MONDAWE FBM-MOA070-1

MONDAWE 15x15FT Hexagon Hardtop Gazebo Instruction Manual

Model: FBM-MOA070-1

Brand: MONDAWE

1. INTRODUCTION AND OVERVIEW

This manual provides comprehensive instructions for the assembly, safe operation, and proper maintenance of your MONDAWE 15x15FT Hexagon Hardtop Gazebo. Please read all instructions carefully before beginning assembly or use to ensure safety and optimal performance of your product.

The MONDAWE Hexagon Hardtop Gazebo is designed for outdoor use, providing a shaded and comfortable area for various activities. It features a heavy-duty aluminum frame and a galvanized steel double roof for durability and weather resistance.

2. SAFETY INFORMATION

Important Safety Warnings:

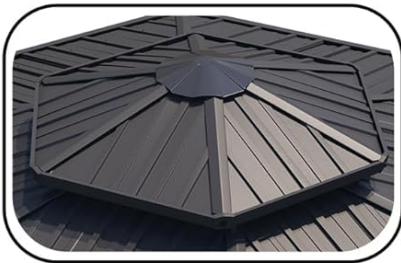

- Always secure the gazebo to a stable foundation using the provided anchoring kit.
- Exercise caution when handling sharp objects and heavy components during assembly and disassembly.
- Keep children and pets away from the gazebo during windy or stormy conditions.
- Do not use open flames or heating appliances inside the gazebo.
- Regularly inspect all connections and fasteners to ensure they remain tight and secure.

3. PRODUCT FEATURES

Your MONDAWE Hexagon Hardtop Gazebo is equipped with several features designed for durability, comfort, and ease of use:

3.1 Stable Aluminum Frame

The gazebo features a sturdy aluminum frame with a powder-coated brown and bronze textured finish. This frame is designed for stability and resistance to rust and corrosion. It includes black galvanized screws for enhanced durability.

HEXAGONAL PAVILION DESIGN

Reinforces corner for added stability and premium look

3.54 X 3.54 IN ALUMINUM FRAME

Provides better stability in windy and rainy conditions

STURDY PRE-DRILLED BASE

4 bases with ground spike holes can withstand wind speeds up to 54 mph

Image 3.1: Detailed view of the hexagonal pavilion design, 3.54 x 3.54 inch aluminum frame, and sturdy pre-drilled base with ground spike holes, indicating wind resistance up to 54 mph.

3.2 Double Top Galvanized Steel Roof

The double-layered galvanized steel roof design promotes better ventilation and airflow, helping to regulate temperature inside the gazebo. The sloping vertical striped iron roof prevents water accumulation and offers excellent snow load capacity.

