2. SAFETY INFORMATION

- Always assemble the desk according to the provided instructions to ensure stability and safety.
- Use the adjustable non-slip foot pads to protect your floor and maintain stability on uneven surfaces.
- Do not exceed the maximum weight limit of 500 lbs (226 kg) on the desk surface.
- Keep liquids away from the integrated power outlets to prevent electrical hazards.
- Ensure all connections for the RGB LED light and power outlets are secure before use.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- 1 x Corner Desk (multiple panels)
- 1 x Instruction Manual (this document)
- 1 x Monitor Stand
- 1 x Power Socket (integrated charging station)

- 1 x RGB LED Light Strip
- All necessary hardware (screws, bolts, tools if included)

4. SETUP AND ASSEMBLY

The Unikito L-Shaped Computer Desk is designed for straightforward assembly. Follow the step-by-step instructions provided in the separate assembly guide included in your package. Ensure you have adequate space for assembly.

4.1 Reversible Design

This desk features a reversible design, allowing it to be configured in three ways: L-shape (left or right orientation) or as a straight long desk. Decide on your preferred configuration before starting assembly.

5. OPERATING INSTRUCTIONS

5.1 Integrated Power Outlets and USB Ports

The desk includes an integrated power strip with 3 AC outlets (125V/12A) and 2 USB charging ports (5V/2A). Connect the desk's power cord (6.5ft) to a wall outlet. You can then power your devices directly from the desk.

6. MAINTENANCE

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the laminated finish.
- **Hardware:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Power Outlets:** Keep the power outlets clean and free of dust. Do not attempt to disassemble the power strip.
- **LED Lights:** If the LED lights malfunction, check the connections. Do not attempt to repair the LED strip yourself.

7. TROUBLESHOOTING

- **Desk is wobbly:** Ensure all assembly hardware is securely tightened. Adjust the non-slip foot pads on each leg to level the desk on uneven surfaces.
- **Parts do not align during assembly:** Double-check the assembly instructions and diagrams to ensure all pieces are oriented correctly. If a part appears to be manufactured incorrectly, contact customer support.
- **Power outlets not working:** Verify that the desk's main power cord is securely plugged into a functional wall outlet. Check if the wall outlet itself is receiving power.
- **RGB LED lights not working or unresponsive:** Ensure the LED strip is properly connected to its power source. Check the remote control's battery. If using multiple desks with RGB lights, note that remote controls may operate all nearby units simultaneously.
