Neporal MagicPro

Neporal MagixPro Rechargeable Light Bulbs with Remote Instruction Manual

INTRODUCTION

The Neporal MagixPro Rechargeable Light Bulbs offer versatile lighting solutions with advanced features for convenience and efficiency. These bulbs are designed for various applications, providing illumination where traditional power sources may not be available or practical. Key features include dual charging capabilities, adaptive lighting with multiple color temperatures and dimming options, extended remote control range, and a robust battery for prolonged use.

SETUP

Charging the Bulbs

The Neporal MagixPro bulbs can be charged using two methods: via a standard E26 light socket or directly via a USB-C cable. A full charge typically takes 2 hours and provides up to 52 hours of light, depending on brightness and color settings.

- **Socket Charging:** Screw the bulb into any standard E26 light socket. Ensure the socket is powered. The bulb will charge while the light switch is off.
- **USB-C Charging:** Connect the provided USB-C cable to the charging port on the side of the bulb and plug the other end into a USB power adapter (not included) or a computer USB port.

A closet without a light

Not enough power outlets

Elderly people with limited mobility

Wall light without wiring

Born! Neporal MAGIXPRO 8-IN-1 RECHARGEABLE BULBS

Lighting Up Anytime, Anywhere

A Neporal rechargeable light bulb connected to a USB cable for charging, illustrating its portable power solution.

