

Raycon RBE726-24E-BLA

Raycon Everyday Earbuds (2024 Edition) User Manual

Model: RBE726-24E-BLA

INTRODUCTION

This manual provides essential information for the proper use, setup, and maintenance of your Raycon Everyday Earbuds (2024 Edition). Please read this manual thoroughly before using your earbuds to ensure optimal performance and longevity.

WHAT'S IN THE BOX

- Everyday Earbuds
- Wireless Charging Case
- Eartips (various sizes)
- User Manual

SETUP

1. Charging Your Earbuds

Before first use, fully charge your Raycon Everyday Earbuds and their charging case. Place the earbuds into the charging case. The case can charge the earbuds up to 3 times on the go when fully charged, providing a total of 32 hours of playtime. A 10-minute charge in the case provides 1.5 hours of earbud battery life.

32 HOURS OF BATTERY

Stay connected throughout
your day - and some more.

Image: A graphic illustrating '32 Hours of Battery' with two earbuds and a battery icon, emphasizing extended playtime.

2. Pairing with Your Device

The Everyday Earbuds utilize Bluetooth wireless communication technology for seamless connection. To pair, ensure your device's Bluetooth is enabled and select the earbuds from the list of available devices. The earbuds support multipoint technology, allowing connection to two devices simultaneously, such as your phone and laptop, for effortless switching.

3. Achieving the Best Fit

The earbuds are ergonomically designed for supreme comfort. Select the eartips that provide a snug and comfortable fit for your ears. A proper fit is crucial for optimal sound quality and active noise cancellation performance.

ALL-DAY COMFORT

No more earaches.
An ergonomic bud
shape keeps ears
fatigue free.

OPERATING INSTRUCTIONS

Active Noise Cancellation (ANC)

The Everyday Earbuds feature advanced Active Noise Cancellation technology to block out distractions, allowing you to focus on your audio. This function can be activated or deactivated via the earbud's controls.

ACTIVE NOISE CANCELLATION

Block out unwanted noises -
focus on what matters.

Image: A visual representation of active noise cancellation, showing sound waves being blocked by an earbud.

Touch Controls

Effortlessly manage your audio and calls using the integrated touch controls on the earbuds. Specific tap sequences control playback, volume adjustment, and call management. Refer to the quick start guide included in the packaging for detailed touch control gestures.

TOUCH CONTROLS

Effortlessly control tracks,
volume, and answer calls.

MAINTENANCE

Cleaning

Regularly clean your earbuds and charging case to maintain hygiene and performance. Use a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents. Gently remove any earwax or debris from the eartips and speaker mesh using a small, soft brush or cotton swab.

Water and Dust Resistance

The Raycon Everyday Earbuds are fortified with an IP66 waterproof and dustproof coating. This rating means they are protected against powerful water jets and are dust-tight. While they can withstand sweat and light rain, they are not designed for submersion in water. Always ensure the earbuds are dry before placing them back into the charging case.

IP66 WEATHERPROOF

Dust and water resistant,
these earbuds are built
for all lifestyles.

Storage

When not in use, store your earbuds in their charging case to protect them and keep them charged. Store the case in a cool, dry place away from extreme temperatures and direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Earbuds not pairing	Earbuds not in pairing mode; device Bluetooth off; out of range.	Ensure earbuds are in pairing mode (refer to quick start guide); turn on device Bluetooth; bring earbuds closer to device.
No sound from one earbud	Earbud not charged; desynchronized; debris blocking speaker.	Charge both earbuds; perform a factory reset (refer to quick start guide); clean speaker mesh.
Charging case not charging	Cable issue; power source issue.	Try a different charging cable and power adapter; ensure connection is secure.

Problem	Possible Cause	Solution
Poor sound quality / ANC not effective	Improper fit; earbud dirty; environmental interference.	Adjust earbud fit and try different eartip sizes; clean earbuds; move away from sources of interference.
