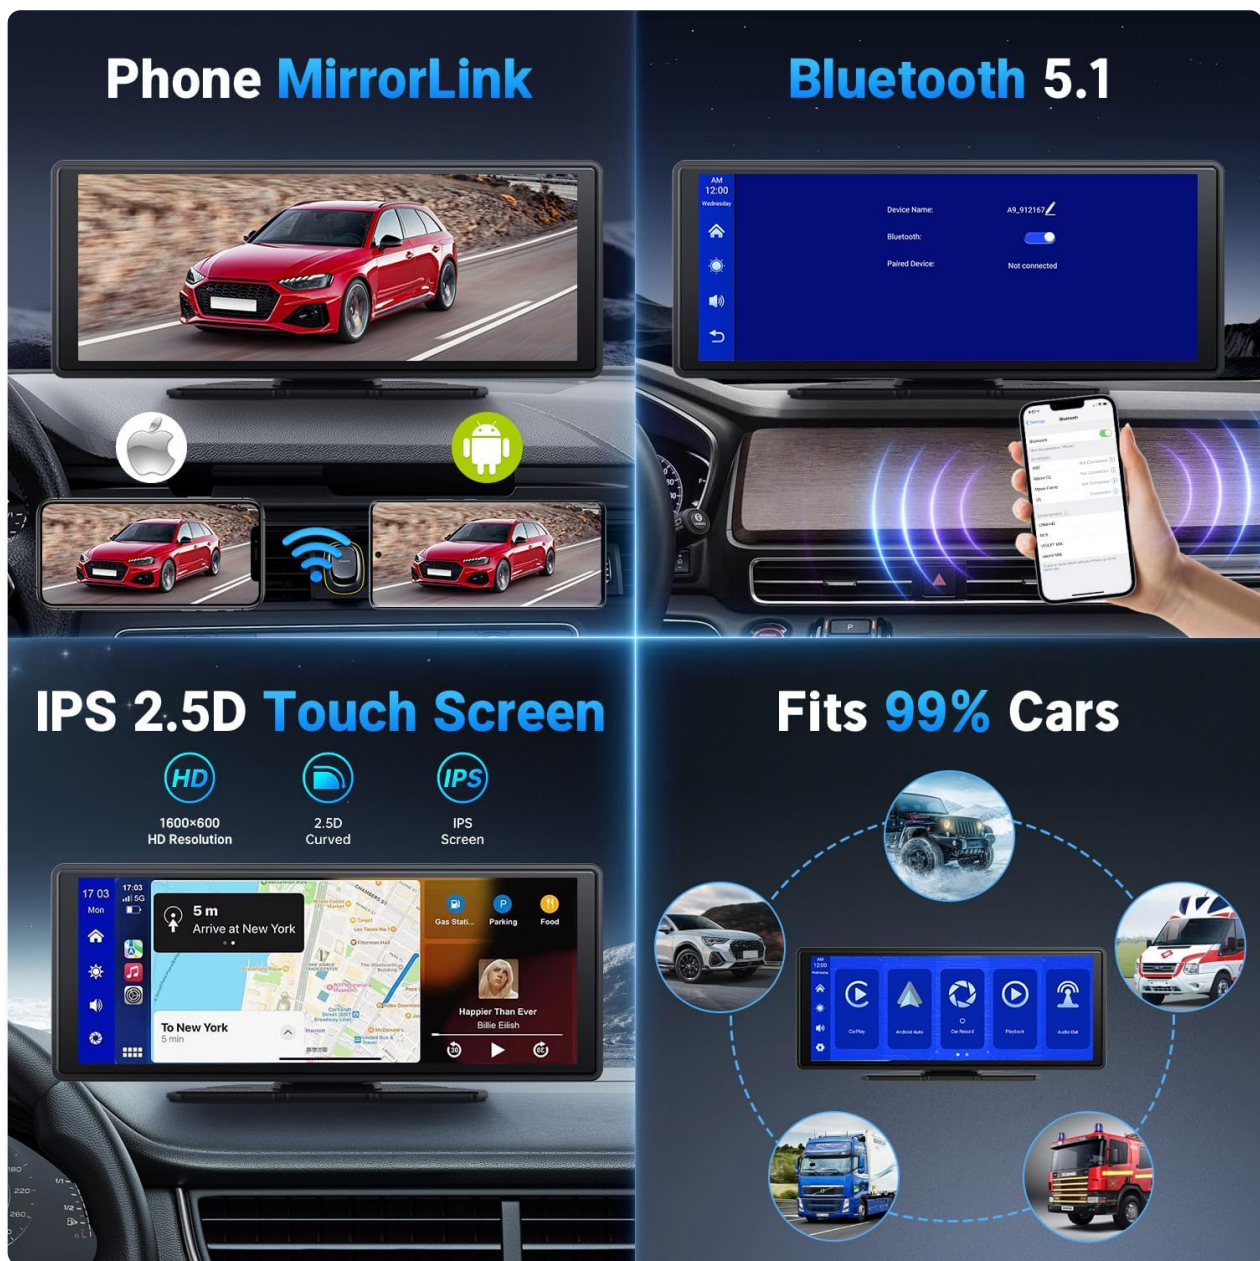

Figure 6: Phone MirrorLink and other features.

## Voice Control

Utilize voice commands to access Siri or Google Assistant for tasks such as playing music, GPS navigation, sending messages, or making phone calls, enhancing driving safety and convenience.

## Official Product Demonstration

## MAINTENANCE

### SD Card Formatting

The device may periodically prompt you to format the SD card. This is a normal operation to maintain optimal recording performance. Follow the on-screen instructions to format the card with a single button press.

### Factory Reset

If you encounter persistent issues or wish to restore the device to its original settings, a factory reset option is

available in the system settings. Refer to the 'Settings' section for navigation.

## TROUBLESHOOTING

### Bluetooth Connection Issues

If the device fails to connect via Bluetooth:

- Delete existing Bluetooth records on both your mobile phone and the portable carplay screen.
- Re-pair the connection.
- If the issue persists, try toggling Bluetooth off and on again on your phone.

### No Sound During Music Playback

If music is playing but no sound is heard, check if FM transmission is active. Turn off FM transmission on the car stereo if you intend to use the built-in speaker or AUX connection.

### Incorrect Time Display

The car stereo's internal clock may reset when powered off. The time will automatically synchronize with your phone once connected via wireless CarPlay or Android Auto.

### Reverse Mode Not Activating

Ensure the backup camera is correctly wired according to the provided wiring diagram. Verify all connections are secure for proper reverse mode functionality.
