If you encounter any difficulties during assembly, please refer to the troubleshooting section or contact customer support.

5. Operating (Usage)

The LostCat Double Twin House Bed Frame is designed for versatile use, serving as both a comfortable sleeping area and an imaginative play space for children.

- **Sleeping Arrangement:** The two twin beds provide a shared sleeping experience, ideal for siblings or sleepovers. Ensure mattresses are properly sized (39" x 75.2") and do not exceed the recommended thickness of 8 inches.
- **Safe Entry and Exit:** Due to its low floor design, children can easily and safely get in and out of the bed independently, promoting a sense of autonomy.
- **Playhouse Functionality:** The house-shaped frame encourages imaginative play. Children can decorate the roof and frame with various elements such as ribbons, curtains, tents, or string lights to personalize their space.
- **Safety First:** Always ensure that children are supervised during play activities around the bed. The integrated guardrails are designed to prevent accidental falls during sleep.

6. Maintenance

Regular maintenance will help preserve the condition and extend the lifespan of your LostCat Double Twin House Bed Frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes, as these can damage the finish.
- **Fastener Check:** Periodically check all bolts, screws, and connections to ensure they remain tight. Loose fasteners can compromise the bed's stability and safety. Tighten them gently if necessary, but do not overtighten.
- **Inspection:** Regularly inspect the frame for any signs of wear, damage, or bending. Address any issues promptly to prevent further damage or safety hazards.
- **Ventilation:** Ensure adequate air circulation around the mattress to prevent moisture buildup.

7. Troubleshooting

This section addresses common issues you might encounter with your bed frame.

- **Squeaking Noises:**
  - **Cause:** Loose connections or friction between metal parts.
  - **Solution:** Re-tighten all assembly bolts and screws. If squeaking persists, apply a small amount of silicone lubricant or wax to the joints where metal parts meet.
- **Bed Feels Unstable/Wobbly:**
  - **Cause:** Incomplete or incorrect assembly, or loose fasteners.
  - **Solution:** Review the assembly instructions carefully to ensure all steps were followed correctly. Check and tighten all bolts and screws. Ensure the bed is placed on a flat, even surface.
- **Missing or Damaged Parts:**
  - **Cause:** Packaging error or transit damage.
  - **Solution:** Do not attempt to assemble the bed with missing or damaged parts. Contact LostCat customer service immediately for assistance and replacement parts.

For issues not covered here, please contact LostCat customer support.
