## HOLITS DODSG01A-01

# HOLITS Wireless Patio Umbrella Lights User Manual

Model: DODSG01A-01

## 1. INTRODUCTION

Thank you for choosing HOLITS Wireless Patio Umbrella Lights. This product is designed to provide warm, ambient lighting for your outdoor spaces, enhancing the atmosphere of your patio, garden, or beach umbrella. Featuring 120 high-quality LED lights, a waterproof design, and convenient remote control, these lights are perfect for various outdoor settings. Please read this manual carefully before installation and use to ensure proper operation and longevity of your product.

## 2. SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following safety precautions:

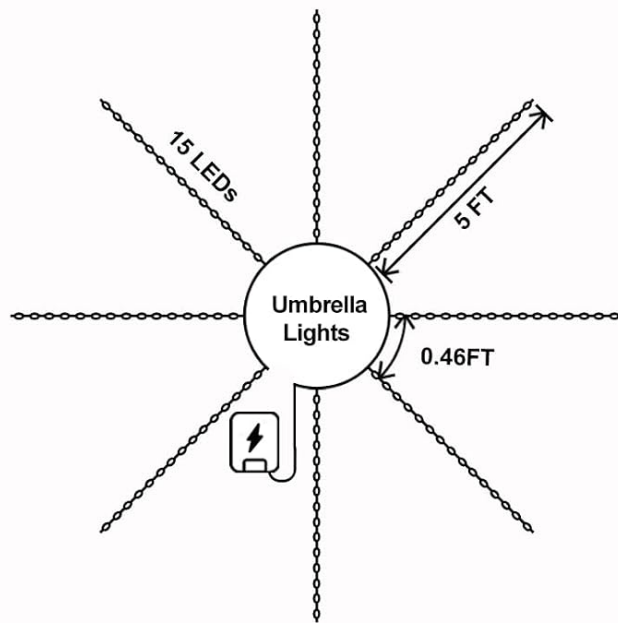

- Do not immerse the battery case in water. While the battery case is IP65 waterproof, prolonged submersion is not recommended.
- Ensure batteries are inserted with correct polarity. Incorrect insertion can cause damage to the device.
- Do not mix old and new batteries, or different types of batteries.
- Keep the product away from open flames or extreme heat sources.
- Do not attempt to modify or repair the product. Refer all servicing to qualified personnel.
- Keep out of reach of children and pets. Small parts like zip ties and batteries can be a choking hazard.
- Disconnect batteries if the product will not be used for an extended period.

### 3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x HOLITS Patio Umbrella Lights (120 LEDs, 8 strands)
- 1 x Battery Case (requires 3 x AA batteries, not included)
- 1 x Wireless Remote Control
- 40 x Zip Ties for Installation

### 4. PRODUCT FEATURES

The HOLITS Wireless Patio Umbrella Lights offer a range of features for optimal outdoor lighting:

- **120 Bright LED Lights:** Equipped with 120 high-quality LED beads, providing superior brightness compared to

standard umbrella lights.

- **8-Strand Design:** Features 8 well-designed strands, each with 15 LEDs and a length of 1.5 meters (approximately 5 feet), ideal for 6-rib or 8-rib umbrellas ranging from 2.1m to 3.4m (7-11 ft).
- **IP67 Waterproof PVC Wires:** The light wires are made from upgraded IP67 waterproof PVC material, ensuring durability and safety in various weather conditions.
- **IP65 Waterproof Battery Case:** The battery case is rated IP65 waterproof, protecting it from rain and dust, making it suitable for all-weather outdoor use.
- **Wireless Remote Control:** Easily control the lights from a distance with the included remote.
- **8 Lighting Modes:** Choose from various lighting effects including Combination, In Waves, Sequential, Slo Glo, Chasing/Flash, Slow Fade, Twinkle/Flash, and Steady On.
- **Adjustable Brightness:** Customize the light intensity to suit your preference and create the desired ambiance.
- **Timer Function:** Set the lights to automatically turn on for 6 hours and off for 18 hours, repeating every 24 hours.
- **Battery Powered:** Operates on 3 AA batteries (not included), offering portability and no need for an electrical outlet.

