# Durable & Long Lasting

Up to **50,000**  
Hours Lifetime

Refresh your nails every  
two weeks, for **4,000** years

Image: The nail lamp with text highlighting its extended lifespan of up to 50,000 hours.

## SETUP

---

1. **Unpack:** Carefully remove all components from the packaging.
2. **Connect Power:** Plug the power adapter into the lamp's power port, then plug the adapter into a suitable electrical outlet.
3. **Placement:** Place the lamp on a stable, flat surface. Ensure adequate ventilation around the device.

## OPERATING INSTRUCTIONS

---

### Using the Manicure Tools

1. **Cuticle Nippers:** Use to carefully trim excess cuticle skin. Ensure blades are clean before use.

# PROFESSIONAL GRADE Cuticle Nipper

For accurate and controlled trimming of excess cuticle skin

Sharp blade

Easy grip

PROFESSIONAL GRADE  
STAINLESS  
STEEL

Image: Close-up of the professional-grade stainless steel cuticle nipper, highlighting its sharp blade and ergonomic grip for precise trimming.

2. **Cuticle Pusher:** Gently push back cuticles around the nails. The other end can be used to clean dirt from nail crevices.

DOUBLE-SIDED

# Cuticle Pusher

Gently push back  
cuticles around nails

Clean up dirt in  
all nail crevices

PROFESSIONAL GRADE  
STAINLESS  
STEEL

Image: The double-sided cuticle pusher, showing its two distinct ends for cuticle care and cleaning.

3. **Nail File:** Use the 100 grit side for shaping and filing down nail length. Use the 180 grit side for smoothing edges and achieving a polished finish.

# PROFESSIONAL Nail Filer

## 100 GRIT

Ideal for shaping and  
filing down nail length

## 180 GRIT

Ideal for smoothing edges  
for a polished finish

4. **Nail Buffer:** Use to smooth the nail surface and prepare it for polish application.

## Using the UV LED Nail Lamp

1. **Prepare Nails:** After cleaning and shaping your nails with the provided tools, apply your chosen gel polish according to the polish manufacturer's instructions.
2. **Power On:** Press the "ON/OFF" button to turn on the lamp.
3. **Select Timer:** Choose the appropriate curing time (e.g., 5s, 30s, 60s) by pressing the corresponding button on the lamp. The recommended curing time varies by gel polish brand and type.
4. **Cure Nails:** Place your hand or foot under the UV LED lamp. The lamp will automatically start the curing process for the selected duration. Ensure all nails are fully exposed to the light.
5. **Repeat:** Once the timer finishes, remove your hand/foot. Repeat the process for additional coats of gel polish or for the other hand/foot as needed.
6. **Final Steps:** After all coats are cured, apply a top coat and cure it under the lamp as per its instructions.

## MAINTENANCE

- **Cleaning the Lamp:** Disconnect the power adapter before cleaning. Wipe the exterior of the lamp with a soft, dry cloth. Do not use abrasive cleaners or solvents.

- **Cleaning Tools:** After each use, clean the cuticle nippers, pusher, file, and buffer with an appropriate disinfectant. Ensure they are completely dry before storage.
- **Storage:** Store the lamp and tools in a cool, dry place away from direct sunlight and moisture.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	Power adapter not connected properly or power outlet issue.	Ensure the power adapter is securely plugged into both the lamp and a working electrical outlet.
Gel polish is not curing.	Incorrect curing time, too thick polish layers, or incompatible gel polish.	<ul style="list-style-type: none"> <li>◦ Verify the recommended curing time for your specific gel polish.</li> <li>◦ Apply thinner coats of polish.</li> <li>◦ Ensure the gel polish is compatible with UV/LED lamps.</li> <li>◦ Confirm all nails are positioned correctly under the light.</li> </ul>
Lamp lights flicker or dim.	Unstable power supply or lamp malfunction.	Try a different power outlet. If the issue persists, contact customer support.
