FULMINARE T10

FULMINARE T10 Air Purifier Replacement Filter Instruction Manual

Model: T10 Filter (Part Number: SDL-T10-Filter)

INTRODUCTION

This manual provides essential instructions for the installation and maintenance of your FULMINARE T10 Air Purifier Replacement Filter. This 3-in-1 filter is designed to work specifically with the FULMINARE T10 Air Purifier, ensuring optimal air quality by capturing various airborne particles.

SETUP AND INSTALLATION

Installing the FULMINARE T10 replacement filter is a straightforward process that requires no special tools. Follow these steps to ensure proper installation:

1. **Prepare the Filter:** Carefully remove the plastic film from the exterior of the new filter.
2. **Access the Purifier Base:** Turn the air purifier upside down. Locate and twist the bottom tray to unlock and remove it.
3. **Remove Old Filter:** Take out the used, dirty filter from the purifier.
4. **Insert New Filter:** Place the new FULMINARE T10 replacement filter into the purifier, ensuring it is seated correctly.
5. **Secure the Base:** Reattach the bottom tray and twist it to tighten and secure the filter in place.

OPERATING WITH THE NEW FILTER

Once the new filter is installed, your FULMINARE T10 Air Purifier is ready to operate with enhanced filtration capabilities. The improved HEPA H14 filter features 360-degree air intake, effectively covering an area of up to 100 square meters (approximately 1095 square feet). It is designed to filter 99.99% of particles as small as 0.01 microns, including smoke, pollen, pet dander, PM2.5, and VOCs, contributing to cleaner and healthier indoor air.

MAINTENANCE

Regular replacement of the air filter is crucial for maintaining the efficiency and performance of your FULMINARE T10 Air Purifier. The filter is not washable and should be replaced periodically.

- **Replacement Frequency:** It is recommended to replace the FULMINARE T10 filter every 3 to 4 months, depending on usage and air quality conditions. Consistent replacement ensures optimal filtration and extends the life of your air purifier.
- **Disposal:** Dispose of the old filter responsibly according to local waste disposal guidelines.

TROUBLESHOOTING

If you encounter issues after replacing your filter, consider the following:

- **Reduced Airflow or Odor:** Ensure the plastic film was completely removed from the new filter. Verify the filter is correctly seated and the bottom tray is securely tightened. If the issue persists, the filter might be saturated prematurely due to extremely poor air quality, or it might be time for another replacement.
- **Filter Not Fitting:** Double-check that you have the correct replacement filter for the FULMINARE T10 Air Purifier (Part Number: SDL-T10-Filter). Incorrect models will not fit properly.
- **Air Purifier Not Turning On:** This issue is typically unrelated to the filter. Check the power connection and the air purifier's main unit for any other malfunctions.

SPECIFICATIONS

FULMINARE T10 Replacement Filter Specifications

Feature	Detail
Brand	FULMINARE
Model Number	SDL-T10-Filter
Compatibility	Specifically designed for FULMINARE T10 Air Purifier
Filter Type	3-in-1 HEPA H14 Filter with Activated Carbon
Filtration Efficiency	99.99% of particles as small as 0.01 microns
Dimensions (L x W x H)	17.8 x 17.8 x 14.2 cm (7.0 x 7.0 x 5.6 inches)
Weight	99.8 g (0.22 lbs)
Coverage Area (Purifier)	Up to 100 m ² (1095 sq ft)
