RECCAZR MK30 (B0CTG3S91X)

RECCAZR Wireless Keyboard and Mouse Combo User Manual

Model: MK30 (ASIN: B0CTG3S91X)
Brand: RECCAZR

1. INTRODUCTION

Thank you for choosing the RECCAZR Wireless Keyboard and Mouse Combo. This product offers a seamless and efficient computing experience with its 2.4Ghz wireless connection, silent operation, and ergonomic design. It is designed for compatibility with both Windows and Mac operating systems, featuring a convenient built-in phone/tablet holder and adjustable mouse DPI settings for personalized use. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance.

2. PACKAGE CONTENTS

Please check the package contents to ensure all items are present:

- 1 x RECCAZR Wireless Keyboard
- 1 x RECCAZR Wireless Mouse
- 1 x USB Nano Receiver (stored in the mouse battery compartment)
- 1 x User Manual

3. SETUP GUIDE

3.1 Battery Installation

The keyboard and mouse require AA batteries (not included).

1. **For the Keyboard:** Open the battery compartment cover on the back of the keyboard. Insert 2 x AA batteries, ensuring correct polarity (+/-). Close the cover.
2. **For the Mouse:** Open the battery compartment cover on the bottom of the mouse. Insert 1 x AA battery, ensuring correct polarity (+/-). The USB nano receiver is typically stored here; remove it before inserting the battery if present. Close the cover.

PRODUCT DETAILS

3.2 Connecting the USB Nano Receiver

The keyboard and mouse share a single USB nano receiver.

1. Locate the USB nano receiver, usually stored in the mouse's battery compartment.
2. Plug the USB nano receiver into an available USB port on your computer (desktop, laptop, etc.).
3. Turn on the keyboard and mouse using their respective ON/OFF switches. The devices are plug-and-play and should connect automatically within a few seconds. No additional drivers or software are required.

4. OPERATING INSTRUCTIONS

4.1 Dual-System Layout (Windows/Mac)

The keyboard supports both Windows and Mac operating systems. Use the following key combinations to switch modes:

- **Windows Mode:** Press **Fn + Q**. The power indicator light will remain off or in its default state.
- **Mac Mode:** Press **Fn + W**. The power indicator light will turn green to confirm Mac mode activation.

4.2 Mouse DPI Adjustment

The wireless mouse features 3 adjustable DPI levels (800-1200-1600) to suit your preference for cursor sensitivity. To adjust DPI, press the DPI button located on the top of the mouse, usually behind the scroll wheel. Each press cycles through the available DPI settings.

Image: Diagram illustrating the 3 adjustable DPI settings (800, 1200, 1600) for the wireless mouse.

4.3 Smart Power Management

Both the keyboard and mouse are equipped with an auto-sleep function to conserve battery life:

- **Keyboard:** Enters sleep mode after 5 seconds of inactivity.
- **Mouse:** Enters sleep mode after 15 minutes of inactivity.
- Both devices will also enter sleep mode if the USB receiver is unplugged or the connected PC is shut down.

To wake the devices, simply press any key on the keyboard or click any button on the mouse.

SMART POWER MANAGEMENT

Save battery life and reduce battery replacement

4.4 Built-in Phone/Tablet Holder

The keyboard features an integrated slot designed to hold your smartphone or tablet, providing a convenient viewing angle while you work. The holder size is approximately 9.85 x 0.5 inches.

BUILT IN TABLET & PHONE HOLDER

Tablets & phone holder size: 9.85 x 0.5 inches

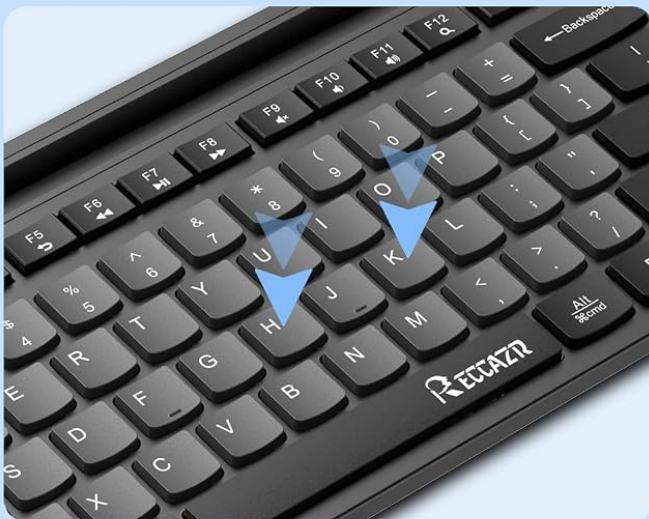

Image: The keyboard with a tablet and a phone securely placed in its built-in holder, demonstrating its utility.

4.5 Quiet and Effortless Typing

The keyboard and mouse are designed with a silent structure, reducing typing and clicking noise by up to 90%. This makes them ideal for quiet environments such as offices, libraries, or late-night use.

Never Disturb Others

90% Noise Reduction

Ultra-quiet

Image: A visual emphasizing the quiet operation of the keyboard and mouse, with a sleeping baby in the background, suggesting minimal disturbance.

Image: A close-up view of the keyboard keys, illustrating the silent structure designed for reduced noise during typing.

4.6 Multimedia Keys

The keyboard includes a full set of function keys (F1-F12) that can be used as multimedia keys when pressed in combination with the **Fn** key. These keys provide quick access to functions like volume control, media playback, and more, designed for convenience with your laptop or PC.

5. MAINTENANCE

5.1 Cleaning

To maintain the cleanliness and functionality of your keyboard and mouse:

- Use a soft, dry cloth to wipe down the surfaces.
- For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid excessive moisture.
- Do not use harsh chemicals, solvents, or abrasive cleaning agents.

5.2 Battery Replacement

When the low battery indicator lights up or performance degrades, replace the batteries as described in Section 3.1. Always use fresh AA batteries.

5.3 Spill-Resistant Design

The keyboard features a spill-resistant design with drain holes to help protect against accidental liquid spills. While this

design offers protection, it is not fully waterproof. In case of a spill, immediately disconnect the keyboard, turn it upside down to drain liquid, and allow it to dry completely before re-using.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Keyboard/Mouse not responding	Low or dead batteries. USB receiver not properly connected. Devices are off. Out of wireless range.	Replace batteries in both devices. Ensure USB receiver is firmly plugged into a working USB port. Turn on the keyboard and mouse using their ON/OFF switches. Move devices closer to the USB receiver (within 10m/33ft).
Lag or delayed response	Interference from other wireless devices. Low battery. Too far from receiver.	Move other wireless devices away from the receiver. Replace batteries. Ensure line of sight and proximity to the receiver.
Mouse cursor erratic or not moving smoothly	Dirty optical sensor. Using on an unsuitable surface.	Clean the optical sensor on the bottom of the mouse with a soft cloth. Use a mouse pad or a non-reflective, uniform surface.

7. SPECIFICATIONS

Feature	Detail
Connectivity Technology	2.4Ghz Wireless (USB Receiver)
Wireless Range	Up to 10m (33ft)
Keyboard Battery	2 x AA (not included)
Mouse Battery	1 x AA (not included)
