- Middle Shelf (1)
- Bottom Shelf (1)
- Steel Frame Legs (4)
- Adjustable Foot Pads (4)
- Assembly Hardware (Screws, Washers)

Assembly Steps:

1. **Unpack and Verify:** Carefully unpack all components and compare them against the included parts list to ensure everything is present and undamaged.
2. **Attach Foot Pads:** Screw the adjustable foot pads into the bottom of the steel frame legs.
3. **Assemble Frame:** Connect the steel frame legs to the tabletop. It is recommended to loosely attach all screws first, then tighten them once all parts are aligned.
4. **Install Shelves:** Insert the middle and bottom shelves into the designated slots on the steel frame. Ensure they are level and secure before tightening any remaining screws.
5. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws using the provided installation tool. Do not overtighten.
6. **Adjust for Stability:** Place the assembled table in its desired location. Adjust the foot pads as needed to ensure the table is stable and level on any surface.

Tip: While assembly is designed for one person, having a second person can assist with aligning components, especially the top and shelves, for easier and quicker setup. Ensure screws are only lightly tightened until all pieces are matched up with their respective holes.