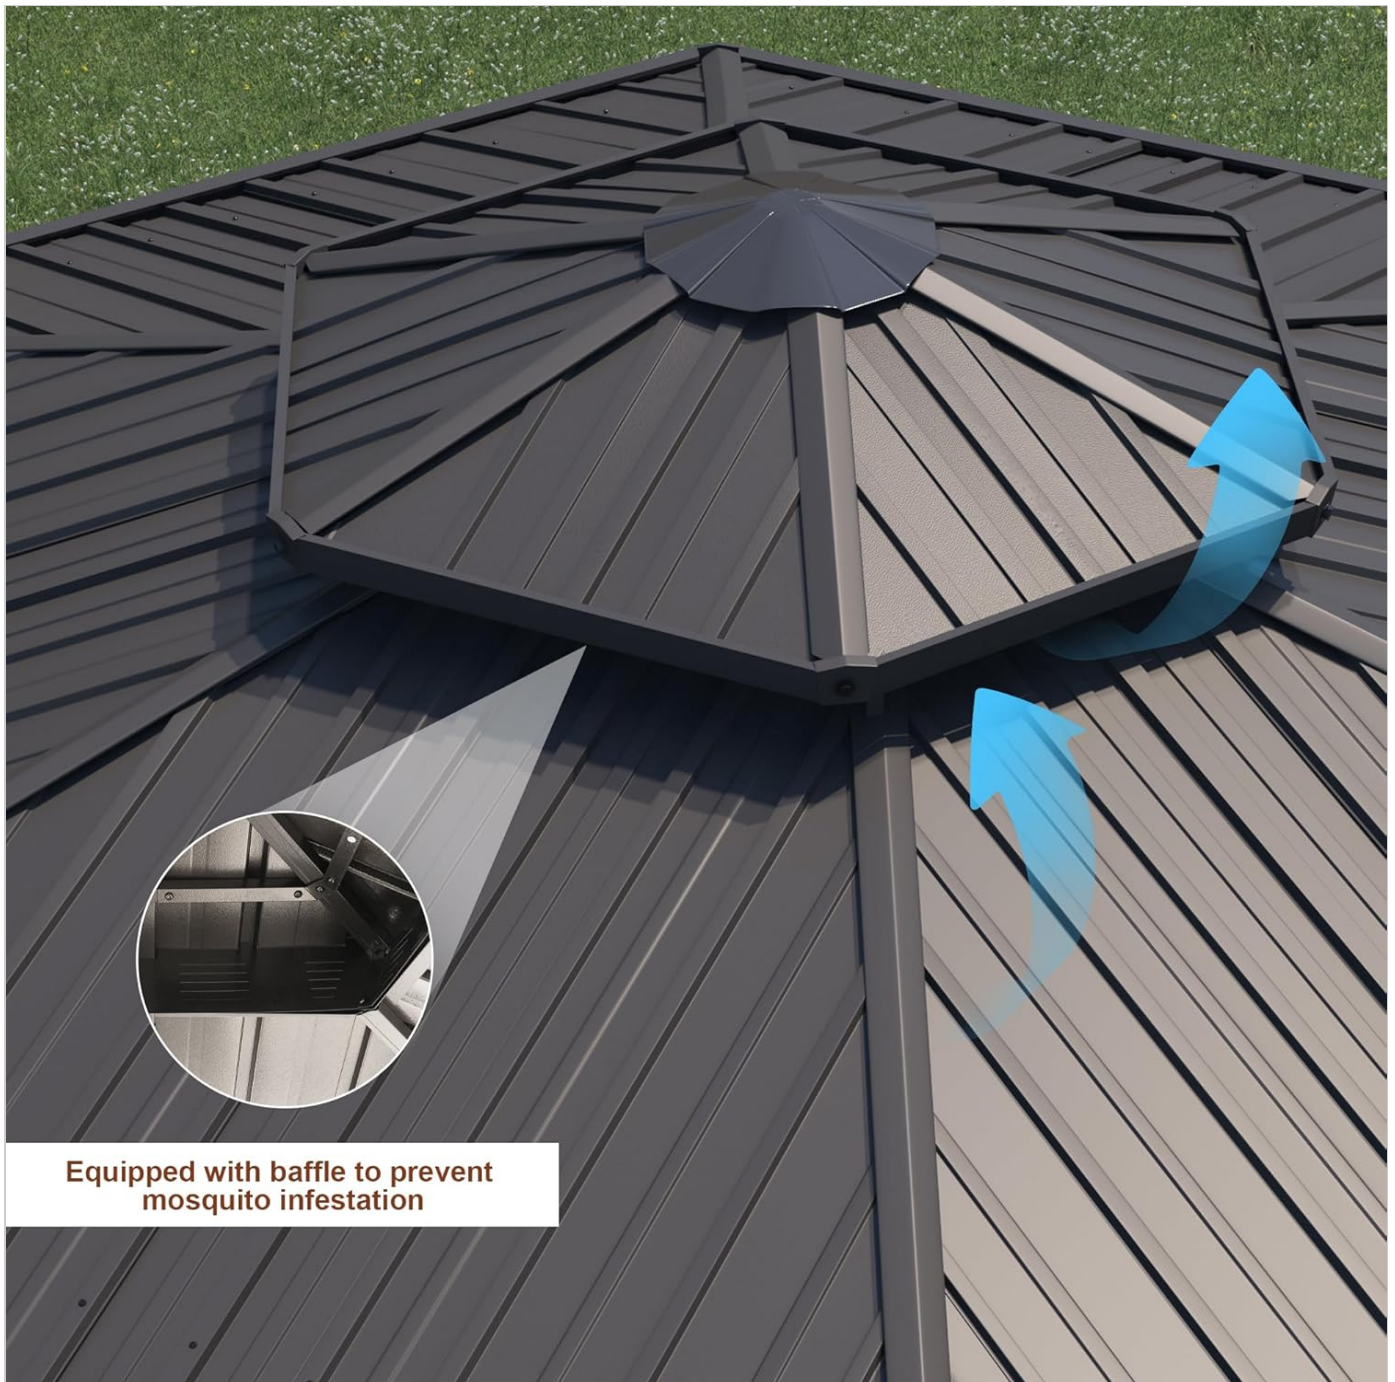

Image 3.2: The double roof design with arrows illustrating optimal airflow and a close-up of the integrated baffle for mosquito prevention. The roof's sloping design ensures efficient drainage, preventing rainwater accumulation and extending the product's service life.

5. SETUP AND ASSEMBLY

This gazebo is designed for straightforward assembly. All necessary hardware and detailed instructions are included in the package. It is recommended to have at least two adults for assembly. Please follow the step-by-step guide provided in the separate assembly manual for your specific model.

Key Assembly Steps:

- 1. Site Preparation:** Choose a level and stable area for installation. Ensure adequate clearance around the gazebo.
- 2. Unpack Components:** Carefully unpack all parts and verify against the parts list.

3. **Assemble Frame:** Connect the main aluminum frame components according to the diagrams.
4. **Install Roof:** Attach the galvanized steel roof panels, ensuring proper alignment and secure fastening.
5. **Attach Netting:** Install the polyester netting onto the dual tracks.
6. **Secure Gazebo:** Anchor the gazebo firmly to the ground using the provided hardware.

6. OPERATING INSTRUCTIONS

The MONDAWE Hexagon Hardtop Gazebo is designed for simple operation.

6.1 Using the Netting

The included polyester netting can be easily deployed or retracted along the dual tracks to provide protection from insects. The netting features zippers for convenient entry and exit.

6.2 Utilizing the Ceiling Hook

The central ceiling hook is suitable for hanging lightweight items such as outdoor fans or decorative lights. Ensure that any item hung does not exceed the weight capacity specified in the full assembly manual.

