4. SETUP

4.1 Initial Charging of the Power Bank

Before first use, it is recommended to fully charge your imuto Power Bank. There are two ways to recharge it:

1. **Using the Integrated USB-C Cable:** Connect the integrated USB-C cable to a compatible USB-C wall charger (not included).
2. **Using the USB-C Port:** Use the included USB-C to USB-C cable to connect the power bank's USB-C port to a compatible USB-C wall charger.

The LED display will show the charging progress. A full charge from 0% to 100% takes approximately 2.5 hours with a PD 30W charger.

5. OPERATING INSTRUCTIONS

5.1 Charging Your Devices

To charge your device:

1. **Using the Integrated USB-C Cable:** Pull out the integrated USB-C cable and connect it directly to your USB-C compatible device (e.g., iPhone 15, Samsung Galaxy, iPad).
2. **Using External Cables:** Connect your device's charging cable to the USB-A or USB-C output port on the power bank, then connect the other end to your device.

The power bank will automatically begin charging. The LED display will show the remaining battery percentage.

7. MAINTENANCE

Proper care and maintenance will extend the life of your power bank:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Care:** To maintain battery health, fully charge the power bank at least once every three months if not in regular use. Avoid fully discharging the battery for extended periods.
- **Avoid Drops:** Do not drop or subject the power bank to strong impacts.
- **Water Exposure:** Keep the power bank away from water and other liquids.

8. TROUBLESHOOTING

If you encounter issues with your imuto Power Bank, refer to the following common problems and solutions:

- **Power Bank Not Charging:**
 - Ensure the charging cable is securely connected to both the power bank and the wall charger.

- Try a different wall charger and cable to rule out faulty accessories.
- Verify the wall charger provides sufficient power (e.g., 30W PD charger for fast charging).

- **Device Not Charging from Power Bank:**

- Check if the power bank has sufficient charge (check LED display).
- Ensure the charging cable connecting the power bank to your device is functional and securely connected.
- Try a different port on the power bank (USB-A, USB-C, integrated cable).
- If charging a low-power device, ensure low current mode is activated.
- Restart your device.

- **Slow Charging:**

- Ensure you are using a fast-charging compatible cable and wall adapter for recharging the power bank.
- For device charging, ensure your device supports fast charging and you are using a compatible cable.
- Avoid charging multiple devices simultaneously if you require maximum speed for one device.

- **LED Display Not Working:**

- Press the power button once to activate the display.
- If the power bank is completely discharged, the display may not light up until it receives some charge.

If the problem persists after trying these steps, please contact customer support.
