SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your JEKCA Budgie 01S-M02 model. It is crucial to follow the instructions precisely to ensure the model's stability.

1. Understand the Locking Mechanism

JEKCA blocks use a unique screw-locking system for enhanced stability. Each block has holes where small screws are

inserted to connect adjacent blocks securely.

1. **Insert Screw:** Place a small screw into the designated hole on a block.
2. **Turn 90°:** Using a small screwdriver, turn the screw 90 degrees. This action expands the screw within the block, creating a tight, secure connection with the adjacent block.
3. **Verify Connection:** Ensure the blocks are firmly joined and do not easily separate.
