Aramox Control Steering Wheel Button: Instruction Manual

Model: Aramox5yae9xpofb

Introduction

This manual provides detailed instructions for the installation and operation of your Aramox Control Steering Wheel Button. This device is designed to offer convenient control over your car's multimedia system, including radio, DVD player, and Android navigation systems, directly from your steering wheel. By integrating these controls, it aims to enhance driving safety and convenience.

Product Features

- **Multi-Functional Control:** Provides control for car radio, DVD player, and Android navigation systems.
- **Enhanced Driving Safety:** Allows hands to remain on the steering wheel, reducing distractions.
- **Convenient Operation:** Access multimedia and navigation functions directly from the steering wheel.
- **Wireless Connectivity:** Ensures a clean, wire-free setup with stable and seamless control.
- **Wide Compatibility:** Universal design compatible with most in-car radios, DVD players, and Android navigation systems.
- **Rechargeable:** Features a rechargeable power source for sustained use.

Specifications

Brand	Aramox
Model Number	Aramox5yae9xpofb
Color	Black
Item Weight	2.86 ounces
Package Dimensions	6.3 x 2.76 x 1.57 inches
Special Feature	Rechargeable
Max Number of Supported Devices	1
Compatible Devices	DVD/Blu-ray Player, Car Radio, Android Navigation Systems

Installation Instructions

Follow these steps to properly install the Aramox Control Steering Wheel Button:

1. **Prepare the Car Player:** Uninstall and remove the car player unit. Ensure the car key is turned off to prevent electrical issues.
2. **Connect Power Wires:** Connect the black wire (GND) and red wire (ACC) from the steering wheel control receiver to the corresponding main harness wires of the car player.
3. **Connect Control Wires:** Connect the brown wire (KEY1) and brown-black wire (KEY2) from the IR receiver to the car player's wiring harness. These typically correspond to KEY1/SWC1/AD1 and KEY2/SWC2/AD2 inputs on the car player.
4. **Insulate Connections:** After making all connections, insulate them properly to prevent short circuits.
5. **Reinstall and Configure:** Plug the car player back into its main harness. Turn on the car player and navigate to its settings menu. Locate the "Steering Wheel Control" or "SWC" learning function and follow the on-screen prompts to pair the steering wheel buttons with the car player's functions.

Troubleshooting Tip for Pairing: If you encounter difficulties learning or matching the buttons, try an alternative wiring configuration. Connect the brown wire (KEY1) and brown-black wire (KEY2) of the receiver to KEY/SWC2-1 and KEY/SWC2-2, respectively, on the car player's wiring harness. Then attempt the pairing process again.

Operating Instructions

The Aramox Control Steering Wheel Button provides 10 programmable keys for various multimedia and call functions. Once installed and paired, you can operate your car's system wirelessly.

