

MCHOSE AX5

MCHOSE AX5 Wireless Gaming Mouse Instruction Manual

1. INTRODUCTION AND OVERVIEW

Thank you for choosing the MCHOSE AX5 Wireless Gaming Mouse. This manual provides essential information for setting up, operating, and maintaining your device to ensure optimal performance. The MCHOSE AX5 is designed for precision and comfort, featuring a high-performance PAW3395 optical sensor, ultra-lightweight magnesium alloy construction, and versatile connectivity options.

PAW3395 Sensors

Precise control, easy to lock the goal of the game
a hit, easy to deal with FPS, 3A, and other major games.

2. SETUP

2.1 Unboxing and Initial Charge

Carefully remove the mouse and all accessories from the packaging. It is recommended to fully charge the mouse before first use. Connect the provided USB-C cable to the mouse and a USB power source.

2.2 Connectivity Modes

The MCHOSE AX5 supports three connection modes: 2.4GHz Wireless, Bluetooth, and Wired (USB-C).

- **2.4GHz Wireless:** Insert the 2.4GHz nano receiver into an available USB port on your computer.

Turn on the mouse and select the 2.4G mode. The mouse should connect automatically.

- **Bluetooth:** Turn on the mouse and select the Bluetooth mode. On your computer or device, search for Bluetooth devices and select 'MCHOSE AX5' to pair.
- **Wired:** Connect the mouse directly to your computer using the provided USB-C cable. The mouse will function in wired mode and charge simultaneously.

2.3 Software Installation

For advanced customization of DPI, polling rate, and button assignments, please download the official MCHOSE software from the manufacturer's website. Follow the on-screen instructions for installation.

3. OPERATING INSTRUCTIONS

3.1 DPI Adjustment

The MCHOSE AX5 features an adjustable DPI up to 26,000. Use the dedicated DPI button (usually located on the top or bottom of the mouse) to cycle through preset DPI levels. Custom DPI settings can be configured via the MCHOSE software.

Figure 3: The mouse offers up to 26,000 DPI for precise control.

3.2 Polling Rate

The mouse supports a 4KHz polling rate, providing ultra-responsive feedback. The polling rate can be adjusted through the MCHOSE software to suit your preferences and game requirements.

Figure 4: Visual representation of 4KHz polling rate for steady and smooth control.

3.3 Button Customization

All programmable buttons on the MCHOSE AX5 can be customized using the dedicated MCHOSE software. This allows you to assign macros, keyboard functions, or multimedia controls to enhance your gaming or productivity.

4. FEATURES

- **Ultimate Accuracy PAW3395 Sensor:** The MCHOSE AX5 utilizes the PAW3395 sensor for precise and accurate tracking, low latency, and high reliability, making it ideal for demanding gaming scenarios.

Figure 5: The PAW3395 sensor provides precise control for gaming.

- **Magnesium Alloy Construction:** Crafted from magnesium alloy, the mouse offers high durability and excellent heat dissipation, providing incredible strength and structural support while maintaining enhanced comfort and optimal performance.
- **49g Ultra-Lightweight Design:** The AX5 features an innovative hollow-out pattern and an ultra-thin outer shell, resulting in a super-lightweight 49g ergonomic body. This design ensures unparalleled precision in target tracking and effortless control.

Figure 6: The ultra-lightweight design of the MCHOSE AX5 mouse.

- **4KHz Polling Rate:** Experience 4x faster response times compared to standard gaming mice. The 4KHz polling rate allows the mouse to communicate its position and clicks up to 4000 times per second, ensuring near-zero input latency.
- **3 Modes Connect Technology:** The mouse offers versatile connectivity with Type-C wired, 2.4GHz wireless (via nano receiver), and Bluetooth options, providing flexibility for various setups and reducing cable interference.

5. SPECIFICATIONS

Feature	Specification
---------	---------------

Feature	Specification
Brand	MCHOSE
Model Number	AX5
Connectivity Technology	USB (Wired), 2.4GHz Wireless, Bluetooth
Movement Detection Technology	Optical (PAW3395 Sensor)
DPI	Up to 26,000 (Adjustable)
Polling Rate	Up to 4KHz
Item Weight	49g (Ultra-Lightweight)
Product Dimensions	0.39 x 0.39 x 0.39 inches
Material	Magnesium Alloy
Color	Black

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse surface. For stubborn dirt, a slightly damp cloth can be used, ensuring no moisture enters the internal components.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Battery Life:** To prolong battery life, avoid exposing the mouse to extreme temperatures. Charge the mouse regularly, but avoid overcharging for extended periods.
- **Storage:** When not in use for extended periods, store the mouse in a cool, dry place.

7. TROUBLESHOOTING

- **Mouse not responding:**
 - Ensure the mouse is powered on and the correct connection mode (2.4G, BT, Wired) is selected.
 - Check battery level and charge if necessary.
 - For 2.4GHz, ensure the receiver is securely plugged into a working USB port. Try a different USB port.
 - For Bluetooth, ensure Bluetooth is enabled on your device and the mouse is properly paired. Try re-pairing.
 - If using wired mode, ensure the USB-C cable is securely connected to both the mouse and the computer.
- **Inconsistent tracking or cursor movement:**
 - Clean the optical sensor on the underside of the mouse.

- Ensure you are using the mouse on a suitable surface (e.g., a mouse pad).
- Adjust DPI settings via the mouse or MCHOSE software.
- **Buttons not functioning:**
 - Check button assignments in the MCHOSE software.
 - Ensure the mouse is fully charged.
