## 4. MAINTENANCE

To ensure the longevity and appearance of your CaDA Fantasma Sports Car model, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For more stubborn dirt, gently wipe with a slightly damp cloth, then immediately dry with a clean, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause colors to fade.
- **Handling:** Handle the model with care, especially when interacting with movable parts, to prevent accidental damage or detachment of pieces.

## 5. TROUBLESHOOTING

While the CaDA Fantasma Sports Car Building Set is designed for high quality and precise fit, occasional

issues may arise. Here are some common troubleshooting tips:

- **Missing Pieces:** If you discover any missing pieces during assembly, please contact customer support immediately with details of the missing part(s) and your purchase information.
- **Parts Not Fitting:**
  1. Double-check the instruction manual to ensure you are using the correct pieces for the current step.
  2. Verify the orientation of the pieces. Many pieces are designed to fit in only one specific way.
  3. Ensure that previously assembled sections are correctly and firmly connected, as misalignment can affect subsequent steps.
- **Functional Mechanisms Not Working Smoothly:**
  1. Inspect the gears and linkages for any misaligned or improperly seated pieces.
  2. Ensure no small pieces or debris are obstructing the movement of gears or levers.
