

Diffuserlove DF-2303

Diffuserlove Flame Diffuser Humidifier DF-2303 User Manual

Model: DF-2303

1. INTRODUCTION

Thank you for purchasing the Diffuserlove Flame Diffuser Humidifier. This device combines the functions of an aroma diffuser and a humidifier, featuring a unique flame effect. Please read this manual carefully before use to ensure proper operation and maintenance.

2. SAFETY INSTRUCTIONS

- Always place the diffuser on a flat, stable surface.
- Do not exceed the maximum water fill line to prevent water from entering the air outlet.
- Use only clean tap water or distilled water. Do not use hot water.
- Avoid direct skin contact with undiluted essential oils.
- Keep out of reach of children and pets.
- Ensure proper ventilation during use.
- Do not cover the mist outlet during operation.
- Unplug the device from the power outlet before cleaning or refilling.
- Do not disassemble or attempt to repair the device yourself. Contact customer support if service is required.

3. PRODUCT OVERVIEW

The Diffuserlove Flame Diffuser Humidifier is designed to enhance your environment with soothing mist and aromatic scents, complemented by a realistic flame light effect.

Key Features:

- **Realistic Flame Effect:** Two flame colors (orange and blue) create a visually appealing atmosphere.
- **BPA-Free Materials:** Constructed from high-quality, safe materials.

- **Multiple Misting Modes:** Offers continuous mist and 30-second intermittent mist.
- **Timer Settings:** Includes ON, 30S Intermittent, 2H, and 4H timer options.
- **Low Noise Operation:** Operates quietly, suitable for bedrooms and offices (below 30dB).
- **Automatic Shut-Off:** Device automatically turns off when water runs out for safety.
- **Compact Design:** Ideal for desks, bedrooms, offices, and spas.

4. SETUP

1. **Unpack:** Carefully remove the diffuser and all accessories from the packaging. Ensure all components (diffuser unit, AC adapter) are present.
2. **Placement:** Place the diffuser on a flat, stable, and water-resistant surface away from direct sunlight or heat sources.
3. **Remove Cover:** Gently lift the top cover of the diffuser to access the water tank.
4. **Fill Water Tank:** Fill the water tank with clean tap water or distilled water up to the maximum water level indicator. Do not overfill.

6. **Replace Cover:** Securely place the top cover back onto the diffuser.
7. **Connect Power:** Plug the AC adapter into the power port on the back of the diffuser, then plug the adapter into a standard electrical outlet.

5. OPERATING INSTRUCTIONS

The diffuser features two control buttons: **LIGHT** and **MIST**.

Image: Detailed view of the control buttons for light and mist functions, including timer indicators.

LIGHT Button:

- **First Press:** Turns on the orange flame light effect.
- **Second Press:** Changes the flame light effect to blue.

- **Third Press:** Turns off the light effect.

MIST Button:

- **First Press:** Activates continuous mist mode. The 'ON' indicator light will illuminate.
- **Second Press:** Activates 30-second intermittent mist mode (30s on, 30s off). The '30S' indicator light will illuminate.
- **Third Press:** Sets the mist to operate for 2 hours, then automatically shuts off. The '2H' indicator light will illuminate.
- **Fourth Press:** Sets the mist to operate for 4 hours, then automatically shuts off. The '4H' indicator light will illuminate.
- **Fifth Press:** Turns off the mist function.

6. MAINTENANCE

Regular cleaning is essential to ensure optimal performance and longevity of your diffuser.

Daily Maintenance:

- Empty any remaining water from the tank after each use.
- Wipe the inside of the water tank with a clean, soft cloth.

Weekly Cleaning:

1. Unplug the diffuser from the power outlet.
2. Remove the top cover.
3. Pour out any remaining water from the tank.
4. Add a small amount of warm water (not hot) and 1-2 drops of white vinegar to the water tank.
5. Let it soak for 5-10 minutes to loosen any mineral buildup or essential oil residue.
6. Gently wipe the inside of the tank and the ultrasonic plate (the small ceramic disc at the bottom) with a soft brush or cotton swab. Do not scrub aggressively.
7. Rinse the tank thoroughly with clean water, ensuring no vinegar residue remains.
8. Wipe the exterior of the diffuser with a soft, dry cloth.
9. Allow all parts to air dry completely before reassembling or storing.

Important: Do not immerse the entire diffuser unit in water. Avoid using harsh detergents, abrasive cleaners, or corrosive liquids, as these can damage the device.

7. TROUBLESHOOTING

If you encounter issues with your diffuser, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or weak mist	Insufficient water in tank Water level too high Ultrasonic plate dirty Mist outlet blocked	Add water to the appropriate level. Reduce water to below max line. Clean the ultrasonic plate as per maintenance instructions. Ensure mist outlet is clear.
Diffuser not turning on	No power connection Power adapter faulty	Check if the power adapter is securely plugged into both the diffuser and the wall outlet. Try a different power outlet.
Unit shuts off unexpectedly	Water tank empty (Auto-off feature) Timer setting reached	Refill the water tank. Check the selected timer setting.
Unusual noise	Insufficient water Diffuser not on a flat surface	Add water. Ensure the diffuser is on a stable, flat surface.