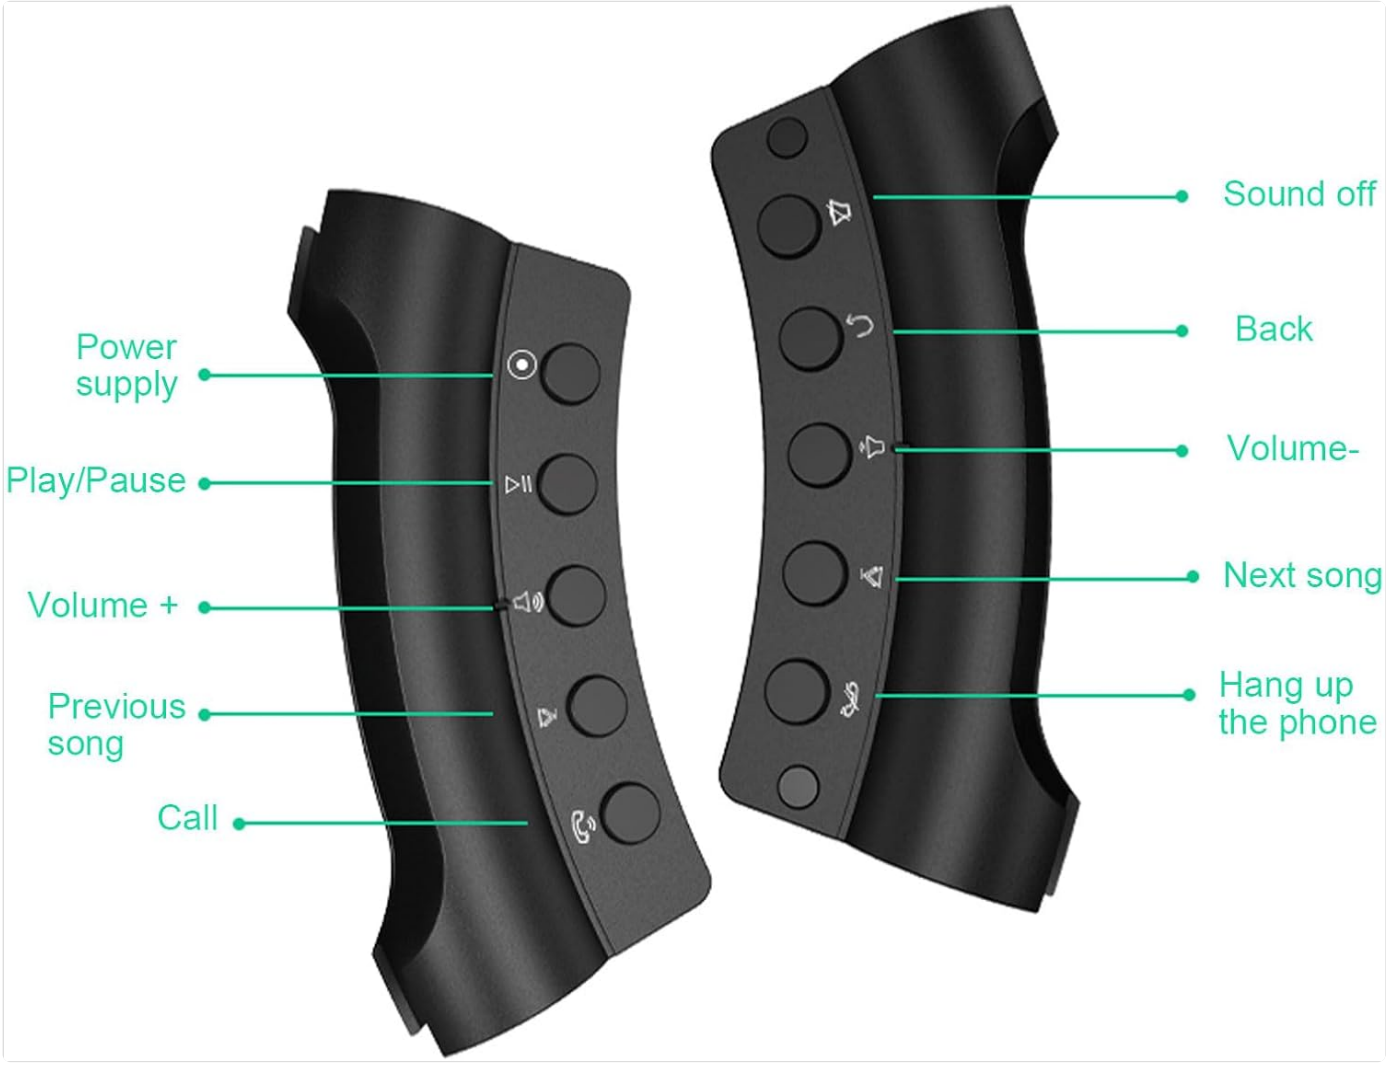

Image: A detailed diagram illustrating the functions of each button on the Aramox Steering Wheel Control. Buttons include Power Supply, Play/Pause, Volume +, Previous Song, Call, Sound Off, Back, Volume -, Next Song, and Hang Up the Phone.

Button Functions:

- **Power Supply:** Turns the unit on/off.
- **Play/Pause:** Controls media playback.
- **Volume +:** Increases audio volume.
- **Volume -:** Decreases audio volume.
- **Previous Song:** Skips to the previous track.
- **Next Song:** Skips to the next track.
- **Call:** Initiates a phone call (if paired with a compatible system).
- **Hang up the phone:** Ends a phone call.
- **Sound off:** Mutes audio.
- **Back:** Navigates back in menus or applications.

The device offers 8-12 meters of wireless control range, allowing for flexible placement and operation.

Maintenance

To ensure the longevity and optimal performance of your Aramox Control Steering Wheel Button:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the device. Avoid using harsh chemicals or abrasive cleaners.
- **Charging:** The device is rechargeable. Ensure it is charged regularly to maintain wireless functionality. A USB-C charger can be used for this purpose.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place.

Troubleshooting

- **Buttons Not Responding:**
  - Ensure the device is charged.
  - Verify that the receiver is correctly wired to the car player (GND, ACC, KEY1, KEY2).
  - Re-attempt the pairing process in the car player's SWC settings.
  - If pairing fails, try the alternative wiring configuration for KEY1/KEY2 as described in the installation section.
- **Intermittent Connection:**
  - Check for any obstructions between the steering wheel button and the receiver.
  - Ensure the receiver is securely connected and its wires are not loose.
  - Confirm the device is fully charged.
- **Difficulty Clipping to Steering Wheel:**
  - Exercise caution during attachment to avoid damage to the steering wheel. The clips are designed for a tight fit.