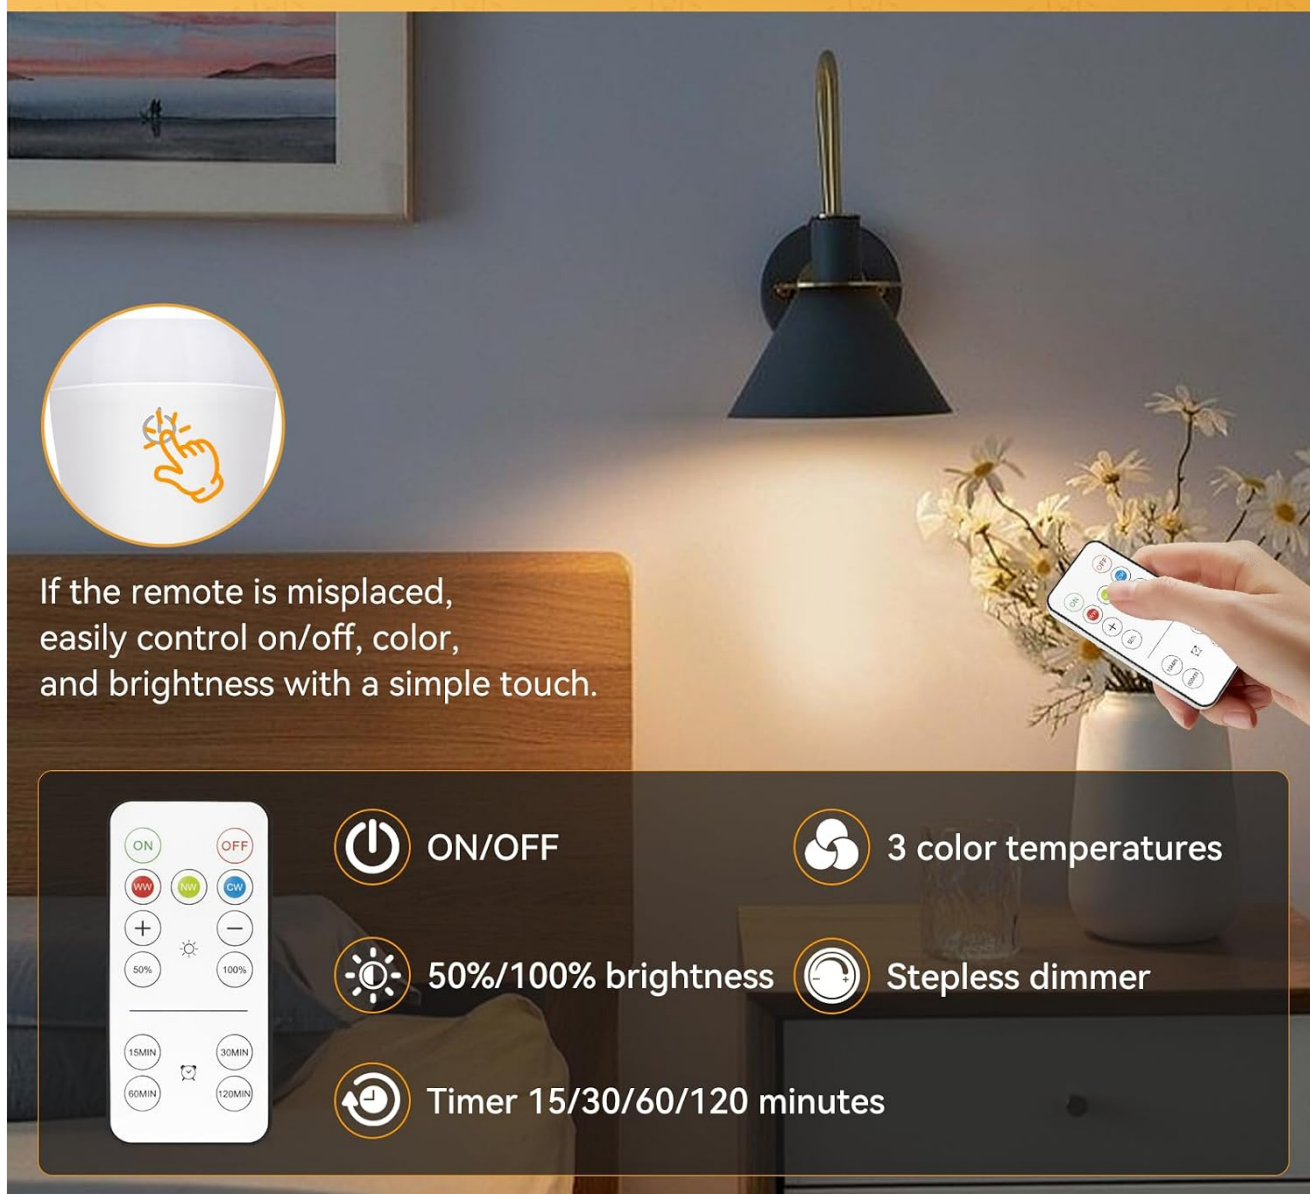

This video demonstrates the socket rechargeable feature of the MagicPro bulbs, highlighting the convenience of charging directly in a lamp fixture.

Installation

The bulbs can be used in any standard E26 light fixture or as a portable light source using the included hanging hook.

- **In a Fixture:** Screw the bulb into an E26 socket. The bulb will function as a regular light bulb when the fixture is powered, and can be controlled by the remote or touch sensor.
- **Portable Use:** Attach the provided hanging hook to the base of the bulb for easy portability. This allows the bulb to be hung in various locations such as tents, closets, or during power outages.

Touch and Remote Control

If the remote is misplaced, easily control on/off, color, and brightness with a simple touch.

	 ON/OFF	 3 color temperatures
	 50%/100% brightness	 Stepless dimmer
	 Timer 15/30/60/120 minutes

OPERATING INSTRUCTIONS

Remote Control Functions

The included remote control allows for convenient adjustment of the bulb's settings from up to 82 feet away.

Button	Function
ON/OFF	Turns the bulb on or off.
Color Buttons	Switches between Warm Light (3000K), Neutral Light (4000K), and Daylight White (6000K).
Brightness +/-	Adjusts brightness in stepless increments from 1% to 100%.
50%/100%	Quickly sets brightness to 50% or 100%.
Timer (15/30/60/120 min)	Sets the bulb to automatically turn off after the selected duration.

