MAINTENANCE

Regular maintenance will extend the life and performance of your Maverick Quantum2.

- **Cleaning:** After each run, clean dirt and debris from the chassis, suspension, and wheels using a soft brush or compressed air. Avoid using water directly on electronics.
- **Inspections:** Regularly check all screws, nuts, and bolts for tightness. Inspect suspension components, driveshafts, and gears for wear or damage.
- **Battery Care:** Always store batteries in a cool, dry place. Do not overcharge or over-discharge. Follow all manufacturer guidelines for battery safety and charging.

TROUBLESHOOTING

- **No Power:** Check if batteries are fully charged and correctly installed in both the vehicle and remote. Ensure all connections are secure and the vehicle's power switch is ON.
- **No Steering/Throttle:** Verify the remote control is powered on and properly bound to the vehicle. Check for any obstructions in the steering mechanism or damage to the servo.
- **Erratic Behavior:** Ensure you are within the operating range of the remote control. Check for interference from other electronic devices.
