3. SETUP

3.1 Initial Setup

1. Place the subwoofer on a flat, stable surface, ideally on the floor or under your desk for optimal bass response.
2. Position the left and right satellite speakers on your desktop, ensuring they are angled towards your listening position for the best audio projection.
3. Connect the satellite speakers to the subwoofer using their integrated cables.
4. Connect the subwoofer to the main speaker unit using the provided RCA cable.

3.2 Connectivity Options

The Creative Pebble X Plus offers multiple ways to connect to your devices:

- **USB Audio:** Connect the USB-C to USB-C cable from your computer's USB-C port to the USB-C data port on the main speaker. This provides digital audio playback.
- **Bluetooth 5.3:** For wireless streaming, activate Bluetooth on your device and pair with "Creative Pebble X Plus".
- **3.5mm AUX Input:** Use the provided 3.5mm AUX cable to connect to any device with a standard audio jack.

MULTI-CONNECTIVITY OPTIONS

Select between wired and wireless modes; supports USB audio playback, *Bluetooth* 5.3 streaming, and analog 3.5 mm AUX input

Also included are headset and microphone ports for quick and easy communication

3.3 Power Requirements

The speakers are powered via USB-C. For standard performance, they deliver up to 15W RMS power and 30W peak. To achieve amplified sound playback of up to 30W RMS and a 60W peak, connect the USB-C PD cable to a 30W or higher USB Power Delivery (PD) adapter (not included).

4. OPERATING INSTRUCTIONS

4.1 Controls

All primary controls are located on the front of the right satellite speaker:

- **Volume Knob:** Rotate clockwise to increase volume, counter-clockwise to decrease.
- **Source Button:** Press to cycle between USB, Bluetooth, and AUX input modes.
- **RGB Lighting Button:** Press once to cycle through different RGB lighting presets. Press and hold for 2 seconds to enter brightness control mode, then rotate the volume knob to adjust brightness.

4.2 RGB Lighting Customization

The Creative Pebble X Plus features customizable RGB lighting with up to 16.8 million color combinations and six lighting presets:

- Chaser
- Aurora
- Peak Meter
- Glow
- Wave
- Cycle

Adjust brightness by pressing and holding the RGB button and rotating the volume knob.

microphone.

5. MAINTENANCE

- Keep the speakers and subwoofer clean by wiping them with a soft, dry cloth.
- Avoid using liquid cleaners or abrasive materials, as these can damage the finish or internal components.
- Ensure proper ventilation around the subwoofer to prevent overheating.
- Keep the speakers away from direct sunlight, heat sources, and excessive moisture.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound output	Incorrect input source selected, loose cable connections, low volume.	Ensure correct input mode (USB, Bluetooth, AUX) is selected. Check all cable connections. Increase volume on speakers and connected device.
Bluetooth pairing issues	Speakers not in pairing mode, device too far, interference.	Press the source button to enter Bluetooth pairing mode. Ensure speakers are within 10 meters of your device. Remove any obstacles or sources of interference.
RGB lights not working or dim	Brightness set too low, power delivery issue.	Adjust RGB brightness using the control button and volume knob. Ensure a 30W or higher USB PD adapter is used for maximum brightness.
Distorted audio	Volume too high, poor audio source quality.	Reduce speaker volume. Check audio source quality and try a different source if possible.

7. SPECIFICATIONS

- **Model Name:** Creative Pebble X Plus 2.1 USB-C Computer Speakers with Subwoofer and Customizable RGB Lighting, Bluetooth 5.3, USB Audio, Up to 15W RMS Power for PC and Mac
- **Brand:** Creative
- **Model Number:** MF0495
- **Speaker Type:** Satellite (2.1 Channel)
- **Subwoofer Diameter:** 2.75 Inches
- **Woofer Diameter:** 2.75 Inches

- **Speaker Maximum Output Power:** 60 Watts (Peak)
- **RMS Power:** 15W (Standard), 30W (with 30W+ USB PD adapter)
