Furbo Furbo Mini

Furbo Mini Pet Camera Instruction Manual

MODEL: FURBO MINI

Introduction

The Furbo Mini Pet Camera is an advanced device designed to help you stay connected with your pets, providing real-time monitoring, two-way audio communication, and intelligent alerts for their safety and well-being. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Furbo Mini Pet Camera.

What's in the Box

Please ensure all the following components are present in your Furbo Mini Pet Camera package:

- Furbo Mini Camera
- USB C to USB A power cord (Note: Power adapter not included)

Setup Guide

Follow these steps to set up your Furbo Mini Pet Camera:

- 1. Power Connection:** Plug in your Furbo Mini using the included USB C to USB A power cord. A USB power adapter is required but not included in the package.
- 2. App Download:** Download the official Furbo app from your device's app store (available for iOS and Android).
- 3. Account Creation & Wi-Fi Connection:** Open the Furbo app, create an account, and follow the in-app instructions to connect your camera to a 2.4GHz Wi-Fi network. Please note that 5GHz Wi-Fi is not supported.
- 4. Subscription Activation:** Choose a Furbo Nanny subscription plan within the app to activate your camera's full features. A subscription is required for camera activation.

For enhanced security, Furbo utilizes bank-level encryption and recommends enabling 2-step verification.

New

Place it anywhere

Easy to mount or place—
watch your pet from anywhere.

Operating Instructions

Once set up, your Furbo Mini Pet Camera offers a range of features to monitor and interact with your pet:

- **Live View & Two-Way Audio:** Access a full 1080p HD live view of your pet from anywhere using the Furbo app. Utilize the two-way audio feature to speak to your pet and hear their responses. The camera features a 130-degree wide-angle view.
- **Automatic Zoom & Tracking:** The camera automatically zooms in and tracks your pet's movements, ensuring you don't miss any important moments. It includes 4x digital zoom.
- **Color Night Vision:** Monitor your pet even in low-light conditions with the integrated color night vision feature.
- **AI Smart Alerts (Furbo Nanny):** Furbo's AI-powered system provides real-time alerts to keep you informed about your pet's activities and potential emergencies. These alerts include:
 - Barking/Meowing Alert
 - Activity Alert
 - Pet Emergency Alert
 - Home Security Alert (e.g., Glass Breaking Alert, Person Alert, Smoke Alarm Alert)
 - Abnormal Behavior Alert
- **Activity Monitoring & Health Insights:** Track your pet's daily activity and identify trends over time. The app provides video recaps and insights that can be shared with your veterinarian for informed health decisions.
- **Nanny Chat:** An AI-powered chat feature within the app provides insights for your pet's health, allowing you to ask questions and receive information.

Ask Nanny Chat anything

AI-powered insights for your pet's health

Charlie's been shaking his head.
Is this normal?

Charlie's head shaking isn't normal and
may signal an issue:

 **Possible Ear Infection:**

Redness + shaking = likely Otitis Externa
(80% confidence level). We recommend
seeing your vet.

***Furbo in-app subscription required. Not sold on Amazon.**

Maintenance

Proper maintenance ensures the longevity and optimal performance of your Furbo Mini Pet Camera:

- **Cleaning the Lens:** Regularly wipe the camera lens with a soft, dry, lint-free cloth to remove dust or smudges. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the lens or camera body.
- **Camera Body:** Clean the exterior of the camera with a slightly damp cloth if necessary, then dry thoroughly. Ensure no moisture enters the device.

- **Placement:** Place the camera in a stable location, away from direct sunlight, extreme temperatures, and high humidity to prevent damage.

Troubleshooting

If you encounter issues with your Furbo Mini Pet Camera, refer to the following common solutions:

| Problem | Possible Cause / Solution |
|------------------------------|---|
| Camera not powering on | Ensure the USB C to USB A power cord is securely connected to both the camera and a working USB power adapter (not included) plugged into a live outlet. |
| Unable to connect to Wi-Fi | Verify your Wi-Fi network is 2.4GHz, as 5GHz networks are not supported. Check your Wi-Fi password and ensure the camera is within range of your router. Try restarting your router and the Furbo camera. |
| No live video feed / Offline | Check your internet connection. Ensure the Furbo app is updated to the latest version. Restart the Furbo camera by unplugging and re-plugging it. |
| Two-way audio issues | Ensure your phone's microphone and speaker permissions are enabled for the Furbo app. Check the volume settings on both your phone and within the app. |
| Smart alerts not working | Confirm you have an active Furbo Nanny subscription. Check alert settings within the Furbo app to ensure they are enabled and configured correctly. |
