## BOXPUT X88 PRO 13

# User Manual: BOXPUT X88 PRO 13 Android TV Box

Model: X88 PRO 13
Brand: BOXPUT

## 1. Introduction

Thank you for choosing the BOXPUT X88 PRO 13 Android TV Box. This device is designed to transform your television into a smart entertainment hub, offering access to a vast array of streaming content, applications, and multimedia experiences. Featuring the latest Android 13.0 OS, a powerful RK3528 Quad-core processor, 4GB RAM, 64GB ROM, and advanced connectivity options like Dual-band WiFi 6 and BT 5.0, the X88 PRO 13 delivers a fast, stable, and smooth user experience with stunning 8K HD video decoding capabilities.

## 3. Product Features

### Android 13.0 OS & Powerful CPU

The X88 PRO 13 Android TV Box runs on the advanced Android 13.0 operating system, providing a faster, more efficient, and stable user experience compared to previous versions. This ensures smooth navigation and application performance.

## 2.4G/5.8G WiFi 6 & BT 5.0

Enjoy stable and fast network performance with dual-band 2.4GHz+5.8GHz WiFi 6 and 100M Ethernet. Built-in Bluetooth 5.0 allows for easy connection to multimedia devices such as speakers, headphones, and game controllers. The TV box also supports mirroring functions (Airplay, DLNA, Miracast) to cast content from your phone or tablet to your TV screen.

## 4GB RAM + 64GB ROM

With 4GB of RAM, the operating system runs smoothly and stably, preventing buffering or crashes. The generous 64GB of internal storage provides ample space for installing applications, games, and media. Memory can be further expanded via the TF card slot (up to 64GB).

## 4. Setup Guide

1. **Connect to TV:** Use the provided HDMI cable to connect the HDMI OUT port on the TV box to an HDMI IN port on your television.
2. **Connect Power:** Plug the power adapter into the DC IN port on the TV box, then plug the adapter into a wall outlet. The device will typically power on automatically.
3. **Connect to Network:**
   - **Wi-Fi:** Go to Settings > Network > Wi-Fi, select your network, and enter the password.
   - **Ethernet:** Connect an Ethernet cable from your router to the LAN port on the TV box.
4. **Initial Setup:** Follow the on-screen instructions to complete the initial setup, including language selection, time zone, and Google account login.

Image: A side view of the TV box, highlighting its connectivity ports including USB and LAN, essential for setup.

## 5. Operating Instructions

### 5.1. Remote Control Functions

The included IR remote control allows you to navigate the Android interface. Key buttons include:

- **Power Button:** Turns the device on/off or puts it into standby.
- **Navigation Pad (Arrow Keys & OK):** Used to move through menus and select items.
- **Back Button:** Returns to the previous screen.
- **Home Button:** Returns to the main home screen.
- **Volume Buttons:** Adjusts the audio volume.
- **App Shortcuts:** Dedicated buttons for popular apps like YouTube and Netflix (if available).

### 5.2. Installing Applications

You can download and install applications from the Google Play Store. Ensure you are logged in with your Google account.

1. From the home screen, navigate to the "Apps" section or find the "Play Store" icon.
2. Browse or search for your desired application.
3. Select the app and click "Install".

### 5.3. Media Playback

The TV box supports various media formats. You can play media from:

- **USB Drives:** Connect a USB flash drive or external hard drive to the USB 3.0 or USB 2.0 ports.
- **TF Card:** Insert a TF (microSD) card into the designated slot.
- **Network Storage:** Access media from network-attached storage (NAS) or shared folders on your local network.
- **Streaming Services:** Use pre-installed or downloaded streaming apps like Netflix, Prime Video, YouTube, etc.

## 6. Maintenance

To ensure the longevity and optimal performance of your BOXPUT X88 PRO 13 TV Box, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the device. Do not use liquid cleaners or aerosols.
- **Ventilation:** Ensure the device is placed in a well-ventilated area to prevent overheating. Do not block the ventilation openings.
- **Power Off Properly:** Always power off the device correctly through the system menu or by using the remote control's power button, rather than simply unplugging it.
- **Software Updates:** Periodically check for system updates in the settings menu to ensure you have the latest features and security patches.

## 7. Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| No power | Power adapter not connected or faulty. | Check power connections. Try a different power outlet. |
| No display on TV | HDMI cable loose or connected to wrong input. TV input not set correctly. | Ensure HDMI cable is securely connected. Select the correct HDMI input on your TV. |
| Remote control not working | Batteries are low or depleted. Obstruction between remote and TV box. | Replace batteries. Remove any obstructions. Ensure line of sight. |
| Slow performance / App crashes | Too many apps running in background. Low storage space. | Close unused apps. Clear cache. Uninstall unnecessary apps. Consider a factory reset if issues persist (backup data first). |
| No Wi-Fi connection | Incorrect Wi-Fi password. Router issues. | Verify Wi-Fi password. Restart your router and the TV box. |

## 8. Specifications
