Miroddi Passport Holder with Find My Tracker (Model MF19)

User Manual

1. PRODUCT OVERVIEW

The Miroddi Passport Holder (Model MF19) is designed to secure your travel essentials while offering advanced tracking capabilities. Crafted from soft PU leather, it features integrated Apple Find My compatibility, RFID and NFC blocking technology, multiple card slots, and a dedicated passport holder. This manual provides instructions for setup, operation, and maintenance of your device.

2. SETUP

2.1 Pairing with Apple Find My

The Miroddi Passport Holder integrates seamlessly with Apple Find My for easy tracking. Follow these steps to pair your device:

1. Ensure your iPhone or iPad has **Two-Factor Authentication** turned on.
2. Press the **power button** on the passport holder once to turn it on.
3. Open the **Find My app** on your iPhone or iPad and ensure **Bluetooth** is enabled.
4. In the Find My app, tap the "**Add Item**" button located at the bottom of the "Items" menu. Select "**Other Supported Item**" and tap "**Connect**" when prompted.

3. OPERATING INSTRUCTIONS

3.1 Locating Your Passport Holder

Once paired, you can utilize the Apple Find My app to locate your passport holder:

- **Play Sound:** If your passport holder is nearby, you can make it emit a sound to help you pinpoint its exact location.
- **Directions:** For items further away, the Find My app can provide directions to its last known location.
- **Left-behind Alerts:** Set up alerts to receive a notification on your iPhone or iPad if you leave your passport holder behind.

Sound for Close Search

Find it with a tap of a button on your iPhone

3.2 Organizing Your Essentials

The passport holder is designed for efficient organization of your travel documents and cards:

- **Passport Slot:** Securely holds your passport.
- **Card Slots:** Features 8 card slots for credit cards, ID cards, and other essential cards.

- **ID Clear Window:** One slot includes a clear window for easy display of your identification.
- **Tickets Slot:** A dedicated slot for air or steamer tickets.

3.3 RFID and NFC Protection

The passport holder is equipped with RFID and NFC blocking technology to safeguard your personal information:

- This feature helps prevent unauthorized scanning of your credit cards and passport data.
- It also provides degauss protection for your cards, preventing demagnetization.

4. MAINTENANCE

4.1 Battery Charging

The Miroddi Passport Holder includes a long-lasting rechargeable battery for its Find My functionality. To ensure continuous tracking:

- The battery lasts up to 5 months on a single 1.5-hour charge.
- Charge the wallet using a **wireless charger**. Please note that the wireless charger is not included with the product.

5. TROUBLESHOOTING

5.1 Connectivity Issues

- **Not connecting to Find My:** Ensure the passport holder's battery is charged and that Bluetooth is enabled on your iPhone/iPad. Try restarting both devices and repeating the pairing steps.
- **Inaccurate location:** Location accuracy depends on the density of Apple devices in the vicinity. In areas with fewer devices, location updates may be less frequent or precise.

5.2 Battery Related Concerns

- **Battery not charging:** Verify that your wireless charger is functioning correctly and that the passport holder is placed properly on the charging surface.
- **Short battery life:** Ensure the device is fully charged. Battery life can vary based on usage and environmental factors.

6. SPECIFICATIONS

| Feature | Detail |
