GOVO T5

GOVO T5 Vacuum Insulated Bottle

USER MANUAL

Introduction

Thank you for choosing the GOVO T5 Vacuum Insulated Bottle. This manual provides essential information for the proper setup, operation, and maintenance of your new bottle. Please read these instructions carefully to ensure optimal performance and longevity of your product.

The GOVO T5 bottle is engineered to maintain beverage temperatures for extended periods, featuring a unique Surround Insulated Lid and a robust stainless steel construction. Its ergonomic T handle provides comfortable carrying and versatile attachment options.

Product Overview and Components

The GOVO T5 bottle is designed with several key features for superior performance and user convenience.

Image: The GOVO T5 Vacuum Insulated Bottle, showcasing its sleek black body and red T-handle lid.

- **Bottle Body:** Constructed from durable 18/8 stainless steel with an extra-thick base for maximum durability.
- **Surround Insulated Lid:** Features double-wall insulation around the lid to significantly reduce heat conduction and enhance temperature retention.
- **Metal T Handle:** Made from a single piece of aluminum, providing an ergonomic grip and versatile attachment points. It includes a hidden magnet to keep the handle securely in place when not in use.
- **Steel D-Ring:** Integrated into the lid design, offering a convenient clipping spot for carabiners or other attachments.

Setup

- Initial Cleaning:** Before first use, wash the bottle and lid thoroughly with warm, soapy water. Rinse completely and allow to air dry.
- Lid Assembly:** Ensure the silicone seal within the lid is properly seated to prevent leaks. The lid components are pre-assembled and do not require further assembly.

Operating Instructions

- Filling the Bottle:** Unscrew the lid by rotating it counter-clockwise. Fill the bottle with your desired beverage. Do not overfill; leave a small space below the rim to allow for the lid.
- Securing the Lid:** Place the lid back onto the bottle and rotate it clockwise until it is firmly tightened. Ensure the lid is securely sealed to prevent leaks and maximize insulation.
- Using the T Handle:** The Metal T Handle provides a comfortable grip for carrying. It can also be used to attach the bottle to bags, backpacks, or other gear using the integrated Steel D-Ring. The hidden magnet in the lid helps keep the T handle in a fixed position when not actively being carried.

CARRY WITH EASE

Multi-Function T handle

Image: Examples demonstrating the versatility of the T-handle for carrying and attaching the GOVO T5 bottle to different items.

Temperature Retention: The GOVO T5 bottle is designed for high-performance temperature retention. It can keep beverages cold for up to 32 hours and hot for up to 18 hours (based on 24 oz bottle specifications).

Care and Maintenance

Proper care will extend the life and performance of your GOVO T5 bottle.

- Cleaning:** The GOVO T5 bottle and lid are dishwasher safe. For best results, place on the top rack of your dishwasher. For hand washing, use warm water and mild dish soap. A bottle brush may be helpful for thorough cleaning of the interior.
- Drying:** Ensure all parts are completely dry before storing to prevent odors or mildew.
- Storage:** Store the bottle with the lid removed or slightly ajar to allow air circulation.
- Avoid Harsh Cleaners:** Do not use bleach, abrasive cleaners, or scrubbers as these can damage the finish or seals.
- Material Safety:** The bottle is constructed from 18/8 stainless steel and is BPA-free. It has passed FDA's GRAS, FDA 21 CFR 175.300, FDA 21 CFR 177.2600, and FDA 21 CFR 177.1520 tests.

RELIABLE
NO FRAGILE STRAW PARTS
EASY TO CLEAN
LEAK-PROOF FOR YEARS

EXTRA-THICK BASE
FOR MAXIMUM DURABILITY

Troubleshooting

- **Leakage:** If the bottle leaks, ensure the lid is screwed on tightly and the silicone seal inside the lid is correctly positioned and free from debris.
- **Reduced Temperature Retention:** Verify that the lid is fully sealed. Extreme external temperatures or frequent opening of the lid can affect insulation performance. Ensure the bottle is not damaged, as dents can compromise the vacuum insulation.
- **Odor Retention:** Thoroughly clean the bottle and lid with warm, soapy water. For persistent odors, a mixture of baking soda and water can be used for soaking, followed by a thorough rinse.

Specifications

Brand	GOVO
Model Name	GOVO T5 Bottle

Capacity	24 Fluid Ounces
Color	Black/Red
Material	Stainless Steel
Product Dimensions	3"W x 10.4"H
Item Weight	16 ounces (1 pound)
Special Features	Dishwasher Safe, Double Wall, Leakproof, Magnetic Handle
Product Care Instructions	Dishwasher safe
UPC	850004690246

Warranty and Support
