Viconor Red Light Therapy Lamp Instruction Manual

This manual provides detailed instructions for the safe and effective use of your Viconor Red Light Therapy Lamp. Please read thoroughly before operation.

1. Product Overview

The Viconor Red Light Therapy Lamp is an innovative device designed for comprehensive skin care and pain relief. It features a unique 4-head design with 160 LEDs, combining 660nm red light (visible) and 850nm near-infrared light (invisible) for optimal therapeutic benefits. Its adjustable stand and flexible light heads allow for targeted treatment across various body parts, making it a convenient solution for home use.

2. Key Features

- **Innovative 4-Head Design:** Focuses red light for all-directional coverage and enhanced effect. Each head is individually angled for flexible placement.
- **Dual Wavelength Therapy:** Equipped with 160 LEDs (1x 660nm Red Light + 2x 850nm Infrared Light per LED) for comprehensive skin care, promoting blood circulation, metabolism, and cell vitality.
- **Portable & Effective:** Compact and lightweight, allowing for therapy anytime, anywhere. Features a controller with adjustable modes (5 modes) and timing options.
- **Full Body Application:** Designed for use on the face and body, aiding in muscle and joint relief, skin firming, and wrinkle reduction.
- **Adjustable Stand:** Flexibly adjust the height for precise and hassle-free sessions.

3. Safety Information & Precautions

Important: Not for use by people with heart disease or pacemakers, pregnant women, or individuals with bleeding skin. Always consult with a healthcare professional before starting any new therapy.

- **Eye Protection:** Always wear the provided protective glasses when using the device, especially when treating the face or if the light is directed towards your eyes.
- **Jewelry Removal:** Be sure to remove any metal jewelry and accessories from the area to be treated, including rings and bracelets, before using the device.
- **Session Duration:** Do not use for more than 30 minutes per treatment session.
- **Overheating:** Discontinue use immediately and contact customer service if the device overheats or becomes uncomfortably hot to your skin.

- **FDA Disclaimer:** Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

4. Package Contents

Verify that all components are present in the package:

- 4-Head Light Board
- Chassis (Base)
- Adjustable Telescopic Pole
- Goggles (Protective Eyewear)
- Controller
- Power Adapter
- User Manual

5. Setup Guide

Follow these steps to assemble your Viconor Red Light Therapy Lamp:

1. **Attach Base and Telescopic Pole:** Securely screw the adjustable telescopic pole into the chassis (base) until firm.
2. **Connect 4-Head Light Board:** Insert the connector from the 4-head light board into the top of the telescopic pole.
3. **Connect Controller and Adapter:** Plug the controller into the light board's cable, and then connect the power adapter to the controller. Plug the adapter into a power outlet.

6. Operating Instructions

Once assembled, operate your Viconor Red Light Therapy Lamp using the integrated controller:

- **Power On/Off:** Press the power button on the controller to turn the device on or off.
- **Adjust Time:** Use the timer buttons (up/down arrows) to set your desired session duration, up to 30 minutes.
- **Adjust Intensity:** Use the intensity buttons (up/down arrows) to select one of the 5 available intensity levels (L1-L5).
- **Mode Selection:** Cycle through the 5 modes to choose the one that suits your needs.
- **Positioning:** Flexibly adjust the 4 light heads and the telescopic pole to target specific areas of your body. Remember to wear protective goggles.

7. Maintenance and Care

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the lamp in a cool, dry place away from direct sunlight and moisture when not in use.
- **Handling:** Handle the flexible arms and light heads with care to avoid damage.

8. Troubleshooting

- **Device Not Turning On:** Ensure the power adapter is securely connected to the controller, the light board, and a working power outlet. Check if the power button on the controller is pressed and held.

- **Lights Flickering:** Verify all connections are secure. If flickering persists, contact customer support.
- **Device Overheating:** Immediately discontinue use and unplug the device. Allow it to cool down completely before attempting to use it again. If overheating reoccurs, contact customer support.

9. Specifications
