SAFETY INFORMATION

WARNING:

- May contain small parts not suitable for children under 3 years of age.
- Adult supervision is recommended during play.
- Do not operate robots near stairs, furniture, or other obstacles to prevent damage or injury.
- Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Remove batteries from robots and remote controls when not in use for extended periods.

PACKAGE CONTENTS

Ensure all items are present before beginning setup:

- 1x Blue Battle Robot (Jib)
- 1x White Battle Robot (Jab)
- 1x Blue Remote Control (for Jib)
- 1x White Remote Control (for Jab)
- 2x Ejecting Pilot Figures

Image: The blue and white battle robots, their respective remote controls, and two small pilot figures.

SETUP

1. Battery Installation

Batteries required (not included): Refer to the product packaging for specific battery requirements for each robot and remote control unit. Typically, each robot and remote control requires AA batteries.

1. Locate the battery compartment on the underside of each robot and on the back of each remote control.
2. Using a small screwdriver (not included), open the battery compartment cover.
3. Insert the required batteries, ensuring correct polarity (+/-).
4. Replace the battery compartment cover and secure it with the screw.

2. Pilot Installation

Place the small pilot figures into the designated ejector seats on top of each robot. Ensure they are seated securely.

OPERATING INSTRUCTIONS

1. Powering On

Turn on each robot and its corresponding remote control using the ON/OFF switches. The robots and remotes will automatically pair via infrared technology.

Image: Close-up of the blue robot, highlighting its light-up target and sound effects, and the wireless infrared control feature.

2. Basic Controls (Refer to Remote Control Layout)

- **Left Joystick:** Controls forward and backward movement.
- **Right Joystick:** Controls turning left and right.
- **Left Punch Button:** Initiates a left arm punch.
- **Right Punch Button:** Initiates a right arm punch.

3. Battle Modes

The Mecha Rivals offer two primary modes of play:

- **Versus Mode (Two Players):** Each player controls one robot. The objective is to hit the opponent's chest plate twice. The first robot to have its pilot ejected twice loses the round.
- **Solo Mode (Single Player):** Practice your skills against the AI-controlled robot.

Image: Close-up of the white robot, illustrating the "Dual Modes" for play and the "Ejector Seats" feature where the pilot launches upon impact.

4. Winning a Battle

To win a battle, successfully land two punches on your opponent's chest plate. Each successful hit will trigger lights and sounds, and the second hit will cause the opponent's pilot to eject, signifying victory.

Image: The blue and white robots engaged in battle, with their respective remote controls shown in the foreground.

MAINTENANCE

- **Cleaning:** Wipe robots and remote controls with a dry, soft cloth. Do not use water or cleaning solutions.
- **Storage:** Store the robots and remote controls in a cool, dry place away from direct sunlight when not in use. Remove batteries for long-term storage.
- **Battery Replacement:** Replace batteries when performance diminishes.

TROUBLESHOOTING

Problem	Solution
Robot not responding to remote.	<p>Ensure both robot and remote are powered ON.</p> <p>Check battery levels in both robot and remote; replace if low.</p> <p>Ensure there are no obstructions between the remote and robot's infrared sensors.</p> <p>Try re-pairing by turning both devices off and then on again.</p>

Problem	Solution
Robot moves slowly or erratically.	Replace batteries in the robot. Ensure the play surface is smooth and clear of debris.
Pilot not ejecting after hits.	Ensure the pilot figure is correctly seated in the ejector seat. Verify that the hits are directly on the chest plate target. Check battery levels.

SPECIFICATIONS

Feature	Detail
Model Number	1242020751
Brand	Sharper Image
Product Type	Remote Control Ejecting Battle Robots
Recommended Age	8 - 16 years (Manufacturer recommended minimum age: 96 months)
Material	Plastic
Control Technology	Infrared Wireless Control
Features	Lights, Sounds, Ejector Seats, Dual Play Modes (Versus/Solo)