Touch Control Functions

The bulb features an integrated touch sensor for basic control. If the remote is misplaced, you can still control the bulb directly.

- **Single Touch:** Turns the bulb on or off.
- **Long Press:** Cycles through the 3 color temperatures (Warm, Neutral, Daylight White).
- **Double Tap:** Adjusts brightness between preset levels.

Color Temperature and Dimming

The MagixPro bulbs offer three distinct color temperatures to suit different moods and needs, along with stepless dimming for precise light intensity control.

- **Warm Light (3000K):** Ideal for creating a cozy and relaxing atmosphere.
- **Neutral Light (4000K):** Suitable for general illumination and everyday tasks.
- **Daylight White (6000K):** Provides bright, crisp light for focused work or high visibility.
- **Stepless Dimming:** Adjust the brightness smoothly from 1% to 100% using the remote control to achieve the desired ambiance.

Charging Best Practices

To maximize battery life and performance, follow these charging guidelines:

- Charge the bulbs in a dark environment or with the light off. This ensures optimal charging efficiency.
- The charging process automatically stops at 80% capacity to protect the battery and extend its lifespan.
- Avoid completely draining the battery frequently, as this can reduce overall battery health over time.

One Innovation Loved by Millions

Neporal has been continuously innovating new products over the years, and each new product release brings a new experience, attracting many major media to report on it.

Family Run
Family First

Neporal MagixPro Rechargeable Light Bulbs

Charging the Neporal MagixPro bulb in the dark helps preserve battery life and ensures uninterrupted rest.

Battery Life

The Neporal MagixPro bulbs are equipped with a robust 1800mAh battery, providing extended illumination. The actual duration of light depends on the brightness and color temperature settings:

- At lower brightness settings, the bulb can last up to 52 hours.
- At maximum brightness, the bulb typically provides up to 24 hours of light.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bulb does not hold charge well or battery life is short.	Incomplete charging, high brightness settings, or aging battery.	Ensure the bulb is fully charged (2 hours). Reduce brightness settings for longer battery life. If the issue persists after a few charge cycles, contact customer support.
Touch sensor not responding.	Bulb is off, low battery, or remote interference.	Ensure the bulb is powered on. Charge the bulb fully. If using the remote, ensure it's not actively sending signals that might override touch input.
Bulb turns off by itself unexpectedly.	Timer function activated.	Check the remote control for active timer settings (15/30/60/120 minutes). Deactivate the timer if continuous light is desired.

Problem	Possible Cause	Solution
Bulb does not turn on automatically during a power outage.	This model requires manual activation.	The Neporal MagixPro bulbs are designed to be manually turned on via the touch sensor or remote control when power is lost. They do not feature an automatic power-on function.

SPECIFICATIONS

Feature	Detail
Brand	Neporal
Model Name	MagicPro
Light Type	LED
Wattage	6 watts (LED), 40 watts (equivalent)
Incandescent Equivalent Wattage	60 watts
Bulb Shape Size	A19
Bulb Base	E26
Special Features	Dimmable, Long Lasting, Rechargeable
Power Source	Battery Powered
Battery Capacity	1800mAh
Charging Time	2 hours
Light Output Maximum	1000 lumens
Color Temperature	3000 Kelvin (Warm), 4000 Kelvin (Neutral), 6000 Kelvin (Daylight White)
Control Method	Remote Control, Touch Sensor
Remote Control Range	Up to 82 feet
Connectivity Technology	USB
Voltage	5 volts
Material Type	Plastic
Indoor/Outdoor Usage	Outdoor

WARRANTY AND SUPPORT

Manufacturer's Warranty

The Neporal MagixPro Rechargeable Light Bulbs come with a **2-year manufacturer's warranty**. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for warranty claims.

Customer Support

For any questions, technical assistance, or warranty claims, please contact Neporal customer support. Refer to the contact information provided with your product packaging or visit the official Neporal website for support details.
