3. SETUP

1. **Charge Your Apple Watch:** Connect the USB-C Magnetic Fast Charging Cable to your Apple Watch and a power adapter (sold separately).
2. **Power On:** Press and hold the side button until the Apple logo appears.
3. **Pair with iPhone:** Open the Apple Watch app on your iPhone. Follow the on-screen instructions to pair your watch. Ensure Bluetooth and Wi-Fi are enabled on your iPhone.
4. **Customize Settings:** During setup, you can customize various settings, including language, wrist preference, and cellular plan activation.

4. OPERATING INSTRUCTIONS

- **Digital Crown:** Rotate to scroll, zoom, or adjust values. Press once to go to the watch face or app launcher. Double-press to switch between recent apps.
- **Side Button:** Press once to open the Dock (recent apps). Press and hold for Emergency SOS or to power off.

- **Action Button:** This customizable button (orange) can be configured for various functions, such as starting a workout, marking a Compass Waypoint, or initiating a dive.
- **Touchscreen Gestures:** Tap to select, swipe to navigate, pinch to zoom.
- **Double Tap Gesture:** The S9 SiP enables a new double-tap gesture for quick interaction without touching the display.

7. CONNECTIVITY AND COMMUNICATION

Stay connected with your Apple Watch Ultra 2:

- **Cellular Connectivity:** Make calls, send texts, and stream music without your iPhone, even with international roaming.
- **Wi-Fi and Bluetooth:** Seamlessly connect to networks and accessories.
- **Voice Control:** Utilize voice commands for various functions.

Video: A user demonstrates the cellular calling feature of the Apple Watch Ultra 2, showing how to make and receive calls directly from the watch.

8. MAINTENANCE AND CARE

- **Cleaning:** Regularly clean your Apple Watch and band with a soft, lint-free cloth. Avoid abrasive materials.
- **Water Resistance:** The Apple Watch Ultra 2 is water resistant up to 100 meters, suitable for high-speed water sports and recreational diving. After exposure to water, especially saltwater, rinse with fresh water and dry thoroughly.
- **Avoid Extreme Temperatures:** Do not expose your watch to extreme hot or cold temperatures.

9. TROUBLESHOOTING

- **Watch Not Responding:** Force restart by holding the Digital Crown and side button simultaneously until the Apple logo appears.
- **Pairing Issues:** Ensure your iPhone's Bluetooth is on and the Apple Watch app is open. Restart both devices if necessary.
- **Battery Draining Quickly:** Check background app refresh settings, reduce screen brightness, and ensure all software is up to date.
- **Inaccurate Readings:** Ensure the watch is snug on your wrist. Clean the sensors regularly.
