## Operation

---

Operating your YITAHOME storage shed is straightforward, offering multiple access points and security features.

### Opening the Lid:

To open the top lid, simply lift it. A pre-installed support rod can be pulled up and secured into a slot to keep the lid open, allowing for easy access to the shed's interior.

### Opening the Doors:

The shed features double doors for front access. To open, disengage the step-on lock at the bottom by pushing it up, and then unlatch the top handles. The doors swing open to provide full access.

### Security Features:

- **Padlock Latch:** A padlock latch is integrated into the top of the doors, allowing you to add your own padlock (not included) for enhanced security.
- **Step-on Lock:** Located at the bottom of the doors, this lock anchors the doors to the floor, providing additional stability and security.

## Care and Maintenance

The YITAHOME storage shed is designed for low maintenance, thanks to its weatherproof resin construction.

- **Cleaning:** Simply wipe down the shed with a damp cloth and mild soap as needed. Avoid harsh abrasive cleaners.
- **UV Protection:** The resin material is UV-protected, preventing fading and cracking from sun exposure.
- **Weather Resistance:** The innovative lid design and overall construction keep water out, protecting stored items from rain and other elements.

## Troubleshooting

- **Doors not closing properly:** Ensure the shed is placed on a completely level surface. Uneven ground can cause misalignment of the doors.
- **Water leakage:** Verify that all panels are securely fastened and the lid is properly closed and latched. Check for any obstructions around the base that might impede water runoff.
- **Warping of panels:** While designed to be durable, extreme temperature fluctuations can affect plastic materials. Ensure the shed is not exposed to prolonged, intense direct sunlight without adequate ventilation if possible.
