PETKIT Breezy Dome Pet Backpack Carrier

PETKIT Breezy Dome Pet Backpack Carrier & Water Bottle User Manual

Model: Breezy Dome Pet Backpack Carrier

INTRODUCTION

Thank you for choosing the PETKIT Breezy Dome Pet Backpack Carrier and the accompanying 400ml Pet Water Bottle. This manual provides detailed instructions for the safe and effective use, setup, operation, and maintenance of your new pet travel system. Please read this manual thoroughly before use and retain it for future reference.

PACKAGE CONTENTS

The PETKIT Breezy Dome Pet Backpack Carrier bundle includes the following items:

- PETKIT Breezy Dome Pet Backpack Carrier
- PETKIT Eversweet Travel Pet Water Bottle (400ml)
- Detachable internal pad for the backpack

Note: A power bank is required to operate the built-in fan and is NOT INCLUDED in this package.

SETUP INSTRUCTIONS

1. Preparing the Backpack Carrier

1. **Unpack:** Carefully remove the backpack carrier from its packaging.
2. **Assemble (if necessary):** The PETKIT Breezy Dome features a new detachable design for easy cleaning and

storage. If the front dome and back harness are separated, align the connecting edges and securely fasten them together.

NEW DETACHABLE DESIGN
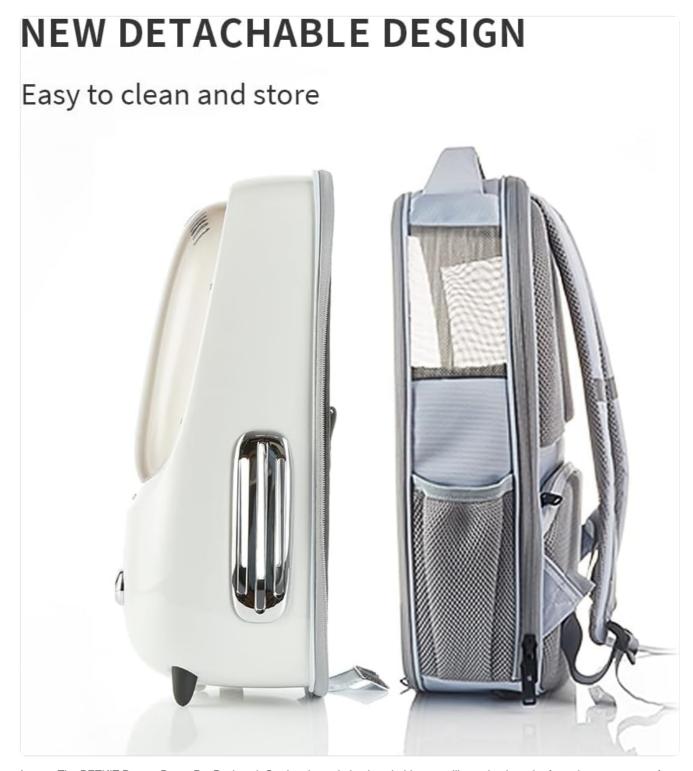

Easy to clean and store

3. **Insert Pad:** Place the detachable pad inside the carrier for your pet's comfort. This pad allows your pet to sit or lie down comfortably.

4. **Connect Power Bank (for fan):** Locate the USB cable inside the backpack. Connect it to your own power bank (not included) to power the built-in fan and lighting system. Ensure the power bank is fully charged for optimal performance.

2. Preparing the Pet Water Bottle

1. **Disassemble for Cleaning:** Twist the green top counter-clockwise to separate it from the clear bottle. The activated carbon filter can also be removed for cleaning or replacement.

2. **Fill with Water:** Fill the clear bottle with fresh drinking water.

3. **Reassemble:** Reattach the green top by twisting it clockwise until secure. Ensure the activated carbon filter is properly seated if you are using it.

OPERATING INSTRUCTIONS

1. Using the Backpack Carrier

- **Placing Your Pet Inside:** Gently guide your cat or small dog into the carrier. The carrier is suggested for pets weighing 0-17 lbs.

- **Ventilation System:** The carrier features a clever Coanda Effect ventilation system with mesh panels, multiple ventilation holes, and a built-in fan to ensure optimal air circulation.

CIRCULABLE VENTILATION SYSTEM

- **Side Pocket:** Use the side pocket to store pet snacks or other small essentials.
- **Airline Travel:** The backpack dimensions (13" L x 12" W x 18" H) are generally acceptable for airline use. However, always consult your specific airline's pet carrier policies before traveling.

2. Using the Pet Water Bottle

- **Dispensing Water:** To dispense water, hold the bottle horizontally and press the "one touch waterproof key design" button (rotate to the left). Water will flow into the trough for your pet to drink.
- **Locking Mechanism:** To prevent leakage, rotate the button to the right to lock the water flow.

CARE AND MAINTENANCE

Backpack Carrier:

- **Cleaning:** The detachable design allows for easy cleaning. Separate the front dome from the back harness. Wipe down the hard surfaces of the dome with a damp cloth and mild detergent. The fabric parts of the harness can be spot cleaned or hand washed with mild soap and water. Ensure all parts are completely dry before reassembling or storing.

- **Pad Cleaning:** The detachable pad can be removed and hand washed or machine washed on a gentle cycle with cold water. Air dry completely.

- **Fan and Electronics:** Do not immerse the fan unit or electronic components in water. Use a dry cloth or soft brush to clean dust from the fan vents.

- **Storage:** Store the carrier in a cool, dry place away from direct sunlight when not in use.

Pet Water Bottle:

- **Regular Cleaning:** Disassemble the bottle and wash all parts (bottle, trough, filter housing) with warm soapy water after each use. Rinse thoroughly.

- **Filter Replacement:** The activated carbon filter should be replaced periodically, depending on usage and water quality, to ensure optimal filtration. Replacement filters are sold separately.

- **Drying:** Allow all components to air dry completely before reassembling to prevent mold or mildew growth.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan not working / Lights not turning on	No power bank connected or power bank is depleted. USB cable is loose.	Ensure a charged power bank is connected to the internal USB cable. Check the USB connection.
Water bottle leaking	Lock button not engaged. Bottle not assembled correctly. Seal is damaged or dirty.	Rotate the button to the right to engage the lock. Ensure the green top is securely twisted onto the clear bottle. Check rubber seals for damage or debris and clean if necessary.
Pet seems uncomfortable in carrier	Insufficient ventilation. Pet not accustomed to carrier. Carrier size may be too small for pet.	Increase fan speed. Ensure vents are not blocked. Gradually introduce pet to carrier with positive reinforcement. Verify pet's weight and size are within the recommended 0-17 lbs and carrier dimensions.
