VAV VA-LT002

VAV Mini Projector User Manual

Model: VA-LT002

INTRODUCTION

The VAV Mini Projector is a versatile and portable laser projector designed to deliver a high-quality entertainment experience. With its advanced features like 1080P HD resolution, auto focus, and an integrated Smart Android TV system, it transforms any space into a cinematic environment. The built-in battery ensures extended usage, making it ideal for both indoor and outdoor viewing.

The VAV Mini Projector, showcasing its compact and modern design with the projection lens visible.

SETUP

Setting up your VAV Mini Projector is designed to be straightforward and user-friendly. The projector features automatic focus and alignment capabilities, which means it will intelligently adjust the image for optimal clarity and shape without manual intervention. Simply place the projector on a stable surface, power it on, and it will begin its automatic calibration process.

The projector's ability to project various screen sizes, from 40 to 120 inches, adapting to different viewing environments. For initial power-up, connect the provided power adapter to the projector and a wall outlet. The Smart Android TV system will guide you through network connection and account setup, allowing immediate access to streaming services.

OPERATING INSTRUCTIONS

Your VAV Mini Projector comes equipped with a Smart Android TV 9.0 system, providing seamless access to popular streaming platforms such as Netflix, YouTube, HBO Max, and Prime Video. Navigate through the interface using the included remote control. The intuitive menu allows for easy selection of content, adjustment of settings, and management of connected devices.

The projector in an outdoor setting, demonstrating its versatility for evening entertainment.

The built-in 16500mAh battery offers significant portability, allowing for up to 3 hours of video playback or 6 hours of continuous audio. This feature is ideal for outdoor movie nights, camping trips, or simply moving the entertainment from room to room without needing a power outlet.

The projector's compact size, easily held in one hand, emphasizing its portability.

The projector set up on a small table, ready for an outdoor viewing experience.

MAINTENANCE

To ensure the longevity and optimal performance of your VAV Mini Projector, regular maintenance is recommended:

- **Lens Cleaning:** Gently wipe the projector lens with a soft, lint-free cloth. Avoid abrasive materials or harsh chemicals.
- **Ventilation:** Ensure the projector's ventilation ports are clear of obstructions to prevent overheating. Do not place the projector on soft surfaces that may block airflow.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your VAV Mini Projector, consider the following common troubleshooting steps:

- **No Image:** Check all cable connections (power, HDMI, etc.). Ensure the projector is powered on and the

input source is correctly selected.

- **Blurry Image:** Allow the auto-focus feature to recalibrate. If the issue persists, ensure the projector is placed on a stable, level surface.
- **No Sound:** Verify that the volume is not muted on the projector or the connected source. Check audio output settings on the projector.
- **Overheating Warning:** Ensure adequate ventilation around the projector. Turn off the projector and allow it to cool down before restarting.

For persistent issues, please refer to the support section on the VAV official website or contact customer service.

SPECIFICATIONS

Feature	Detail
Product Dimensions	3.54 x 1.42 x 0.59 inches
Item Weight	4 pounds