## Why Will You Choose US ?

### OURS

Improved the Brightness, Life Time and Stability.

### OTHERS

Unstable Light Source and Short Lifespan.

Perfect for All Weather Use, No Worries About the Rains or Snows.

Water Get in and Rusted the Circuit Board, Easily Broken.

## 5. SETUP

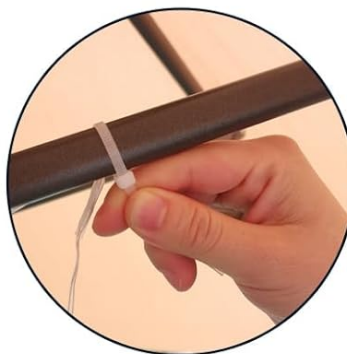

Follow these steps to install your HOLITS Patio Umbrella Lights:

1. **Step 1: Fix the Main Line on the Umbrella Frame.** Locate the central ring of the umbrella lights. Use the provided zip ties to securely attach this main line to the central frame or hub of your umbrella.
2. **Step 2: Fix Each String to Each Umbrella Rib One by One.** Extend each of the 8 light strands along a corresponding umbrella rib. Use the remaining zip ties to fasten each string firmly to its respective rib, ensuring even distribution and tension.
3. **Step 3: Tie the Battery Box on the Frame and Install the Batteries.** Find a suitable, discreet location on the umbrella frame (e.g., near the pole or a rib) to secure the battery box using a zip tie. Open the battery compartment and insert 3 AA batteries, observing the correct polarity (+/-). Close the compartment securely.

### Step 1

Fix the Main Line on the Umbrella Frame

### Step 2

Fix Each String to Each Umrella Rib One by One

### Step 3

Tie the Battery Box on the Frame and Install the Batteries

Image: A visual guide demonstrating the three easy steps for setting up the lights: attaching the main line to the umbrella frame, securing each light string to the umbrella ribs, and tying the battery box to the frame before inserting batteries.

## 6. OPERATING

Your HOLITS Patio Umbrella Lights are operated using the included wireless remote control:

- **Power On/Off:** Press the **ON** button to turn the lights on, and the **OFF** button to turn them off.
- **Mode Selection:** Use the numbered buttons (1-8) or the **MODE** button to cycle through the 8 different lighting modes: Combination, In Waves, Sequential, Slo Glo, Chasing/Flash, Slow Fade, Twinkle/Flash, and Steady On.
- **Brightness Adjustment:** Use the **+** and **-** buttons to increase or decrease the brightness level.
- **Timer Function:** Press the **TIMER** button to activate the 6-hour on, 18-hour off cycle. The lights will automatically turn on at the same time each day for 6 hours. Press again to deactivate.

## 7. MAINTENANCE

Proper maintenance will extend the life of your umbrella lights:

- **Cleaning:** Gently wipe the LED strands and battery case with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** When the lights dim or stop working, replace all 3 AA batteries in the battery case. Ensure the battery compartment is sealed tightly after replacement.
- **Storage:** If storing the lights for an extended period, remove the batteries to prevent leakage and corrosion. Store in a cool, dry place away from direct sunlight.
- **Inspection:** Periodically check the wires and connections for any signs of wear or damage.

## 8. TROUBLESHOOTING

If you encounter issues with your HOLITS Patio Umbrella Lights, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	Batteries are dead or inserted incorrectly. Battery case is not properly closed. Remote control battery is dead.	Replace batteries, ensuring correct polarity. Ensure battery case is securely closed. Replace remote control battery.
Lights are dim.	Low battery power. Brightness setting is too low.	Replace batteries. Increase brightness using the remote control.
Remote control is not working.	Remote battery is dead. Obstruction between remote and battery case. Remote is too far from the battery case.	Replace remote control battery. Ensure clear line of sight. Move closer to the battery case.
Some LEDs are not lighting up.	Damaged LED or wire.	Inspect the specific strand for visible damage. If damaged, contact customer support.

## 9. SPECIFICATIONS
