User Manual

## 1. PRODUCT OVERVIEW

---

The KitchenAid Fully Automatic Espresso Machine KF8 (Model KES8558SX) is designed to provide a comprehensive espresso experience at home. This machine features a durable metal-clad construction and offers a wide range of customizable beverage options.

Image 1.1: The KitchenAid KF8 Fully Automatic Espresso Machine in operation, preparing two milk-based coffee beverages.

### Key Features:

- **Personalized Beverages:** Create custom drinks with adjustable strength, length, and temperature settings.
- **Removable Bean Hopper:** Easily remove, empty, exchange, or refill coffee beans.
- **Automatic Milk System:** Integrated milk container and dual-drink delivery system for automatic frothing and heating of dairy and plant-based milks.
- **Intuitive Touchscreen:** Access over 40 recipe options and maintenance alerts via the 5-inch touchscreen.
- **Durable Construction:** Built with metal-clad components for longevity and reliability.

## **2. SETUP INSTRUCTIONS**

---

Follow these steps to set up your KitchenAid Fully Automatic Espresso Machine KF8 for first use.

### **2.1 Unpacking and Placement**

1. Carefully remove all packaging materials and protective films from the machine.
2. Place the machine on a stable, level surface near a power outlet. Ensure adequate clearance around the machine for ventilation and access to components.
3. Ensure the water tank and drip tray are correctly seated.

### **2.2 Filling the Water Tank**

1. Remove the water tank from the back of the machine.
2. Fill the tank with fresh, cold water up to the MAX fill line.

3. Reinsert the water tank securely into its position.

## 2.3 Filling the Bean Hopper

1. Locate the removable bean hopper on top of the machine.
2. Twist and lift the bean hopper to remove it.
3. Fill the hopper with whole coffee beans. Do not use ground coffee in the bean hopper.
4. Reinsert the bean hopper, ensuring it is securely locked in place.

Removable bean hopper allows you to  
**easily change, exchange  
or refill beans**

Image 2.1: The removable bean hopper for easy refilling.

## 2.4 Initial Rinse Cycle

1. Plug the machine into a grounded power outlet.
2. Follow the on-screen prompts to perform the initial rinse cycle. This primes the system and cleans internal components.
3. Discard the water collected in the drip tray after the cycle is complete.

## 3. OPERATING INSTRUCTIONS

---

The KF8 espresso machine offers a user-friendly interface for preparing a variety of coffee and milk-based beverages.

### 3.1 Touchscreen Navigation

The machine features an intuitive 5-inch touchscreen display. Use the touch controls to select beverages, adjust settings, and view maintenance alerts.

Image 3.1: The touchscreen display showing various beverage options.

### 3.2 Preparing Coffee Beverages

1. Place your cup(s) on the drip tray beneath the coffee spout. The movable spout can be adjusted to fit various cup sizes up to 5.4 inches.
2. On the touchscreen, select your desired beverage (e.g., Espresso, Americano).
3. Adjust settings such as coffee strength, volume, and temperature if desired.
4. Press the 'Start' button to begin brewing.

Movable spout  
**fits glasses and mugs  
up to 5.4"**

Image 3.2: The movable spout accommodates different cup heights.

### 3.3 Preparing Milk-Based Beverages

The KF8 includes a milk attachment for automatic frothing and heating of milk.

1. Fill the included milk container with your preferred milk (dairy or plant-based).
2. Connect the milk tube from the container to the machine's milk frothing system.
3. Place your cup(s) under the dual-drink delivery system.
4. Select a milk-based beverage (e.g., Latte, Cappuccino) from the touchscreen.
5. Adjust milk volume and froth level as needed.
6. Press the 'Start' button. The machine will automatically froth and dispense the milk, followed by the espresso.

## Steam, heat or froth **dairy and plant-based milks**

Image 3.3: Preparing a milk-based beverage using the automatic milk system.

### 3.4 Recipe Options

The KF8 offers over 40 pre-programmed recipe options. You can also personalize and save your own recipes based on strength, length, and temperature preferences.

# 40+ recipe options

## 4. MAINTENANCE AND CLEANING

Regular maintenance ensures optimal performance and longevity of your espresso machine. The machine provides on-screen alerts for cleaning cycles.

### 4.1 Daily Cleaning

- **Drip Tray:** Empty and rinse the drip tray daily or when the 'Drip Tray Full' indicator appears.
- **Milk System:** Perform an 'Easy Milk Rinsing' cycle after each milk-based beverage preparation.
- **Exterior:** Wipe the exterior with a soft, damp cloth.

### 4.2 Weekly Cleaning

- **Brew Unit:** Remove and rinse the brew unit under lukewarm water. Allow it to air dry before reinserting.
- **Deep Milk Cleaning:** Perform a 'Deep Milk Cleaning' cycle as prompted by the machine or at least once a

week.

- **Bean Hopper:** Empty any remaining beans and wipe the inside of the bean hopper.

# Easy maintenance with automatic clean alerts

## Easy Milk Rinsing

Automatic prompts make it easy to rinse your frother after every use, or whenever needed.

## Deep Milk Cleaning

Help keep your milk system performing at its best with a deep cleaning cycle in a few simple steps.

## Brew Unit Rinsing

Automatically rinses your brew unit whenever you need, or do it manually through settings.

Image 4.2: Detailed descriptions of milk and brew unit cleaning processes.

### 4.3 Descaling

The machine will prompt you when descaling is required. The frequency depends on water hardness and usage. Use a descaling solution recommended by KitchenAid and follow the on-screen instructions.

## 5. TROUBLESHOOTING

This section addresses common issues you might encounter with your espresso machine.

Problem	Possible Cause	Solution
