Vente-unique ZEVINI

Vente-unique ZEVINI Wall-Mounted Ribbed Bathroom Vanity with Square Countertop Basin - L80 cm Instruction Manual

Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, installation, operation, and maintenance of your Vente-unique ZEVINI wall-mounted bathroom vanity. Please read all instructions carefully before beginning assembly and retain this manual for future reference. This product is designed for bathroom use and features a ribbed MDF cabinet with two soft-close drawers and a ceramic countertop basin.

SAFETY INFORMATION

- Always ensure the wall is suitable for mounting and can support the weight of the vanity and its contents. Consult a professional if unsure.
- Use appropriate wall fixings for your wall type (not included).
- Keep small parts away from children during assembly to prevent choking hazards.
- Do not overtighten screws, as this may damage the material.
- Ensure all water connections are properly sealed to prevent leaks.
- This product is designed for indoor use only.

PACKAGE CONTENTS

Before starting assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- 1 x ZEVINI Vanity Cabinet (MDF, White, Ribbed)
- 1 x VERINI Countertop Basin (Ceramic, White, Square)
- 2 x Drawer Units with Soft-Close Mechanism
- 2 x Black Metal Handles
- Assembly Hardware (screws, dowels, brackets for cabinet assembly)
- *Note: Faucet, drain, and wall mounting hardware are not included.*

SETUP AND ASSEMBLY

Assembly requires two people. Tools required: screwdriver, drill, level, measuring tape, pencil.

Step 1: Assemble the Vanity Cabinet

Follow the included cabinet assembly instructions to construct the main vanity frame. Ensure all panels are securely fastened. The MDF panels are designed for durability and moisture resistance.

Step 2: Install Drawer Slides and Drawers

Attach the drawer slides to the inside of the cabinet using the provided screws. Assemble the two drawer units, ensuring the ribbed front panels are correctly oriented. Insert the assembled drawers into the slides. The soft-close

mechanism will engage automatically.

Step 3: Wall Mounting the Cabinet

Determine the desired height for your vanity. Mark the drilling points on the wall using a level and measuring tape. Drill pilot holes and insert appropriate wall anchors (not supplied). Secure the vanity cabinet to the wall using suitable screws and brackets. Ensure the cabinet is level and firmly attached before proceeding.

Step 4: Install the Countertop Basin

Place the VERINI ceramic countertop basin onto the top surface of the vanity cabinet. Apply a bead of silicone sealant around the base of the basin to secure it and prevent water ingress. Connect the drain and faucet (not included) according to their respective manufacturer's instructions. Ensure all plumbing connections are watertight.

OPERATING INSTRUCTIONS

The ZEVINI vanity is designed for daily use in a bathroom environment. The two drawers feature a soft-close mechanism, ensuring quiet and gentle closing. To open, gently pull the black metal handles. To close, push the drawer until the soft-close mechanism engages, allowing it to close smoothly and silently.

MAINTENANCE

Cabinet Care (MDF)

- Wipe surfaces with a soft, damp cloth.
- Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- Immediately wipe away any spilled water to prevent moisture damage, especially on edges and seams.
- Do not place hot items directly on the cabinet surface.

Basin Care (Ceramic)

- Clean the ceramic basin with mild soap and water.
- For stubborn stains, use a non-abrasive ceramic cleaner.
- Rinse thoroughly after cleaning to remove all cleaning product residue.
- Avoid dropping heavy objects into the basin to prevent chipping or cracking.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawer does not close smoothly.	Obstruction in the drawer slide or misaligned drawer.	Check for objects blocking the slide. Realign the drawer on its runners. Ensure soft-close mechanism is not damaged.
Water leak from basin or faucet.	Loose plumbing connections or insufficient sealant.	Tighten all plumbing connections. Reapply silicone sealant around the basin if necessary. Consult a plumber if leaks persist.
Vanity feels unstable on the wall.	Improper wall mounting or inadequate wall anchors.	Ensure appropriate wall anchors are used for your wall type. Verify all mounting screws are securely tightened. Re-evaluate wall suitability if necessary.
