My Arcade Pac-Man Joystick Player (Model DGUNL-7073) Instruction Manual

1. SAFETY INFORMATION

This product is not suitable for children under 3 years old. Adult supervision is recommended during use. Please read all instructions before operating the device.

2. PRODUCT OVERVIEW

The My Arcade Pac-Man Joystick Player is a portable retro gaming console designed to replicate the classic Pac-Man arcade experience. It features a 3.5-inch full-color vertical display, an integrated joystick, and dedicated control buttons. The device supports two game modes: Classic and Speed Up. It is powered by either AA batteries or a USB-C cable, offering flexibility for on-the-go or at-home play.

4. DEVICE LAYOUT

Familiarize yourself with the key components of your Pac-Man Joystick Player:

1. **Joystick:** Used for directional movement of Pac-Man.
2. **1P/2P Buttons:** Used to select player mode and initiate gameplay.
3. **Credit Button:** Used to add credits to start a game.
4. **Home Button:** Returns to the main menu.
5. **Volume Control:** Adjusts audio output.
6. **Screen Brightness Control:** Adjusts display illumination.
7. **3.5mm Headphone Jack:** For private audio listening.
8. **USB-C Port:** For external power supply (cable not included).
9. **Battery Compartment:** Located on the back, for 4 AA batteries.

Image 4.1: Rear view of the console, showing the battery compartment and USB-C port.

5. SETUP

5.1 Powering the Device

The Pac-Man Joystick Player can be powered by two methods:

- **Batteries:** Insert 4 new AA batteries (not included) into the battery compartment located on the back of the unit. Ensure correct polarity (+/-) as indicated inside the compartment.
- **USB-C Cable:** Connect a USB-C cable (not included) from the console's USB-C port to a compatible USB power source (e.g., wall adapter, power bank).

5.2 Initial Power On

Once powered, press the Power button (location may vary, typically near the screen or on the side) to turn on the

device. The screen will illuminate, displaying the game's title screen.

6. OPERATION

6.1 Starting a Game

To begin playing Pac-Man:

1. Ensure the device is powered on.
2. From the title screen, press the **'1P'** or **'2P'** button to select your player mode.
3. Press the **'Credit'** button to add a credit and start the game.

Note: The on-screen prompt for 'Start' refers to the '1P' or '2P' buttons, not a dedicated 'Start' button.

6.2 Gameplay Controls

- **Joystick:** Move Pac-Man through the maze to eat dots and power pellets.

6.3 Game Modes

The console includes two game modes:

- **Classic Mode:** Experience the original Pac-Man gameplay.
- **Speed Up Mode:** A faster-paced version of the game for an increased challenge.

6.4 Audio and Display Adjustments

- **Volume Control:** Use the dedicated volume buttons/dial to adjust the game's sound level.
- **Screen Brightness:** Use the brightness control to optimize visibility in various lighting conditions.
- **Headphone Jack:** Plug in standard 3.5mm headphones for private listening.

6.5 Saving High Scores

The device is designed to save your high scores automatically.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the console. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** If the device will not be used for an extended period, remove the batteries to prevent leakage.

8. TROUBLESHOOTING

- **Device does not power on:**
  - Check if batteries are inserted correctly and are not depleted. Replace with new batteries if necessary.
  - If using USB-C power, ensure the cable is securely connected and the power source is functional.
- **Screen turns on but no game appears:**
  - Ensure you have pressed the '1P' or '2P' button followed by the 'Credit' button to start the game.
  - Try pressing the 'Home' button to return to the main menu and attempt to start the game again.
- **No sound or distorted sound:**
  - Adjust the volume control.
  - If using headphones, ensure they are fully plugged into the 3.5mm jack and are functioning correctly.
- **Joystick unresponsive:**
  - Ensure the joystick is clean and free from obstructions.
  - Restart the device.
