Statik ST05206M

Statik 360 Pro Magnetic Charging Cable Instruction Manual

Brand: Statik | Model: ST05206M

INTRODUCTION

The Statik 360 Pro Magnetic Charging Cable offers a versatile and durable solution for charging and data transfer across multiple devices. Designed for convenience, its magnetic connection and rotating head simplify usage and protect device ports from wear.

WHAT'S INCLUDED

- 1x Statik 360 Pro Magnetic Charging Cable (6FT/2M Black)
- 3x Magnetic Tips (iProduct, USB-C, Micro USB)
- 1x USB-A Adapter
- 1x Silicone Cable Organizer

SETUP INSTRUCTIONS

1. **Insert Magnetic Tip:** Select the appropriate magnetic tip (iProduct, USB-C, or Micro USB) for your device. Gently insert the tip into your device's charging port. It is recommended to leave the tip installed in your device to protect the port from dust and reduce wear from repeated plugging and unplugging.
2. **Connect to Power Source:** Plug the USB-A end of the Statik 360 Pro cable into a compatible USB power adapter or a USB port on a computer. If using the USB-C end of the cable, ensure it is connected to a compatible USB-C power source for optimal fast charging.
3. **Attach Cable to Device:** Bring the magnetic end of the charging cable close to the magnetic tip inserted in your device. The strong magnetic connection will automatically snap into place.
4. **Verify Connection:** The cable features an LED charging indicator that will illuminate when a proper connection is established and charging is active.

STATIK 360 **PRO**

Image: Overview of the Statik 360 Pro Magnetic Charging Cable, showing the main cable, USB-A adapter, and three magnetic connector tips (iProduct, USB-C, Micro USB). The cable features a strong, flexible nylon braid and an LED charging indicator.

OPERATING INSTRUCTIONS

Charging Your Device

Once the magnetic tip is inserted into your device and the cable is connected to a power source, simply bring the magnetic end of the cable near the tip. The magnetic connection will secure the cable, and your device will begin charging. The LED indicator on the cable will confirm the active charging status.

Data Transfer

To transfer data, ensure the magnetic tip is securely connected to your device and the cable is plugged into a computer's USB port. The Statik 360 Pro supports data transfer speeds up to 480 MB/s, enabling quick syncing of files, music, and other data.

360-Degree Rotation

The magnetic connector features a 360-degree rotating swivel design. This allows the cable to rotate freely while connected,

preventing kinks and strain on the cable and your device's port. This is particularly useful when using your device while charging, such as during gaming or video playback, as it allows for comfortable handling without cable interference.

UNIQUE ROTATING HEAD

Our patented design stays out of your way while charging

Image: A smartphone being charged with the Statik 360 Pro Magnetic Charging Cable, highlighting the 180-degree and 360-degree rotation capabilities of the magnetic head, allowing for flexible use while charging.

Swapping Magnetic Tips

The interchangeable magnetic tips allow you to use a single cable for various devices. Simply detach the cable from one device's magnetic tip and attach it to another device with a different magnetic tip installed. This eliminates the need for multiple charging cables.

Image: Two smartphones and a tablet connected with different magnetic tips (USB-C, Micro USB, iProduct) to illustrate the universal compatibility of the Statik 360 Pro Magnetic Charging Cable.

KEY FEATURES

- **100W Fast Charging:** Equipped with a BlitzCharge chip, this cable supports fast charging up to 100W, suitable for laptops, smartphones, tablets, and drones. iProduct devices charge at 27W, and USB-A devices at 18W.
- **High-Speed Data Transfer:** Achieve data transfer rates of 480 MB/s, enabling quick syncing of files and seamless media streaming.
- **Universal Compatibility:** Includes three magnetic tips (iProduct, USB-C, Micro USB) and a USB-A adapter, making it compatible with a wide range of devices including iPhones, MacBooks, iPads, Samsung Galaxy phones, Google Pixel, Steam Deck, and Nintendo Switch.
- **Enhanced Magnetic Connection:** Features 2X stronger magnetic USB charger tips to prevent accidental disconnections and ensure a reliable charge.
- **360-Degree Rotating Head:** The swivel magnetic tips protect your device's power port from damage caused by dust,

accidental pulls, yanks, and surges, extending the lifespan of your device.

