IMPORTANT SAFETY INFORMATION

Before using your Dyson vacuum cleaner, read all instructions and cautionary markings in this manual and on the appliance. When using an electrical appliance, basic precautions should always be followed, including the following:

- Do not use outdoors or on wet surfaces.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- Use only as described in this manual. Use only Dyson recommended attachments.
- Do not use with damaged cord or plug. If appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle plug or appliance with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not use without dust bin and filters in place.
- Turn off all controls before unplugging.
- Use extra care when cleaning on stairs.

SETUP AND ASSEMBLY

Your Dyson Ball Animal Total Clean vacuum comes with several components that require simple assembly before first use. Ensure all packaging materials are removed.

Filter Maintenance

The vacuum features whole-machine filtration, trapping particles inside. Regularly check and clean filters as per the instructions in the full user manual to maintain optimal suction and filtration performance.

Brush Bar Cleaning

While the tangle-free turbine tool is designed to prevent hair tangles, it is advisable to periodically check the main cleaner head's brush bar for any accumulated debris or hair and remove it to ensure consistent performance.

TROUBLESHOOTING

If your Dyson Ball Animal Total Clean vacuum is not performing as expected, please refer to the following common issues:

- **No Power:** Check if the power cord is securely plugged into a working outlet. Ensure the power button is pressed.
- **Loss of Suction:** Check the dust bin for fullness and empty if necessary. Inspect the filters and clean

them if they are dirty. Look for blockages in the cleaner head, wand, or hose.

- **Brush Bar Not Rotating:** Ensure the vacuum is in the correct floor mode for brush bar activation. Check the brush bar for obstructions like tangled hair or debris.
