IBOWZ B0CTMP63R

IBOWZ Barber Chair User Manual

Model: B0CTMP63R

INTRODUCTION

This manual provides essential instructions for the assembly, operation, maintenance, and troubleshooting of your new IBOWZ Barber Chair. Please read this manual thoroughly before use to ensure safe and correct operation and to maximize the lifespan of your product.

Image 1: The IBOWZ Barber Chair in Black. This image shows the overall design of the chair, featuring a black upholstered seat and backrest, square armrests, a chrome hydraulic base, and a footrest.

SETUP AND ASSEMBLY

Your IBOWZ Barber Chair is designed for straightforward assembly. All necessary accessories and an installation manual are included in the packaging. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the included installation manual are present and undamaged.
2. **Attach Base to Hydraulic Pump:** Secure the chair's base to the hydraulic pump mechanism. Ensure all connections are tight and stable.
3. **Assemble Seat and Backrest:** Connect the seat and backrest components according to the diagrams in the installation manual. Pay attention to the alignment of mounting points.
4. **Install Armrests:** Attach the armrests to the seat frame. Ensure they are firmly secured.

5. **Mount Footrest:** Secure the footrest to the chair's base or hydraulic column as instructed.
6. **Final Check:** After assembly, gently test the chair's stability and functionality before first use.

Image 2: Detail showing the sturdy construction of the chair's backrest attachment points, indicating robust metal brackets for durability.

Image 3: Close-up view of the heavy-duty hydraulic pump and the stable footrest. The pump mechanism is shown with arrows indicating height adjustment, and the footrest is designed for client comfort and stability.

OPERATING INSTRUCTIONS

The IBOWZ Barber Chair offers several adjustable features for optimal client comfort and stylist convenience.

- **Height Adjustment:** Utilize the heavy-duty hydraulic pump lever, typically located on the side of the chair's base, to adjust the chair's height. Pressing the lever down will lower the chair, while pumping it will raise the chair. The adjustable height range is approximately 15 cm.
- **360-Degree Swivel:** The chair features a full 360-degree swivel capability, allowing for easy positioning of the client without moving the entire base.
- **Ergonomic Design:** The chair is designed to conform to the natural shape of the human back, providing comfort and support. The high-density foam further enhances comfort for extended periods.
- **Footrest:** The integrated footrest provides additional comfort and support for clients during services.

USING HIGH QUALITY PU
WATERPROOF AND MOISTURE-PROOF AND EASY TO CARE FOR
SOFT AND SKIN-FRIENDLY
PUT DIRTY

CARE AND MAINTENANCE

Proper care and maintenance will ensure the longevity and appearance of your IBOWZ Barber Chair.

- **Cleaning the Upholstery:** The chair is made of high-quality polyurethane (PU) synthetic leather, which is waterproof, stain-resistant, and easy to clean.
 - Wipe spills immediately with a soft, damp cloth.
 - For general cleaning, use a mild soap solution and a soft cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the material.
 - Dry thoroughly after cleaning to prevent water spots.
- **Base and Metal Parts:** Clean the chrome base and other metal components with a soft cloth and a non-abrasive cleaner designed for metal surfaces.
- **Hydraulic Pump:** Periodically check the hydraulic pump for smooth operation. If it becomes stiff, consult the troubleshooting section or contact support.
- **General Inspection:** Regularly inspect all bolts and connections to ensure they remain tight. Tighten any loose fasteners as needed.

High Density Sponge

Image 5: Close-up texture of the high-quality PU synthetic leather, emphasizing its smooth, durable, and easy-to-clean surface.

Image 6: Image showing a hand pressing into a high-density sponge, illustrating the comfortable and supportive cushioning used in the chair.

TROUBLESHOOTING

If you encounter any issues with your IBOWZ Barber Chair, refer to the following common solutions:

Problem	Possible Cause	Solution
Chair does not adjust height smoothly.	Low hydraulic fluid or air in the pump.	Operate the hydraulic lever several times through its full range of motion to bleed air. If the problem persists, contact customer support.
Chair feels unstable or wobbly.	Loose connections or uneven floor.	Check and tighten all assembly bolts. Ensure the chair is on a flat, even surface.
Swivel mechanism is stiff.	Accumulated debris or lack of lubrication.	Clean around the swivel mechanism. Apply a small amount of silicone-based lubricant if accessible and recommended by the manufacturer.

If these solutions do not resolve the issue, please contact IBOWZ customer support for further assistance.

SPECIFICATIONS

Key specifications for the IBOWZ Barber Chair (Model B0CTMP63R):

- **Brand:** IBOWZ
- **Model:** B0CTMP63R
- **Color:** Black
- **Upholstery Material:** High-quality Polyurethane (PU) Synthetic Leather
