

EONON P4J

EONON 9.33-inch Portable Display Audio P4J Instruction Manual

Model: P4J | Brand: EONON

1. PRODUCT OVERVIEW

The EONON P4J Portable Display Audio system offers advanced features for an enhanced driving experience, including a high-resolution IPS touchscreen, integrated dash cam functionality, and seamless smartphone integration.

Key Features:

- **9.33-inch IPS Touchscreen:** Features a 1600*600 ultra-high-definition resolution and an IPS panel for natural, ideal images from any viewing angle. Includes a light sensor for automatic brightness adjustment, reducing eye strain.
- **V536 Powerful Chip:** Provides a faster and more responsive user experience compared to previous models.
- **4K Front Camera:** Records in 3840x2160P (8 million pixels), offering 4 times the resolution of standard 1080P. Equipped with WDR (Wide Dynamic Range) for clear images in various lighting conditions.
- **1080P Rear Camera:** Features a 120° wide-angle lens to minimize blind spots. Automatically switches to the reverse screen with adjustable guidelines when reversing.
- **Front and Rear Dual Camera Simultaneous Recording:** Supports simultaneous recording from both front and rear cameras for comprehensive driving safety. Includes loop recording and a G-sensor for automatic emergency recording and overwrite protection. A 64GB SD card is included (supports 32-256GB, Class 10 or higher Micro SD cards).
- **Wireless Android Auto/CarPlay:** Connects easily to your smartphone for navigation, calls, music, and voice assistant control. Supports wireless connection only. Wireless Android Auto requires a 5 GHz Wi-Fi compatible smartphone with the latest Android Auto app. CarPlay is compatible with iPhone 5 and later.
- **Mirroring Function:** Wirelessly mirrors photos, music, and videos from your smartphone to the display. Note: Some apps/videos (e.g., Netflix) may not support mirroring due to copyright restrictions.
- **Split Screen Display:** Simultaneously displays information from CarPlay/Android Auto and real-time camera views.
- **3 Audio Output Methods:** Offers Bluetooth output, AUX output, and a built-in speaker.
- **DC7-32V Compatibility:** Suitable for various vehicles including cars and trucks.

- **Easy Installation:** Quick 10-second installation without tools. Can be mounted on the center console or windshield.
- **Customizable Startup Screen:** Set your favorite car logo or images (family, pets, scenery) as the startup screen.
- **Screen Saver:** Automatically turns off the screen after a set time (10s/30s/1min/Off) to conserve vehicle power.
- **Last Memory Function:** Retains previous settings after power off and restart, eliminating the need for re-setup (clock memory lasts approximately 3 days).

2. SETUP AND INSTALLATION

2.1. Mounting the Device

The EONON P4J offers flexible installation options for your vehicle's dashboard or windshield. The installation process is designed to be quick and tool-free.

1. Clean the desired mounting surface thoroughly to ensure proper adhesion.
2. Attach the base of the mount to the cleaned surface.
3. Peel off the protective film from the adhesive pad on the mount and firmly press it onto the center console or windshield.
4. Connect one end of the cigarette lighter power cable to the device's power input port and the other end to your car's cigarette lighter socket.

取り付け簡単

取り付けにかかる時間はわずか10秒。ツールは不要で、簡単にセンターコンソールやウィンドウに取り付けることができます。

フロントガラスに取付け

ダッシュボードに取付け

Image 2: Demonstrates two easy installation methods: mounting on the front glass (windshield) using a suction cup bracket, and mounting on the dashboard using an adhesive bracket. Both methods allow for angle adjustments.

2.2. Wiring Diagram and Accessories

Ensure all components are correctly connected as per the wiring diagram. The package includes all necessary accessories for a complete setup.

Video 3: This video details the installation process for a similar display audio unit, focusing on the physical mounting and cable management within the vehicle. It shows how to secure the unit on the dashboard and route power and camera cables discreetly.

3. OPERATING INSTRUCTIONS

3.1. Wireless CarPlay and Android Auto

Connect your smartphone wirelessly to access navigation, make calls, play music, and use voice assistants directly from the display. Ensure your phone's Wi-Fi and Bluetooth are enabled.

3.2. Mirroring Function

Wirelessly display your smartphone's screen content, such as photos, videos, and apps, on the EONON P4J. Note that some copyrighted content may not be mirrored.

Video 5: This video explains how to connect your smartphone to the display audio unit. It covers the wireless connection process for both Android Auto and CarPlay, ensuring users can easily link their devices for integrated functionality.

4. MAINTENANCE

To ensure the longevity and optimal performance of your EONON P4J Portable Display Audio, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that may damage the surface.
- **Temperature:** Avoid exposing the device to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Cable Management:** Periodically check all cables for secure connections and signs of wear. Ensure cables are not pinched or tangled.
- **Software Updates:** Check the manufacturer's website or device settings for any available software updates to ensure the best performance and compatibility.

5. TROUBLESHOOTING

If you encounter issues with your EONON P4J, refer to the following common troubleshooting steps:

- **No Power:** Ensure the cigarette lighter power cable is securely connected and the vehicle's power outlet is functioning. Check the vehicle's fuse box if necessary.
- **Display Not Responding:** Try restarting the device by disconnecting and reconnecting the power. If the issue persists, perform a factory reset via the system settings (note: this will erase custom settings).
- **CarPlay/Android Auto Connection Issues:** Verify that your smartphone's Wi-Fi and Bluetooth are enabled and correctly paired. Ensure your phone is compatible and has the latest app versions. Try forgetting the device on your phone's Bluetooth settings and re-pairing.
- **Camera Feed Problems:** Check that the camera cables are securely connected to the main unit. Ensure the rear camera's trigger wire is correctly connected to the reverse light power source for automatic switching.
- **Audio Distortion/No Sound:** Confirm the selected audio output method (Bluetooth, AUX, or built-in speaker) is correct. Adjust the volume on both the device and your vehicle's audio system. If using AUX, ensure the cable is fully inserted.
- **SD Card Errors:** Ensure the microSD card is Class 10 or higher and within the supported capacity (32-256GB). Try formatting the SD card through the device's system settings.

For further assistance, please contact EONON customer support.

6. SPECIFICATIONS

Brand	Eonon
Manufacturer	EONON
Series	Dash Monitor with Drive Recorder
Product Dimensions	29 x 12 x 15 cm; 1.37 kg
Product Model Number	P4J
Standing Screen Display Size	9.33 inches

Resolution	1600*600 pixels
Display Max Resolution	1600*600 pixels
Item Weight	1.37 Kilograms
ASIN	B0CT8N87QS
First Available Date	2024/1/25

7. WARRANTY AND SUPPORT

For information regarding product warranty, returns, or technical support, please refer to the documentation included with your purchase or visit the official EONON website. Keep your purchase receipt as proof of purchase.