- **Durable Construction:** The cable is made with military-grade braided nylon, tested to withstand over 20,000 rotations and 20,000+ plug and pull cycles, making it significantly more durable than standard cables.
- **LED Charging Indicators:** Integrated LED lights on the cable indicate active power and charging status.
- **Silicone Cable Organizer:** A reusable silicone strap is included to keep the cable neatly organized and tangle-free.

FOR FASTEST-CHARGING,
MAKE SURE IT'S CONNECTED
TO THE USB-C PORT.

FAST CHARGE & DATA SYNC

Statik 360 Pro Supports Charging speed up to 100
Watts, and data transfer speed up to 480 mb/s.

80% CHARGE IN 60 MINUTES FOR IPRODUCTS

Image: A laptop and smartphone connected via the Statik 360 Pro Magnetic Charging Cable, illustrating its fast charge (up to 100W) and data sync (480MB/s) capabilities. An important note indicates connecting to the USB-C port for fastest charging.

MILITARY GRADE NYLON CABLE

Braided nylon cable for
maximum durability.

SPECIFICATIONS

Attribute	Detail
Brand	Statik
Model Number	ST05206M
Connector Type	Magnetic (Lightning, Micro USB, USB Type C tips)
Power Delivery	Up to 100W (USB-C), 27W (iProduct), 18W (USB-A)
Data Transfer Rate	480 Megabytes Per Second
Cable Length	6FT / 2M
Color	Black
Special Features	New Magnetic Head with 2x Durability, LED Charging Indicators, 3 Removable Connectors, 360-Degree Rotation
Compatible Devices	iProduct 8-15 series, MacBook Air/Pro, iPad Mini/Pro/Air, Galaxy S8-S23 series, Note 10-20 series, Google Pixel Series, Steam Deck, Nintendo Switch, and more.
Item Weight	0.704 ounces
Product Dimensions	76 x 0.6 x 0.3 inches

MAINTENANCE AND CARE

- **Keep Tips Clean:** Regularly inspect and clean the magnetic tips and the cable's magnetic end to ensure optimal connection and prevent dust buildup. Use a soft, dry cloth.
- **Avoid Extreme Conditions:** Do not expose the cable or tips to extreme temperatures, direct sunlight for prolonged periods, or corrosive liquids.
- **Store Properly:** Use the included silicone cable organizer to keep the cable neatly coiled when not in use, preventing tangles and damage.
- **Handle with Care:** While durable, avoid excessive force when connecting or disconnecting the magnetic cable. Do not yank the cable from the device.

TROUBLESHOOTING

- **Device Not Charging:**
 - Ensure the magnetic tip is fully inserted into your device's charging port.
 - Verify the magnetic connection between the cable and the tip is secure.
 - Check if the power source (wall adapter, computer USB port) is active and functioning correctly.
 - Confirm the LED indicator on the cable is illuminated. If not, try a different power source or cable.
- **Slow Charging:**

- Ensure your power adapter supports fast charging (e.g., 100W for USB-C devices).
 - Some devices may limit charging speed based on battery level or temperature.
 - For fastest charging, ensure the USB-C end of the cable is connected to a USB-C power source.
- **Magnetic Connection is Weak:**
 - Clean the magnetic surfaces of both the tip and the cable end. Debris can interfere with the magnetic strength.
 - Ensure the tip is fully seated in the device port.
 - **Data Transfer Issues:**
 - Ensure the cable is securely connected to both the device and the computer.
 - Verify your device is set to data transfer mode (if applicable).
 - Try a different USB port on your computer.

WARRANTY AND SUPPORT

Warranty Information

Statik products are manufactured with high-quality materials and undergo rigorous testing. For specific warranty details and duration, please refer to the product packaging or the official Statik website. Keep your proof of purchase for warranty claims.

Customer Support

If you encounter any issues or have questions regarding your Statik 360 Pro Magnetic Charging Cable, please contact our customer support team. You can find contact information on the official Statik website or through your retailer's support channels. For more information, visit the official [Statik Store](#).