Image 6.1: The gazebo configured for evening use, demonstrating the potential for lighting and creating an inviting outdoor space.

7. MAINTENANCE

Regular maintenance will prolong the life and appearance of your gazebo.

- **Cleaning:** Clean the aluminum frame and steel roof with a mild soap solution and water. Rinse thoroughly and dry. Avoid abrasive cleaners or harsh chemicals.
- **Netting Care:** The polyester netting can be hand-washed with mild soap and water. Allow to air dry completely before storing or reattaching.
- **Fastener Check:** Periodically check all bolts, screws, and connections to ensure they are tight. Re-tighten as necessary.
- **Winter Care:** While the roof is designed for snow load, it is advisable to remove heavy snow accumulation to prevent excessive stress on the structure. In areas with extreme winter weather, consider disassembling and storing the gazebo indoors.

8. TROUBLESHOOTING

This section addresses common issues you might encounter.

Problem	Possible Cause	Solution
Water accumulation on roof	Improper roof panel installation or debris blockage.	Ensure roof panels are correctly aligned and secured. Clear any debris from the roof and drainage channels.
Gazebo feels unstable	Loose fasteners or inadequate anchoring.	Check and tighten all bolts and screws. Verify that the gazebo is properly anchored to a solid surface.
Netting does not slide smoothly	Debris in tracks or damaged netting.	Clean the dual tracks of any dirt or obstructions. Inspect netting for tears or damage.

9. WARRANTY AND SUPPORT

MONDAWE is committed to providing high-quality products. For any issues with your gazebo, please refer to your purchase documentation for warranty details. If you require assistance or have questions not covered in this manual, please contact MONDAWE customer service through the retailer where the product was purchased.
