## 7. Troubleshooting

If you encounter any issues with your patio furniture set, please consider the following common solutions:

- **Loose Connections:** Check all bolts and screws to ensure they are tightened securely. Over time, connections may loosen and require re-tightening.
- **Cushion Firmness:** New cushions may feel stiff. They will soften with regular use. Ensure cushions are properly fluffed and positioned.
- **Stability:** Ensure the furniture is placed on a flat, even surface to prevent wobbling.
- **Rust Spots:** While designed for rust prevention, prolonged exposure to harsh conditions without cleaning may lead to minor spots. Clean immediately with a damp cloth and mild soap, then dry.

thoroughly.

For issues not resolved by these steps, please refer to the Warranty & Support section.
