#### Power Modes and Intelligent Adaptation

The Dyson V15 Detect Plus features three power modes: Auto, Eco, and Boost. The vacuum intelligently adapts suction power based on detected debris and floor type in Auto mode, optimizing run time and cleaning performance. The LCD screen displays total picked-up particles and remaining run time.

## Run time

Up to 60 minutes of run time<sup>2</sup>  
with 3 cleaning modes

## Cordless power

100% more power than  
Dyson V8™ vacuums

## Intelligence

Intelligently adapts suction  
based on floor type and  
picked-up dust volume<sup>3</sup>

## Illumination

Fluffy Optic™ cleaner head  
reveals invisible dust on  
hard floors

### Cleaner Heads and Attachments

Utilize the two advanced cleaner heads and four attachments for various cleaning needs:

- **Fluffy Optic™ cleaner head:** Designed for hard floors, it uses illumination technology to reveal invisible dust.
- **Digital Motorbar™ cleaner head:** Deep cleans all floor types and features de-tangling technology for long hair and pet hair.
- **Hair screw tool:** Specifically designed to pick up long hair and pet hair without tangling, ideal for upholstery and pet beds.
- **Mini soft dusting brush:** For delicate surfaces.
- **Crevice tool:** For reaching tight spaces and edges.

### Filter Cleaning

The advanced whole-machine filtration system includes a washable HEPA filter. Refer to the MyDyson app or product manual for specific cleaning instructions to maintain optimal performance.

### Cleaner Head Maintenance

The Digital Motorbar™ cleaner head is designed with de-tangling technology to prevent hair wrap. Regularly check and clear any obstructions from both cleaner heads to ensure consistent suction.

## TROUBLESHOOTING

---

Specific troubleshooting steps are typically detailed in the full product manual provided with your Dyson V15 Detect Plus. For common issues such as loss of suction, blockages, or battery performance, please consult the detailed guide or the MyDyson app.
